

# Intracranial Pressure Monitoring Device Market Report: Trends, Forecast and Competitive Analysis to 2030

<https://marketpublishers.com/r/IF3D8F0D837BEN.html>

Date: September 2023

Pages: 150

Price: US\$ 4,850.00 (Single User License)

ID: IF3D8F0D837BEN

## Abstracts

It will take 2-3 business days to deliver the report upon receipt the order if any customization is not there.

### Intracranial Pressure Monitoring Device Trends and Forecast

The future of the global intracranial pressure monitoring device market looks promising with opportunities in the traumatic brain injury, intracerebral hemorrhage, meningitis, subarachnoid hemorrhage, csf management, and migraine markets. The global intracranial pressure monitoring device market is expected to reach an estimated \$2.9 billion by 2030 with a CAGR of 7.6% from 2024 to 2030. The major drivers for this market are growing prevalence of neurological disorders, rising use of non-invasive methods for intracranial pressure monitoring, and increasing cases of brain tumors and childhood hydrocephalus.

A more than 150-page report is developed to help in your business decisions. Sample figures with some insights are shown below.

### Intracranial Pressure Monitoring Device by Segment

The study includes a forecast for the global intracranial pressure monitoring device by technique, application, end use, and region.

Intracranial Pressure Monitoring Device Market by Technique [Shipment Analysis by Value from 2018 to 2030]:

Invasive

Non-Invasive

Intracranial Pressure Monitoring Device Market by Application [Shipment Analysis by Value from 2018 to 2030]:

Traumatic Brain Injury

Intracerebral Hemorrhage

Meningitis

Subarachnoid Hemorrhage

CSF Management

Migraine

Others

Intracranial Pressure Monitoring Device Market by End Use [Shipment Analysis by Value from 2018 to 2030]:

Hospitals

Clinics

Private Medical Offices

Trauma Centers

Government and Research Organizations

Intracranial Pressure Monitoring Device Market by Region [Shipment Analysis by Value from 2018 to 2030]:

North America

Europe

Asia Pacific

The Rest of the World

## List of Intracranial Pressure Monitoring Device Companies

Companies in the market compete on the basis of product quality offered. Major players in this market focus on expanding their manufacturing facilities, R&D investments, infrastructural development, and leverage integration opportunities across the value chain. With these strategies intracranial pressure monitoring device companies cater increasing demand, ensure competitive effectiveness, develop innovative products & technologies, reduce production costs, and expand their customer base. Some of the intracranial pressure monitoring device companies profiled in this report include-

Medtronic

Integra Lifesciences

Raumedic

Sophysa

Spiegelberg

Natus Medical

Gaelic Devices

Neural Analytics

## Intracranial Pressure Monitoring Device Market Insights

Lucintel forecasts that invasive is expected to witness highest growth over the forecast

period due to its cost effectiveness and wide usage in therapeutic CSF (cerebrospinal fluid leak) drainage and drug administration.

Traumatic brain injury will remain the largest segment due to significant use of ICP devices in patients suffering from traumatic brain injury.

North America is expected to witness highest growth over the forecast period due to availability of modern medical devices, increasing population need for minimally invasive procedures, and growing preference for noninvasive invasive ICP monitoring procedures in the region.

### Features of the Global Intracranial Pressure Monitoring Device Market

**Market Size Estimates:** Intracranial pressure monitoring device market size estimation in terms of value (\$B).

**Trend and Forecast Analysis:** Market trends (2018 to 2023) and forecast (2024 to 2030) by various segments and regions.

**Segmentation Analysis:** Intracranial pressure monitoring device market size by technique, application, end use, and region in terms of value (\$B).

**Regional Analysis:** Intracranial pressure monitoring device market breakdown by North America, Europe, Asia Pacific, and Rest of the World.

**Growth Opportunities:** Analysis of growth opportunities in different techniques, applications, end uses, and regions for the intracranial pressure monitoring device market.

**Strategic Analysis:** This includes M&A, new product development, and competitive landscape of the intracranial pressure monitoring device market.

Analysis of competitive intensity of the industry based on Porter's Five Forces model.

### FAQ

**Q.1** What is the intracranial pressure monitoring device market size?

**Answer:** The global intracranial pressure monitoring device market is expected to reach

an estimated \$2.9 billion by 2030.

Q.2 What is the growth forecast for intracranial pressure monitoring device market?

Answer: The global intracranial pressure monitoring device market is expected to grow with a CAGR of 7.6% from 2024 to 2030.

Q.3 What are the major drivers influencing the growth of the intracranial pressure monitoring device market?

Answer: The major drivers for this market are growing prevalence of neurological disorders, rising use of non-invasive methods for intracranial pressure monitoring, and increasing cases of brain tumors and childhood hydrocephalus.

Q4. What are the major segments for intracranial pressure monitoring device market?

Answer: The future of the intracranial pressure monitoring device market looks promising with opportunities in the traumatic brain injury, intracerebral hemorrhage, meningitis, subarachnoid hemorrhage, csf management, and migraine markets.

Q5. Who are the key intracranial pressure monitoring device market companies?

Answer: Some of the key intracranial pressure monitoring device companies are as follows:

Medtronic

Integra Lifesciences

Raumedic

Sophysa

Spiegelberg

Natus Medical

Gaelic Devices

## Neural Analytics

Q6. Which intracranial pressure monitoring device market segment will be the largest in future?

Answer: Lucintel forecasts that invasive is expected to witness highest growth over the forecast period due to its cost effectiveness and wide usage in therapeutic CSF (cerebrospinal fluid leak) drainage and drug administration.

Q7. In intracranial pressure monitoring device market, which region is expected to be the largest in next 5 years?

Answer: North America is expected to witness highest growth over the forecast period due to availability of modern medical devices, increasing population need for minimally invasive procedures, and growing preference for noninvasive invasive ICP monitoring procedures in the region.

Q.8 Do we receive customization in this report?

Answer: Yes, Lucintel provides 10% customization without any additional cost.

This report answers following 11 key questions:

Q.1. What are some of the most promising, high-growth opportunities for the intracranial pressure monitoring device market by technique (invasive and non-invasive), application (traumatic brain injury, intracerebral hemorrhage, meningitis, subarachnoid hemorrhage, CSF management, migraine, and others), end use (hospitals, clinics, private medical offices, trauma centers, and government & research organizations), and region (North America, Europe, Asia Pacific, and the Rest of the World)?

Q.2. Which segments will grow at a faster pace and why?

Q.3. Which region will grow at a faster pace and why?

Q.4. What are the key factors affecting market dynamics? What are the key challenges and business risks in this market?

Q.5. What are the business risks and competitive threats in this market?

Q.6. What are the emerging trends in this market and the reasons behind them?

Q.7. What are some of the changing demands of customers in the market?

Q.8. What are the new developments in the market? Which companies are leading these developments?

Q.9. Who are the major players in this market? What strategic initiatives are key players pursuing for business growth?

Q.10. What are some of the competing products in this market and how big of a threat do they pose for loss of market share by material or product substitution?

Q.11. What M&A activity has occurred in the last 5 years and what has its impact been on the industry?

For any questions related to Intracranial Pressure Monitoring Device Market, Intracranial Pressure Monitoring Device Market Size, Intracranial Pressure Monitoring Device Market Growth, Intracranial Pressure Monitoring Device Market Analysis, Intracranial Pressure Monitoring Device Market Report, Intracranial Pressure Monitoring Device Market Share, Intracranial Pressure Monitoring Device Market Trends, Intracranial Pressure Monitoring Device Market Forecast, Intracranial Pressure Monitoring Device Companies, write Lucintel analyst at email: [helpdesk@lucintel.com](mailto:helpdesk@lucintel.com). We will be glad to get back to you soon.

## Contents

### **1. EXECUTIVE SUMMARY**

### **2. GLOBAL INTRACRANIAL PRESSURE MONITORING DEVICE MARKET : MARKET DYNAMICS**

2.1: Introduction, Background, and Classifications

2.2: Supply Chain

2.3: Industry Drivers and Challenges

### **3. MARKET TRENDS AND FORECAST ANALYSIS FROM 2018 TO 2030**

3.1. Macroeconomic Trends (2018-2023) and Forecast (2024-2030)

3.2. Global Intracranial Pressure Monitoring Device Market Trends (2018-2023) and Forecast (2024-2030)

3.3: Global Intracranial Pressure Monitoring Device Market by Technique

3.3.1: Invasive

3.3.2: Non-Invasive

3.4: Global Intracranial Pressure Monitoring Device Market by Application

3.4.1: Traumatic Brain Injury

3.4.2: Intracerebral Hemorrhage

3.4.3: Meningitis

3.4.4: Subarachnoid Hemorrhage

3.4.5: CSF Management

3.4.6: Migraine

3.4.7: Others

3.5: Global Intracranial Pressure Monitoring Device Market by End Use

3.5.1: Hospitals

3.5.2: Clinics

3.5.3: Private Medical Offices

3.5.4: Trauma Centers

3.5.5: Government and Research Organizations

### **4. MARKET TRENDS AND FORECAST ANALYSIS BY REGION FROM 2018 TO 2030**

4.1: Global Intracranial Pressure Monitoring Device Market by Region

4.2: North American Intracranial Pressure Monitoring Device Market

4.2.2: North American Intracranial Pressure Monitoring Device Market by Application: Traumatic Brain Injury, Intracerebral Hemorrhage, Meningitis, Subarachnoid Hemorrhage, CSF Management, Migraine, and Others

4.3: European Intracranial Pressure Monitoring Device Market

4.3.1: European Intracranial Pressure Monitoring Device Market by Technique: Invasive and Non-Invasive

4.3.2: European Intracranial Pressure Monitoring Device Market by Application: Traumatic Brain Injury, Intracerebral Hemorrhage, Meningitis, Subarachnoid Hemorrhage, CSF Management, Migraine, and Others

4.4: APAC Intracranial Pressure Monitoring Device Market

4.4.1: APAC Intracranial Pressure Monitoring Device Market by Technique: Invasive and Non-Invasive

4.4.2: APAC Intracranial Pressure Monitoring Device Market by Application: Traumatic Brain Injury, Intracerebral Hemorrhage, Meningitis, Subarachnoid Hemorrhage, CSF Management, Migraine, and Others

4.5: ROW Intracranial Pressure Monitoring Device Market

4.5.1: ROW Intracranial Pressure Monitoring Device Market by Technique: Invasive and Non-Invasive

4.5.2: ROW Intracranial Pressure Monitoring Device Market by Application: Traumatic Brain Injury, Intracerebral Hemorrhage, Meningitis, Subarachnoid Hemorrhage, CSF Management, Migraine, and Others

## **5. COMPETITOR ANALYSIS**

5.1: Product Portfolio Analysis

5.2: Operational Integration

5.3: Porter's Five Forces Analysis

## **6. GROWTH OPPORTUNITIES AND STRATEGIC ANALYSIS**

6.1: Growth Opportunity Analysis

6.1.1: Growth Opportunities for the Global Intracranial Pressure Monitoring Device Market by Technique

6.1.2: Growth Opportunities for the Global Intracranial Pressure Monitoring Device Market by Application

6.1.3: Growth Opportunities for the Global Intracranial Pressure Monitoring Device Market by End Use

6.1.4: Growth Opportunities for the Global Intracranial Pressure Monitoring Device Market by Region

6.2: Emerging Trends in the Global Intracranial Pressure Monitoring Device Market

6.3: Strategic Analysis

6.3.1: New Product Development

6.3.2: Capacity Expansion of the Global Intracranial Pressure Monitoring Device Market

6.3.3: Mergers, Acquisitions, and Joint Ventures in the Global Intracranial Pressure Monitoring Device Market

6.3.4: Certification and Licensing

## **7. COMPANY PROFILES OF LEADING PLAYERS**

7.1: Medtronic

7.2: Integra Lifesciences

7.3: Raumedic

7.4: Sophysa

7.5: Spiegelberg

7.6: Natus Medical

7.7: Gaelic Devices

7.8: Neural Analytics
