Abstracts

The India economy has experienced robust growth over the last ten years and is expected to continue its growth momentum, reaching approximately US\$ 3.34 trillion by 2017 with a CAGR of 11.4% over the next five years. As compared to China and Brazil the meager contribution of approximately 16% by top 20 cities of India in the national GDP indicates huge potential for growth in Indian metros thereby making India an ideal destination for foreign investment.

Lucintel, a leading global management consulting and market research firm, has analyzed investment opportunities in India and presents its findings in "Investment Opportunities in India 2012-2017: Country and City Analysis."

Strong domestic demand is key driver of the Indian economy. India is the second largest populous country in world after China which is acting as an elixir for the economic development of the country. Strong work force and huge natural resources drives the economy. Lucintel's research indicates that the service sector of India is the major contributor to GDP and the key driver for growth of economy. Industries in service sector such as IT, telecom, and retail are the key drivers for growth of economy.

The report indicates that although high inflation rate and higher unemployment rate are a major challenge for Indian economy but the burgeoning middle class in the Indian metropolitan cities is likely to drive the Indian economy to greater heights.

The report which provides an in depth analysis of economy of India also details the in depth analysis of the macro economy of the India, top industry analysis and top metro economic analysis of the country. This report gives the insightful analysis of the top 10 and emerging 10 city of the India. The report also details investment climate; regulatory

framework; infrastructure development, Indian industry incentives and financial availability and more. This report helps the investor to choose the right destination for investment inside the country.

This unique report from Lucintel will provide you with valuable information, insights and tools needed to identify new growth opportunities and operate your business successfully in this market. This report will save hundreds of hours of your own personal research time and will significantly benefit you in expanding your business in this market. In today's stringent economy, you need every advantage that you can find.

Features of This Report:

To make business, investment, and strategic decisions, you need timely, useful information. This market report fulfills this core need and is an indispensable reference guide for multinational materials suppliers, product manufacturers, investors, executives, distributors, and many more that operate in this market.
