

# IoT for Public Safety Market Report: Trends, Forecast and Competitive Analysis to 2030

<https://marketpublishers.com/r/I25C6163B2BFEN.html>

Date: July 2024

Pages: 150

Price: US\$ 4,850.00 (Single User License)

ID: I25C6163B2BFEN

## Abstracts

2 – 3 business days after placing order

### IoT for Public Safety Trends and Forecast

The future of the global IoT for public safety market looks promising with opportunities in the smart building & home automation, homeland security, smart utility, smart healthcare, smart manufacturing, and smart transportation markets. The global IoT for public safety market is expected to reach an estimated \$2.0 billion by 2030 with a CAGR of 13.5% from 2024 to 2030. The major drivers for this market are growing number of smart city initiatives worldwide, expanding use of machine learning and artificial intelligence in public safety, and rising need for remote monitoring and unmanned devices.

A more than 150-page report is developed to help in your business decisions. Sample figures with some insights are shown below.

### IoT for Public Safety by Segment

The study includes a forecast for the global IoT for public safety by component, platform, application, end use, and region.

IoT for Public Safety Market by Component [Shipment Analysis by Value from 2018 to 2030]:

#### Platform

Solution

Services

IoT for Public Safety Market by Platform [Shipment Analysis by Value from 2018 to 2030]:

Device Management

Application Management

Network Management

IoT for Public Safety Market by Application [Shipment Analysis by Value from 2018 to 2030]:

Emergency Communication & Incident Management

Critical Infrastructure Security

Surveillance & Security

Disaster Management

IoT for Public Safety Market by End Use [Shipment Analysis by Value from 2018 to 2030]:

Smart Building & Home Automation

Homeland Security

Smart Utilities

Smart Healthcare

Smart Manufacturing

Smart Transportation

Others

IoT for Public Safety Market by Region [Shipment Analysis by Value from 2018 to 2030]:

North America

Europe

Asia Pacific

The Rest of the World

#### List of IoT for Public Safety Companies

Companies in the market compete on the basis of product quality offered. Major players in this market focus on expanding their manufacturing facilities, R&D investments, infrastructural development, and leverage integration opportunities across the value chain. With these strategies IoT for public safety companies cater increasing demand, ensure competitive effectiveness, develop innovative products & technologies, reduce production costs, and expand their customer base. Some of the IoT for public safety companies profiled in this report include-

IBM

Hitachi Vantara

NEC

Microsoft

Cisco Systems

Nokia Networks

Sierra Wireless

Telit

West Corporation

ThroughTek

## IoT for Public Safety Market Insights

Lucintel forecasts that surveillance & security is expected to witness the highest growth over the forecast period.

Within this market, smart healthcare is expected to witness the highest growth over the forecast period.

APAC is expected to witness the highest growth over the forecast period.

## Features of the Global IoT for Public Safety Market

**Market Size Estimates:** IoT for public safety market size estimation in terms of value (\$B).

**Trend and Forecast Analysis:** Market trends (2018 to 2023) and forecast (2024 to 2030) by various segments and regions.

**Segmentation Analysis:** IoT for public safety market size by various segments, such as by component, platform, application, end use, and region in terms of value (\$B).

**Regional Analysis:** IoT for public safety market breakdown by North America, Europe, Asia Pacific, and Rest of the World.

**Growth Opportunities:** Analysis of growth opportunities in different components, platforms, applications, end uses, and regions for the IoT for public safety market.

**Strategic Analysis:** This includes M&A, new product development, and competitive landscape of the IoT for public safety market.

Analysis of competitive intensity of the industry based on Porter's Five Forces model.

## FAQ

Q1. What is the IoT for public safety market size?

Answer: The global IoT for public safety market is expected to reach an estimated \$2.0 billion by 2030.

Q2. What is the growth forecast for IoT for public safety market?

Answer: The global IoT for public safety market is expected to grow with a CAGR of 13.5% from 2024 to 2030.

Q3. What are the major drivers influencing the growth of the IoT for public safety market?

Answer: The major drivers for this market are growing number of smart city initiatives worldwide, expanding use of machine learning and artificial intelligence in public safety, and rising need for remote monitoring and unmanned devices.

Q4. What are the major segments for IoT for public safety market?

Answer: The future of the IoT for public safety market looks promising with opportunities in the smart building & home automation, homeland security, smart utility, smart healthcare, smart manufacturing, and smart transportation markets.

Q5. Who are the key IoT for public safety market companies?

Answer: Some of the key IoT for public safety companies are as follows:

IBM

Hitachi Vantara

NEC

Microsoft

Cisco Systems

Nokia Networks

Sierra Wireless

Telit

West Corporation

ThroughTek

Q6. Which IoT for public safety market segment will be the largest in future?

Answer: Lucintel forecasts that surveillance & security is expected to witness the highest growth over the forecast period.

Q7. In IoT for public safety market, which region is expected to be the largest in next 5 years?

Answer: APAC is expected to witness the highest growth over the forecast period.

Q.8 Do we receive customization in this report?

Answer: Yes, Lucintel provides 10% customization without any additional cost.

This report answers following 11 key questions:

Q.1. What are some of the most promising, high-growth opportunities for the IoT for public safety market by component (platform, solution, and services), platform (device management, application management, and network management), application (emergency communication & incident management, critical infrastructure security, surveillance & security, and disaster management), end use (smart building & home automation, homeland security, smart utilities, smart healthcare, smart manufacturing, smart transportation, and others), and region (North America, Europe, Asia Pacific, and the Rest of the World)?

Q.2. Which segments will grow at a faster pace and why?

Q.3. Which region will grow at a faster pace and why?

Q.4. What are the key factors affecting market dynamics? What are the key challenges and business risks in this market?

Q.5. What are the business risks and competitive threats in this market?

Q.6. What are the emerging trends in this market and the reasons behind them?

Q.7. What are some of the changing demands of customers in the market?

Q.8. What are the new developments in the market? Which companies are leading these developments?

Q.9. Who are the major players in this market? What strategic initiatives are key players pursuing for business growth?

Q.10. What are some of the competing products in this market and how big of a threat do they pose for loss of market share by material or product substitution?

Q.11. What M&A activity has occurred in the last 5 years and what has its impact been on the industry?

For any questions related to IoT for Public Safety Market, IoT for Public Safety Market Size, IoT for Public Safety Market Growth, IoT for Public Safety Market Analysis, IoT for Public Safety Market Report, IoT for Public Safety Market Share, IoT for Public Safety Market Trends, IoT for Public Safety Market Forecast, IoT for Public Safety Companies, write Lucintel analyst at email: [helpdesk@lucintel.com](mailto:helpdesk@lucintel.com). We will be glad to get back to you soon.

## Contents

### **1. EXECUTIVE SUMMARY**

### **2. GLOBAL IOT FOR PUBLIC SAFETY MARKET : MARKET DYNAMICS**

2.1: Introduction, Background, and Classifications

2.2: Supply Chain

2.3: Industry Drivers and Challenges

### **3. MARKET TRENDS AND FORECAST ANALYSIS FROM 2018 TO 2030**

3.1. Macroeconomic Trends (2018-2023) and Forecast (2024-2030)

3.2. Global IoT for Public Safety Market Trends (2018-2023) and Forecast (2024-2030)

3.3: Global IoT for Public Safety Market by Component

3.3.1: Platform

3.3.2: Solution

3.3.3: Services

3.4: Global IoT for Public Safety Market by Platform

3.4.1: Device Management

3.4.2: Application Management

3.4.3: Network Management

3.5: Global IoT for Public Safety Market by Application

3.5.1: Emergency Communication & Incident Management

3.5.2: Critical Infrastructure Security

3.5.3: Surveillance & Security

3.5.4: Disaster Management

3.6: Global IoT for Public Safety Market by End Use

3.6.1: Smart Building & Home Automation

3.6.2: Homeland Security

3.6.3: Smart Utilities

3.6.4: Smart Healthcare

3.6.5: Smart Manufacturing

3.6.6: Smart Transportation

3.6.7: Others

### **4. MARKET TRENDS AND FORECAST ANALYSIS BY REGION FROM 2018 TO 2030**

#### 4.1: Global IoT for Public Safety Market by Region

#### 4.2: North American IoT for Public Safety Market

4.2.1: North American IoT for Public Safety Market by Application: Emergency Communication & Incident Management, Critical Infrastructure Security, Surveillance & Security, and Disaster Management

4.2.2: North American IoT for Public Safety Market by End Use: Smart Building & Home Automation, Homeland Security, Smart Utilities, Smart Healthcare, Smart Manufacturing, Smart Transportation, and Others

#### 4.3: European IoT for Public Safety Market

4.3.1: European IoT for Public Safety Market by Application: Emergency Communication & Incident Management, Critical Infrastructure Security, Surveillance & Security, and Disaster Management

4.3.2: European IoT for Public Safety Market by End Use: Smart Building & Home Automation, Homeland Security, Smart Utilities, Smart Healthcare, Smart Manufacturing, Smart Transportation, and Others

#### 4.4: APAC IoT for Public Safety Market

4.4.1: APAC IoT for Public Safety Market by Application: Emergency Communication & Incident Management, Critical Infrastructure Security, Surveillance & Security, and Disaster Management

4.4.2: APAC IoT for Public Safety Market by End Use: Smart Building & Home Automation, Homeland Security, Smart Utilities, Smart Healthcare, Smart Manufacturing, Smart Transportation, and Others

#### 4.5: ROW IoT for Public Safety Market

4.5.1: ROW IoT for Public Safety Market by Application: Emergency Communication & Incident Management, Critical Infrastructure Security, Surveillance & Security, and Disaster Management

4.5.2: ROW IoT for Public Safety Market by End Use: Smart Building & Home Automation, Homeland Security, Smart Utilities, Smart Healthcare, Smart Manufacturing, Smart Transportation, and Others

### **5. COMPETITOR ANALYSIS**

#### 5.1: Product Portfolio Analysis

#### 5.2: Operational Integration

#### 5.3: Porter's Five Forces Analysis

### **6. GROWTH OPPORTUNITIES AND STRATEGIC ANALYSIS**

#### 6.1: Growth Opportunity Analysis

- 6.1.1: Growth Opportunities for the Global IoT for Public Safety Market by Component
- 6.1.2: Growth Opportunities for the Global IoT for Public Safety Market by Platform
- 6.1.3: Growth Opportunities for the Global IoT for Public Safety Market by Application
- 6.1.4: Growth Opportunities for the Global IoT for Public Safety Market by End Use
- 6.1.5: Growth Opportunities for the Global IoT for Public Safety Market by Region
- 6.2: Emerging Trends in the Global IoT for Public Safety Market
- 6.3: Strategic Analysis
  - 6.3.1: New Product Development
  - 6.3.2: Capacity Expansion of the Global IoT for Public Safety Market
  - 6.3.3: Mergers, Acquisitions, and Joint Ventures in the Global IoT for Public Safety Market
  - 6.3.4: Certification and Licensing

## **7. COMPANY PROFILES OF LEADING PLAYERS**

- 7.1: IBM
- 7.2: Hitachi Vantara
- 7.3: NEC
- 7.4: Microsoft
- 7.5: Cisco Systems
- 7.6: Nokia Networks
- 7.7: Sierra Wireless
- 7.8: Telit
- 7.9: West Corporation
- 7.10: ThroughTek

## I would like to order

Product name: IoT for Public Safety Market Report: Trends, Forecast and Competitive Analysis to 2030

Product link: <https://marketpublishers.com/r/l25C6163B2BFEN.html>

Price: US\$ 4,850.00 (Single User License / Electronic Delivery)

If you want to order Corporate License or Hard Copy, please, contact our Customer Service:
