## Abstracts

Get it in 2 to 4 weeks by ordering today

The future of IOT in the construction market looks promising with opportunities in remote operations, safety management, fleet management, and predictive maintenance. The growth opportunities for IOT in the global construction market is expected to grow with a CAGR of 16%-17% from 2020 to 2025. The major drivers for this market are increasing awareness of space utilization, improving industry standards and regulations, growing need to avoid project delays, easy construction toll & equipment tracking, remote monitoring, and improved maintenance planning.

A total of XX figures / charts and XX tables are provided in more than 150-page report to help in your business decisions. Sample figures with some insights are shown below. To learn the scope, benefits, companies researched, and other details of IOT in the global construction market report, please download the report brochure.

In this market, software is the largest offering of iot in the global construction, whereas commercial is the largest project type. Growth in various segments of the IOT in the global construction market are given below:

The study includes trends and forecast for the IOT in global construction market by application, project type, offering, and region as follows:

By Application [Value (\$ Million) shipment analysis for 2014 – 2025]:

Remote Operations Safety Management Fleet Management Predictive Maintenance  
Others

By Project Type [Value (\$ Million) shipment analysis for 2014 – 2025]:

Commercial Residential

By Offering [Value (\$ Million) shipment analysis for 2014 – 2025]:

Hardware Software Services

By Region [Value (\$ Million) shipment analysis for 2014 – 2025]:

North America United States Canada Mexico Europe United Kingdom Spain Germany France Asia Pacific China India Japan The Rest of the World Brazil

Some of the IOT in construction companies profiled in this report include Caterpillar, Sigfox, Oracle Corporation, CalAmp, Losant IOT, Giatec Scientific, WorldSensing, Kore Wireless, Trimble, and Autodesk.

Lucintel forecasts that software will remain the largest offering type segment over the forecast period due to continuous focus of companies to develop softwares, increasing usage of analytics for better decision making, and increasing use of building information models.

Within this market, commercial will remain the largest project type segment over the forecast period due to increased use of prefabricated buildings and IoT in modular construction which helps in making a company in half the time and saves costs and minimizes wastage as well.

North America will remain the largest region over the forecast period due to multiple construction OEMs embracing the use of IoT in construction, growing investment in infrastructure and construction projects, and presence of a significant number of market players in this region.

Features of the IOT in Global Construction Market

Market Size Estimates: IOT in global construction market size estimation in terms of value (\$M) shipment. Trend and Forecast Analysis: Market trends (2014-2019) and forecast (2020-2025) by various segments. Segmentation Analysis: IOT in global construction market size by various segments, such as application, project type, offering

in terms of value. Regional Analysis: IOT in global construction market breakdown by North America, Europe, Asia Pacific, and Rest of the World. Growth Opportunities: Analysis of growth opportunities in different application, project type, offering, and region for the IOT in global construction market. Strategic Analysis: This includes M&A, new product development, and competitive landscape of the IOT in global construction market. Analysis of competitive intensity of the industry based on Porter's Five Forces model.

This report answers following key questions

Q.1 What are some of the most promising potential, high-growth opportunities for IOT in the global construction market by application (remote operations, safety management, fleet management, predictive maintenance, and others), project type (commercial and residential), offering (hardware, software, and services), and region (North America, Europe, Asia Pacific, and Rest of the World)?

Q.2 Which segments will grow at a faster pace and why?

Q.3 Which region will grow at a faster pace and why?

Q.4 What are the key factors affecting market dynamics? What are the drivers and challenges of the IOT in Global Construction market?

Q.5 What are the business risks and threats to the IOT in Global Construction market?

Q.6 What are the emerging trends in this IOT in construction market and the reasons behind them?

Q.7 What are some changing demands of customers in this IOT in construction market?

Q.8 What are the new developments in this IOT in construction market? Which companies are leading these developments?

Q.9 Who are the major players in this IOT in construction market? What strategic initiatives are being implemented by key players for business growth?

Q.10 What are some of the competitive products and processes in this IOT in construction market, and how big of a threat do they pose for loss of market share via material or product substitution?

Q.11 What M&A activities did take place in the last five years in the IOT in Global Construction market?

Report Scope

Key Features Description

Base Year for Estimation 2019

Trend Period

(Actual Estimates) 2014-2019

Forecast Period 2020-2025

Pages More than 150

Market Representation / Units Revenue in US \$ Million

Report Coverage Market Trends & Forecasts, Competitor Analysis, New Product Development, Company Expansion, Merger, Acquisitions & Joint Venture, and Company Profiling

Market Segments Application (Remote Operations, Safety Management, Fleet Management, Predictive Maintenance, and Others), Project Type (Commercial and Residential), and Offering (Hardware, Software, and Services)

Regional Scope North America (USA, Mexico, and Canada), Europe (Norway, Spain, Germany, and France), Asia (China, India, and Japan), and ROW ( Brazil)

Customization 10% Customization without Any Additional Cost

## Contents

### **1. EXECUTIVE SUMMARY**

### **2. MARKET BACKGROUND AND CLASSIFICATIONS**

2.1: Introduction, Background, and Classifications

2.2: Supply Chain

2.3: Industry Drivers and Challenges

### **3. MARKET TRENDS AND FORECAST ANALYSIS FROM 2014 T 2025**

3.1: Macroeconomic Trends and Forecast

3.2: IOT in Global Construction Market Trends and Forecast

3.3: IOT in Global Construction Market by Application

3.3.1: Remote Operations

3.3.2: Safety Management

3.3.3: Fleet Management

3.3.4: Predictive Maintenance

3.3.5: Others

3.4: IOT in Global Construction Market by Project Type

3.4.1: Commercial

3.4.2: Residential

3.5: IOT in Global Construction Market by Offering

3.5.1: Hardware

3.5.2: Software

3.5.3: Services

### **4. MARKET TRENDS AND FORECAST ANALYSIS BY REGION**

4.1: IOT in Global Construction Market by Region

4.2: North American IOT in Construction Market

4.2.1: Market by Application: Remote Operations, Safety Management, Fleet Management, Predictive Maintenance, and Others

4.2.2: Market by Project Type: Commercial and Residential

4.2.3: Market by Offering: Hardware, Software, and Services

4.2.4: The United States IOT in Construction Market

4.2.5: The Canadian IOT in Construction Market

4.2.6: The Mexican IOT in Construction Market

#### 4.3: European IOT in Construction Market

4.3.1: Market by Application: Remote Operations, Safety Management, Fleet Management, Predictive Maintenance, and Others

4.3.2: Market by Project Type: Commercial and Residential

4.3.3: Market by Offering: Hardware, Software, and Services

4.3.4: The United Kingdom IOT in Construction Market

4.3.5: The Spanish IOT in Construction Market

4.3.6: The German IOT in Construction Market

4.3.7: The French IOT in Construction Market

#### 4.4: APAC IOT in Construction Market

4.4.1: Market by Application: Remote Operations, Safety Management, Fleet Management, Predictive Maintenance, and Others

4.4.2: Market by Project Type: Commercial and Residential

4.4.3: Market by Offering: Hardware, Software, and Services

4.4.4: The Chinese IOT in Construction Market

4.4.5: The Indian IOT in Construction Market

4.4.6: The Japanese IOT in Construction Market

#### 4.5: ROW IOT in Construction Market

4.5.1: Market by Application: Remote Operations, Safety Management, Fleet Management, Predictive Maintenance, and Others

4.5.2: Market by Project Type: Commercial and Residential

4.5.3: Market by Offering: Hardware, Software, and Services

4.5.4: Brazilian IOT in Construction Market

### **5. COMPETITOR ANALYSIS**

5.1: Market Share Analysis

5.2: Product Portfolio Analysis

5.3: Operational Integration

5.4: Geographical Reach

5.5: Porter's Five Forces Analysis

### **6. COST STRUCTURE ANALYSIS**

6.1: Cost of Goods Sold

6.2: SG&A

6.3: EBITDA Margin

### **7. GROWTH OPPORTUNITIES AND STRATEGIC ANALYSIS**

## 7.1: Growth Opportunity Analysis

7.1.1: Growth Opportunities for the IOT in Global Construction Market by Application

7.1.2: Growth Opportunities for the IOT in Global Construction Market by Project Type

7.1.3: Growth Opportunities for the IOT in Global Construction Market by Offering

7.1.4: Growth Opportunities for the IOT in Global Construction Market by Region

## 7.2: Emerging Trends in the IOT in Global Construction Market

### 7.3: Strategic Analysis

7.3.1: New Product Development

7.3.2: Capacity Expansion of the IOT in Global Construction Market

7.3.3: Mergers, Acquisitions, and Joint Ventures in the IOT in Global Construction Market

7.3.4: Certification and Licensing

## 8. COMPANY PROFILES OF LEADING PLAYERS

8.1: Caterpillar

8.2: Sigfox

8.3: Oracle Corporation

8.4: CalAmp

8.5: Losant IOT

8.6: Giatec Scientific

8.7: WorldSensing

8.8: Kore Wireless

8.9: Trimble

8.10: Autodesk

## I would like to order

Product name: IOT in the Global Construction Market Report: Trends, Forecast and Competitive Analysis

Product link: <https://marketpublishers.com/r/l8B9E1AABA78EN.html>

Price: US\$ 4,850.00 (Single User License / Electronic Delivery)

If you want to order Corporate License or Hard Copy, please, contact our Customer Service:
