Inc., Parkway Products Inc., Tri-Mack Plastics Manufacturing Corp., Caledonian Ferguson Timpson Ltd, Victrex Plc., and Quadrant EPP Surlon India Ltd.

In this market, ketone salts, ketone esters, ketone oils, and raspberry ketones are the major product types. Lucintel forecasts that ketone salts will remain the largest segment over the forecast period due to a growing trend of weight management, and the rising fad of keto diets.

Within this market, supplements, food and beverages, and cosmetics and personal care products are the major applications of ketones. Supplements will remain the largest segment by application type over the forecast period due to increase in the use of ketone supplements among sportspersons and athletes, increase in the trend of healthy living and the rise in disposable income. Consumers are encouraged to spend on luxury food products, apart from the conventional source of nutrients.

Asia-Pacific is expected to witness the highest growth over the forecast period due to high production of ketones in countries such as Japan and China in the Asia Pacific region, and because of ongoing developments in end use industries, including chemical, medical, and automobile.
