Keyboard, Video and Mouse (KVM) Switch Market Trends and Forecast

The future of the global keyboard, video and mouse (KVM) switch market looks promising with opportunities in the IT & telecom, BFSI (banking, financial services and insurance), industrial, government & public sector, healthcare, and media & content provider markets. The global keyboard, video and mouse (KVM) switch market is expected to reach an estimated \$1.5 billion by 2028 with a CAGR of 5.7% from 2023 to 2028. The major drivers for this market are growing adoption of data server infrastructure by small and medium enterprises (SMEs), rising usage of smart KVM solutions in industrial applications, and increasing trend of edge computing, cloud computing, and cloud storage across the globe.

A more than 150-page report is developed to help in your business decisions. Sample figures with some insights are shown below.

Keyboard, Video and Mouse (KVM) Switch Market by Segment

The study includes a forecast for the global keyboard, video and mouse (KVM) switch market by component, switch type, end use industry, and region, as follows:

Keyboard, Video and Mouse (KVM) Switch Market by Component [Shipment Analysis by Value from 2017 to 2028]:

KVM Desktop Switches

KVM IP Switches

KVM Secure Switches

KVM High-Performance Switches

Serial Consoles

Keyboard, Video and Mouse (KVM) Switch Market by Switch Type [Shipment Analysis by Value from 2017 to 2028]:

Single User KVM

Multi-User KVM

Keyboard, Video and Mouse (KVM) Switch Market by End Use Industry [Shipment Analysis by Value from 2017 to 2028]:

IT & Telecom

BFSI (Banking, Financial Services And Insurance)

Industrial

Government & Public Sector

Healthcare

Media & Content Providers

Others

Keyboard, Video and Mouse (KVM) Switch Market by Region [Shipment Analysis by Value from 2017 to 2028]:

North America

Europe

Asia Pacific

The Rest of the World

List of Keyboard, Video and Mouse (KVM) Switch Companies

Companies in the market compete on the basis of product quality offered. Major players in this market focus on expanding their manufacturing facilities, R&D investments, infrastructural development, and leverage integration opportunities across the value chain. With these strategies keyboard, video and mouse (KVM) switch companies cater to increasing demand, ensure competitive effectiveness, develop innovative products & technologies, reduce production costs, and expand their customer base. Some of the keyboard, video and mouse (KVM) switch companies profiled in this report include:

Dell Technologies

Aten International

D-Link

Lenovo

Belkin International

HPE

Vertiv Group

Network Technologies

Fujitsu

Schneider Electric

Keyboard, Video and Mouse (KVM) Switch Market Insights

Lucintel forecasts that KVM IP switch will remain the fastest growing segment over the forecast period because it provides remote access and connectivity of network equipment to network users as well as to administrators and it also helps in protecting the basic input/output system (BIOS) level remote access to network devices and server connected to remote data centers.

Within this market, healthcare will remain the highest growing segment due to growing demand for remote patient tracking and management solutions, at-the-rack access along with increasing adoption of KVM matrix switching technology with IP-based remote access from small labs to the biggest medical institutional data centers globally.

North America will remain the largest region over the forecast period due to expansion of data centers, along with significantly growing demand for cloud computing, huge data analytics, and mobile internet in this region.

Features of the Keyboard, Video and Mouse (KVM) Switch Market

Market Size Estimates: Keyboard, video and mouse (KVM) switch market size estimation in terms of value (\$B)

Trend and Forecast Analysis: Market trends (2017-2022) and forecast (2023-2028) by various segments and regions.

Segmentation Analysis: Keyboard, video and mouse (KVM) switch market size by various segments, such as by component, switch type, end use industry, and region

Regional Analysis: Keyboard, video and mouse (KVM) switch market breakdown by North America, Europe, Asia Pacific, and the Rest of the World.

Growth Opportunities: Analysis on growth opportunities in different by component, switch type, end use industry, and regions for the keyboard, video and mouse (KVM) switch market.

Strategic Analysis: This includes M&A, new product development, and

competitive landscape for the keyboard, video and mouse (KVM) switch market.

Analysis of competitive intensity of the industry based on Porter's Five Forces model.

FAQ

Q1. What is the keyboard, video and mouse (KVM) switch market size?

Answer: The global keyboard, video and mouse (KVM) switch market is expected to reach an estimated \$1.5 billion by 2028.

Q2. What is the growth forecast for keyboard, video and mouse (KVM) switch market?

Answer: The global keyboard, video and mouse (KVM) switch market is expected to grow with a CAGR of 5.7% from 2023 to 2028.

Q3. What are the major drivers influencing the growth of the keyboard, video and mouse (KVM) switch market?

Answer: The major drivers for this market are growing adoption of data server infrastructure by small and medium enterprises (SMEs), rising usage of smart KVM solutions in industrial applications, and increasing trend of edge computing, cloud computing, and cloud storage across the globe.

Q4. What are the major segments for keyboard, video and mouse (KVM) switch market?

Answer: The future of the global keyboard, video and mouse (KVM) switch market looks promising with opportunities in the IT & telecom, BFSI (banking, financial services and insurance), industrial, government & public sector, healthcare, and media & content provider markets.

Q5. Who are the key keyboard, video and mouse (KVM) switch companies?

Answer: Some of the key keyboard, video and mouse (KVM) switch companies are as follows:

Dell Technologies

Aten International

D-Link

Lenovo

Belkin International

HPE

Vertiv Group

Network Technologies

Fujitsu

Schneider Electric

Q6. Which keyboard, video and mouse (KVM) switch segment will be the largest in future?

Answer: Lucintel forecast that KVM IP switch will remain the fastest growing segment over the forecast period because it provides remote access and connectivity of network equipment to network users as well as to administrators and it also helps in protecting the basic input/output system (BIOS) level remote access to network devices and server connected to remote data centers.

Q7. In keyboard, video and mouse (KVM) switch market, which region is expected to be the largest in next 5 years?

Answer: North America will remain the largest region over the forecast period due to expansion of data centers, along with significantly growing demand for cloud computing, huge data analytics, and mobile internet in this region.

Q8. Do we receive customization in this report?

Answer: Yes, Lucintel provides 10% Customization Without any Additional Cost.

This report answers following 11 key questions

Q.1. What are some of the most promising, high-growth opportunities for the global keyboard, video and mouse (KVM) switch market by component (KVM desktop switches, KVM IP switches, KVM secure switches, KVM high-performance switches, and serial consoles), switch type (single user KVM and multi-user KVM), end use industry (IT & telecom, BFSI (banking, financial services and insurance), industrial, government & public sector, healthcare, media & content providers, and others), and region (North America, Europe, Asia Pacific, and the Rest of the World)?

Q.2. Which segments will grow at a faster pace and why?

Q.3. Which region will grow at a faster pace and why?

Q.4. What are the key factors affecting market dynamics? What are the key challenges and business risks in this market?

Q.5. What are the business risks and competitive threats in this market?

Q.6. What are the emerging trends in this market and the reasons behind them?

Q.7. What are some of the changing demands of customers in the market?

Q.8. What are the new developments in the market? Which companies are leading these developments?

Q.9. Who are the major players in this market? What strategic initiatives are key players pursuing for business growth?

Q.10. What are some of the competing products in this market and how big of a threat do they pose for loss of market share by material or product substitution?

Q.11. What M&A activity has occurred in the last 5 years and what has its impact been on the industry?
