Lab Consumable Trends and Forecast

The future of the global lab consumable market looks promising with opportunities in the pharmaceutical and research organization & institute markets. The global lab consumable market is expected to reach an estimated \$249.4 billion by 2030 with a CAGR of 4.1% from 2024 to 2030. The major drivers for this market are increasing investment in research and development, expanding healthcare infrastructure, and rising demand for high-quality and durable lab consumables.

A more than 150-page report is developed to help in your business decisions. Sample figures with some insights are shown below.

Lab Consumable by Segment

The study includes a forecast for the global lab consumable by type, material, application, and region.

Lab Consumable Market by Type [Shipment Analysis by Value from 2018 to 2030]:

Safety & Cleaning

General LabWare

Sampling & Cell Culture

Life Science LabWare

Sample Preparation

Separation & Concentration

Measurement & Analysis

Lab Consumable Market by Material [Shipment Analysis by Value from 2018 to 2030]:

Glass

Plastic

Metal

Ceramics

Others

Lab Consumable Market by Application [Shipment Analysis by Value from 2018 to 2030]:

Pharmaceutical Industry

Research Organizations & Institutes

Others

Lab Consumable Market by Region [Shipment Analysis by Value from 2018 to 2030]:

North America

Europe

Asia Pacific

The Rest of the World

List of Lab Consumable Companies

Companies in the market compete on the basis of product quality offered. Major players in this market focus on expanding their manufacturing facilities, R&D investments, infrastructural development, and leverage integration opportunities across the value chain. With these strategies lab consumable companies cater increasing demand, ensure competitive effectiveness, develop innovative products & technologies, reduce production costs, and expand their customer base. Some of the lab consumable companies profiled in this report include-

Camlab

Spectrum Chemical

Reagecon

Eppendorf

Bellco Glass

Crystalgen

Thermo Fisher Scientific

Lab Consumable Market Insights

Lucintel forecasts that plastic will remain the largest segment over the forecast period due to its durability and cost effectiveness.

Within this market, pharmaceutical industry will remain the largest segment due to the extensive use of laboratory consumables in the pharmaceutical sector.

North America is expected to be the largest region over the forecast period due to the existence of a number of pharmaceutical and biotechnology companies, which are active in research and development activities.

Features of the Global Lab Consumable Market

Market Size Estimates: Lab consumable market size estimation in terms of value (\$B).

Trend and Forecast Analysis: Market trends (2018 to 2023) and forecast (2024 to 2030) by various segments and regions.

Segmentation Analysis: Lab consumable market size by type, material, application, and region in terms of value (\$B).

Regional Analysis: Lab consumable market breakdown by North America, Europe, Asia Pacific, and Rest of the World.

Growth Opportunities: Analysis of growth opportunities in different types, materials, applications, and regions for the lab consumable market.

Strategic Analysis: This includes M&A, new product development, and competitive landscape of the lab consumable market.

Analysis of competitive intensity of the industry based on Porter's Five Forces model.

FAQ

Q1. What is the lab consumable market size?

Answer: The global lab consumable market is expected to reach an estimated \$249.4 billion by 2030.

Q2. What is the growth forecast for lab consumable market?

Answer: The global lab consumable market is expected to grow with a CAGR of 4.1% from 2024 to 2030.

Q3. What are the major drivers influencing the growth of the lab consumable market?

Answer: The major drivers for this market are increasing investment in research and development, expanding healthcare infrastructure and rising demand for high-quality and durable lab consumables.

Q4. What are the major segments for lab consumable market?

Answer: The future of the lab consumable market looks promising with opportunities in the pharmaceutical and research organization & institute markets.

Q5. Who are the key lab consumable market companies?

Answer: Some of the key lab consumable companies are as follows:

Camlab

Spectrum Chemical

Reagecon

Eppendorf

Bellco Glass

Crystalgen

Thermo Fisher Scientific

Q6. Which lab consumable market segment will be the largest in future?

Answer: Lucintel forecasts that plastic will remain the largest segment over the forecast period due to its durability and cost effectiveness.

Q7. In lab consumable market, which region is expected to be the largest in next 5 years?

Answer: North America is expected to be the largest region over the forecast period due to the existence of a number of pharmaceutical and biotechnology companies, which are active in research and development activities.

Q.8 Do we receive customization in this report?

Answer: Yes, Lucintel provides 10% customization without any additional cost.

This report answers following 11 key questions:

Q.1. What are some of the most promising, high-growth opportunities for the lab consumable market by type (safety & cleaning, general LabWare, sampling & cell culture, life science LabWare, sample preparation, separation & concentration, and measurement & analysis), material (glass, plastic, metal, ceramics, and others), application (pharmaceutical industry, research organizations & institutes, and others), and region (North America, Europe, Asia Pacific, and the Rest of the World)?

Q.2. Which segments will grow at a faster pace and why?

Q.3. Which region will grow at a faster pace and why?

Q.4. What are the key factors affecting market dynamics? What are the key challenges and business risks in this market?

Q.5. What are the business risks and competitive threats in this market?

Q.6. What are the emerging trends in this market and the reasons behind them?

Q.7. What are some of the changing demands of customers in the market?

Q.8. What are the new developments in the market? Which companies are leading these developments?

Q.9. Who are the major players in this market? What strategic initiatives are key players pursuing for business growth?

Q.10. What are some of the competing products in this market and how big of a threat do they pose for loss of market share by material or product substitution?

Q.11. What M&A activity has occurred in the last 5 years and what has its impact been on the industry?
