Abstracts

Lithography Material Market Trends and Forecast

The future of the global lithography material market looks promising with opportunities in the automotive, consumer electronic, and IT & telecommunication industries. The global lithography material market is expected to reach an estimated \$4.9 billion by 2028 with a CAGR of 4.2% from 2023 to 2028. The major drivers for this market are growing penetration of nanolithography in nanometre scale and increasing use of advanced materials within microchips and semiconductors in smartphones and wearable technologies.

A more than 150-page report is developed to help in your business decisions. A sample figure with some insights is shown below.

Lithography Material Market by Segment

The study includes trends and forecast for the global lithography material market by material, application, and region, as follows:

Lithography Material Market by Material [Value (\$B) Shipment Analysis from 2017 to 2028]:

Photoresist Materials

Ancillary Materials

Lithography Material Market by Application [Value (\$B) Shipment Analysis from 2017 to 2028]:

Automotive

Consumer Electronics

IT & Telecommunications

Others

Lithography Material Market by Region [Value (\$B) Shipment Analysis from 2017 to 2028]:

North America

Europe

Asia Pacific

The Rest of the World

List of Lithography Material Companies

Companies in the market compete on the basis of product quality offered. Major players in this market focus on expanding their manufacturing facilities, R&D investments, infrastructural development, and leverage integration opportunities across the value chain. With these strategies, lithography material companies cater to increasing demand, ensure competitive effectiveness, develop innovative products & technologies, reduce production costs, and expand their customer base. Some of the lithography material companies profiled in this report include-

Tokyo Ohka Kogyo

JSR Corporation

DuPont de Nemours

Shin-Etsu Chemical

Fujifilm

Lithography Material Market Insights

Lucintel forecasts that photoresist materials are expected to witness higher growth over the forecast period due to their radiation sensitivity properties or they contain a photosensitive ingredient that creates a reactive species when exposed to light.

Consumer electronics is expected to witness the highest growth over the forecast period due to the growing use of lithography material in consumer electronic gadgets.

APAC is expected to witness the highest growth over the forecast period due to the presence of semiconductor market leaders in the region.

Features of the Lithography Material Market

Market Size Estimates: Lithography material market size estimation in terms of value (\$B)

Trend And Forecast Analysis: Market trends (2017-2022) and forecast (2023-2028) by various segments and regions.

Segmentation Analysis: Lithography material market size by various segments, such as by material, application, and region

Regional Analysis: Lithography material market breakdown by North America, Europe, Asia Pacific, and the Rest of the World.

Growth Opportunities: Analysis on growth opportunities in different materials, applications, and regions for the lithography material market.

Strategic Analysis: This includes M&A, new product development, and

competitive landscape for the lithography material market.

Analysis of competitive intensity of the industry based on Porter's Five Forces model.

FAQ

Q1. What is the lithography material market size?

Answer: The global lithography material market is expected to reach an estimated \$4.9 billion by 2028.

Q2. What is the growth forecast for lithography material market?

Answer: The global lithography material market is expected to grow with a CAGR of 4.2% from 2023 to 2028.

Q3. What are the major drivers influencing the growth of the lithography material market?

Answer: The major drivers for this market are growing penetration of nanolithography in nanometre scale and increasing use of advanced materials within microchips and semiconductors in smartphones and wearable technologies.

Q4. What are the major segments for lithography material market?

Answer: The future of the lithography material market looks promising with opportunities in the automotive, consumer electronic, and IT & telecommunication industries.

Q5. Who are the key lithography material companies?

Answer: Some of the key lithography material companies are as follows:

Tokyo Ohka Kogyo

JSR Corporation

DuPont de Nemours

Shin-Etsu Chemical

Fujifilm

Q6. Which lithography material segment will be the largest in future?

Answer: Lucintel forecasts that photoresist materials are expected to witness higher growth over the forecast period due to their radiation sensitivity properties or they contain a photosensitive ingredient that creates a reactive species when exposed to light.

Q7. In lithography material market, which region is expected to be the largest in next 5 years?

Answer: APAC is expected to witness the highest growth over the forecast period due to the presence of semiconductor market leaders in the region.

Q8. Do we receive customization in this report?

Answer: Yes, Lucintel provides 10% Customization Without any Additional Cost.

This report answers following 11 key questions

Q.1. What are some of the most promising, high-growth opportunities for the global lithography material market by material (photoresist materials and ancillary materials), application (automotive, consumer electronics, IT & telecommunications, and others), and region (North America, Europe, Asia Pacific, and the Rest of the World)?

Q.2. Which segments will grow at a faster pace and why?

Q.3. Which region will grow at a faster pace and why?

Q.4. What are the key factors affecting market dynamics? What are the key challenges and business risks in this market?

Q.5. What are the business risks and competitive threats in this market?

Q.6. What are the emerging trends in this market and the reasons behind them?

Q.7. What are some of the changing demands of customers in the market?

Q.8. What are the new developments in the market? Which companies are leading these developments?

Q.9. Who are the major players in this market? What strategic initiatives are key players

pursuing for business growth?

Q.10. What are some of the competing products in this market and how big of a threat do they pose for loss of market share by material or product substitution?

Q.11. What M&A activity has occurred in the last five years and what has its impact been on the industry?

For any questions related to lithography material market or related to lithography material companies, lithography material market size, lithography material market share, lithography material analysis, lithography material market growth, lithography material market research, write Lucintel analyst at email: helpdesk@lucintel.com we will be glad to get back to you soon.

Contents

1. EXECUTIVE SUMMARY

2. GLOBAL LITHOGRAPHY MATERIAL MARKET: MARKET DYNAMICS

2.1: Introduction, Background, and Classifications

2.2: Supply Chain

2.3: Industry Drivers and Challenges

3. MARKET TRENDS AND FORECAST ANALYSIS FROM 2017 TO 2028

3.1: Macroeconomic Trends (2017-2022) and Forecast (2023-2028)

3.2: Global Lithography Material Market Trends (2017-2022) and Forecast (2023-2028)

3.3: Global Lithography Material Market by Material

3.3.1: Photoresist Materials

3.3.2: Ancillary Materials

3.4: Global Lithography Material Market by Application

3.4.1: Automotive

3.4.2: Consumer Electronics

3.4.3: IT & Telecommunications

3.4.4: Others

4. MARKET TRENDS AND FORECAST ANALYSIS BY REGION FROM 2017 TO 2028

4.1: Global Lithography Material Market by Region

4.2: North American Lithography Material Market

4.2.1: North American Lithography Material Market by Material: Photoresist Materials and Ancillary Materials

4.2.2: North American Lithography Material Market by Application: Automotive, Consumer Electronics, IT & Telecommunications, and Others

4.3: European Lithography Material Market

4.3.1: European Lithography Material Market by Material: Photoresist Materials and Ancillary Materials

4.3.2: European Lithography Material Market by Application: Automotive, Consumer Electronics, IT & Telecommunications, and Others

4.4: APAC Lithography Material Market

4.4.1: APAC Lithography Material Market by Material: Photoresist Materials and

Ancillary Materials

4.4.2: APAC Lithography Material Market by Application: Automotive, Consumer Electronics, IT & Telecommunications, and Others

4.5: ROW Lithography Material Market

4.5.1: ROW Lithography Material Market by Material: Photoresist Materials and Ancillary Materials

4.5.2: ROW Lithography Material Market by Application: Automotive, Consumer Electronics, IT & Telecommunications, and Others

5. COMPETITOR ANALYSIS

5.1: Product Portfolio Analysis

5.2: Operational Integration

5.3: Porter's Five Forces Analysis

6. GROWTH OPPORTUNITIES AND STRATEGIC ANALYSIS

6.1: Growth Opportunity Analysis

6.1.1: Growth Opportunities for the Global Lithography Material Market by Material

6.1.2: Growth Opportunities for the Global Lithography Material Market by Application

6.1.3: Growth Opportunities for the Global Lithography Material Market by Region

6.2: Emerging Trends in the Global Lithography Material Market

6.3: Strategic Analysis

6.3.1: New Product Development

6.3.2: Capacity Expansion of the Global Lithography Material Market

6.3.3: Mergers, Acquisitions, and Joint Ventures in the Global Lithography Material Market

6.3.4: Certification and Licensing

7. COMPANY PROFILES OF LEADING PLAYERS

7.1: Tokyo Ohka Kogyo

7.2: JSR Corporation

7.3: DuPont de Nemours

7.4: Shin-Etsu Chemical

7.5: FUJIFILM
