Abstracts

The future of the global low density SMC (Sheet Molded Compound) market looks promising with opportunities in various automotive applications, such as hoods, deck lids, fenders, bumpers, and body panels. The global low density SMC market is expected to grow with a CAGR of 8.4% from 2019 to 2024. The major drivers for this market are growth in automotive production and increasing use of lightweight materials in different automotive applications.

An emerging trend, which has a direct impact on the dynamics of the low density SMC industry, includes the development of ultra low density SMC.

A total of 122 figures/charts and 90 tables are provided in this 197 -page report to help in your business decisions. Sample figures with some insights are shown below. To learn the scope of, benefits, companies researched and other details of low density SMC market report download the report brochure.

low density SMC market by fiber type

low density SMC market

low density SMC manufacturers

The study includes the low density SMC market size and forecast for the global low density SMC market through 2024, segmented by automotive application, fiber type, resin type, and region as follows:

Low Density SMC Market by Automotive Application [Volume (kt) and Value (\$ Million) from 2013 to 2024]:

Hoods Deck lids Fenders Bumpers Body panels & Others

Low Density SMC Market by resin type [Volume (kt) and Value (\$ Million) from 2013 to 2024]:

Polyester Epoxy Vinyl Ester

Low Density SMC Market by fiber type [Volume (kt) and Value (\$ Million) from 2013 to 2024]:

Glass Fiber Carbon Fiber

Low Density SMC Market by Region [Volume (kt) and Value (\$ Million) from 2013 to 2024]:

North America Europe APAC ROW

Some of the low density SMC companies profiled in this report include Polynt, Continental Structural Plastics, Core Molding Technology, Menzolit, and IDI Composites and others.

Europe will remain the largest region by value and volume and it is also expected to witness the highest growth over the forecast period due to higher acceptance level of composites materials and growth in automotive application.

Lucintel forecasts that the hood will remain the largest application by value and volume and it is also expected to witness the highest growth over the forecast period due to increasing demand for lightweight and non-corrosive materials.

Within this market, glass and carbon fiber are the major reinforcement materials. Glass fiber based low density SMC will remain the largest segment by value and volume. Carbon fiber based low density SMC is expected to witness the highest growth over the forecast period supported by its higher mechanical performance.

Some of the features of “Low Density SMC Market Report: Trends, Forecast and Competitive Analysis” include:

Market size estimates: Global low density SMC market size estimation in terms of value (\$M) and volume (KT) shipment. Trend and forecast analysis: Market trend (2013-2018) and forecast (2019-2024) by end use and use industry. Segmentation analysis: Global low density SMC market size by automotive application, fiber type, and resin type in terms of value and volume shipment. Regional analysis: Global low density SMC market breakdown by key regions such as North America, Europe, and Asia & Rest of World. Growth opportunities: Analysis on growth opportunities in different applications and regions in the global low density SMC market. Strategic analysis: This includes M&A, new product development, and competitive landscape in the low density SMC

market. Analysis of competitive intensity of the industry based on Porter's Five Forces model.

This report answers following 11 key questions:

- Q.1. How big are the opportunities for global low density SMC market by automotive application (deck lids, fenders, bumpers, hoods and body panels & others), fiber type (glass fiber and carbon fiber, etc.), resin type (polyester, vinyl ester and epoxy), and region (North America, Europe, Asia Pacific and the Rest of the World)?
- Q.2. Which segments will grow at a faster pace and why?
- Q.3. Which region will grow at a faster pace and why?
- Q.4. What are the key factors affecting market dynamics? What are the drivers and challenges of the low density SMC (Low Density SMC Market, Low Density Sheet Moulding Compound (SMC) Market, Low Density Sheet Moulding Compound Market) market?
- Q.5. What are the business risks and threats to the low density SMC (Low Density SMC Market, Low Density Sheet Moulding Compound (SMC) Market, Low Density Sheet Moulding Compound Market) market?
- Q.6. What are emerging trends in this low density SMC (Low Density SMC Market, Low Density Sheet Moulding Compound (SMC) Market, Low Density Sheet Moulding Compound Market) market and the reasons behind them?
- Q.7. What are some changing demands of customers in the low density SMC (Low Density SMC Market, Low Density Sheet Moulding Compound (SMC) Market, Low Density Sheet Moulding Compound Market) market?
- Q.8. What are the new developments in the low density SMC (Low Density SMC Market, Low Density Sheet Moulding Compound (SMC) Market, Low Density Sheet Moulding Compound Market) market and which companies are leading these developments?
- Q.9. Who are the major players in this low density SMC (Low Density SMC Market, Low Density Sheet Moulding Compound (SMC) Market, Low Density Sheet Moulding Compound Market) market? What strategic initiatives are being taken by key companies for business growth?
- Q.10. What are some of the competitive products and processes in this low density SMC (Low Density SMC Market, Low Density Sheet Moulding Compound (SMC) Market, Low Density Sheet Moulding Compound Market) area and how big of a threat do they pose for loss of market share via material or product substitution?
