The future of the low profile additive market looks promising with opportunities in the sheet & bulk molding compound, pultrusion, resin transfer molding, hand lay-up, and spray-up application segments. The global low profile additive market is expected to decline in 2020 due to the global economic recession led by the COVID-19 pandemic. However, the market will witness recovery in the year 2021, and it is expected to grow with a CAGR of 5% to 7% from 2020 to 2025. The major drivers for this market are growing demand for SMC and BMC in automotive, aerospace and medical industries and electrical resistivity and high flame retardant material demand in the electrical and electronics industry.

A more than 150 page report is developed to help in your business decisions. Sample figures with some insights are shown below. To learn the scope of, benefits, companies researched and other details of low profile additive market report download the report brochure.

The study includes trends and forecasts for the global low profile additive market by product type, application, and region as follows:

By Product Type [Volume (Kilotons) and \$M shipment analysis for 2014 – 2025]:

Polystyrene-based

Polyvinyl Acetate-based (PVA)

Polymethyl Methacrylate (PMMA)

High-Density Polyethylene

Polyester-based

Other

By Application [Volume (Kilotons) and \$M shipment analysis for 2014 – 2025]:

Sheet & Bulk Molding Compounds (SMC/BMC)

Pultrusion

Resin Transfer Molding

Hand Lay-up

Spray-up

Others

By Region [Volume (Kilotons) and \$M shipment analysis for 2014 – 2025]:

North America

United States

Canada

Mexico

Europe

Germany

United Kingdom

France

Italy

Asia Pacific

China

Japan

India

South Korea

The Rest of the World

Some of the low profile additive companies profiled in this report include Wacker Chemie, LyondellBasell Industries, Polynt-Reichhold Group, Ashland, PolyOne Corporation, Poliya Composite Resins and Polymers, Swancor Manufacturing, AOC Aliancys, and Interplastic Corporation.

Polyvinyl acetate-based (PVA) will remain the largest product type segment over the forecast period due to easy availability, outstanding shrinkage prevention, and solubility characteristics during curing phase.

SMC and BMC will remain the largest application segment during the forecast period due to increasing demand for lightweight materials in transportation and performance benefits, such as lower corrosion in construction and higher thermal resistance in the E&E industry.

Asia Pacific is expected to remain the largest market over the forecast period by value and volume. Rest of the World is expected to witness the highest growth over the forecast period because of growing demand from transportation and other end use industries.

Features of Low Profile Additive Market

Market Size Estimates: Low profile additive market size estimation in terms of value (\$M) and volume (Kilotons)

Trend and Forecast Analysis: Market trends (2014-2019) and forecast (2020-2025) by various segments and regions.

Segmentation Analysis: Market size by product type and application

Regional Analysis: Low profile additive market breakdown by North America, Europe, Asia Pacific, and the Rest of the World.

Growth Opportunities: Analysis on growth opportunities in different product type, application, and regions for low profile additive market.

Strategic Analysis: This includes M&A, new product development, and competitive landscape for the low profile additive market.

Analysis of competitive intensity of the industry based on Porter's Five Forces model.

This report answers following 11 key questions

Q.1 What are some of the most promising potential, high-growth opportunities for the global low profile additive market by product type (polystyrene-based, polyvinyl acetate-based (PVA), polymethyl methacrylate (PMMA), high-density polyethylene, polyester-based, and others), application (sheet & bulk molding compounds (SMC/BMC), pultrusion, resin transfer molding, hand lay-up, spray-up, and others), and region (North America, Europe, Asia Pacific, and the Rest of the World)?

Q.2 Which segments will grow at a faster pace and why?

Q.3 Which regions will grow at a faster pace and why?

Q.4 What are the key factors affecting market dynamics? What are the drivers and challenges of the low profile additive market?

Q.5 What are the business risks and threats to the low profile additive market?

Q.6 What are the emerging trends in the low profile additive market and the reasons behind them?

Q.7 What are some changing demands of customers in the low profile additive market?

Q.8 What are the new developments in the low profile additive market? Which companies are leading these developments?

Q.9 Who are the major players in the low profile additive market? What strategic initiatives are being implemented by key players for business growth?

Q.10 What are some of the competitive products and processes in the low profile additive market, and how big of a threat do they pose for loss of market share via material or product substitution?

Q.11 What M&A activities did take place in the last five years in the low profile additive market?

Contents

1. EXECUTIVE SUMMARY

2. MARKET BACKGROUND AND CLASSIFICATIONS

2.1: Introduction, Background, and Classifications

2.2: Supply Chain

2.3: Industry Drivers and Challenges

3. MARKET TRENDS AND FORECAST ANALYSIS FROM 2014 T 2025

3.1: Macroeconomic Trends (2014-2019) and Forecast (2020-2025)

3.2: Global Low Profile Additive Market Trends (2014-2019) and Forecast (2020-2025)

3.3: Global Low Profile Additive Market by Product Type

3.3.1: Polystyrene-based

3.3.2: Polyvinyl Acetate-based (PVA)

3.3.3: Polymethyl methacrylate (PMMA)

3.3.4: High-density Polyethylene

3.3.5: Polyester-based

3.3.6: Other

3.4: Global Low Profile Additive Market by Application

3.4.1: Sheet & Bulk Molding Compounds (SMC/BMC)

3.4.2: Pultrusion

3.4.3: Resin Transfer Molding

3.4.4: Hand Lay-up

3.4.5: Spray-up

3.4.6: Others

4. MARKET TRENDS AND FORECAST ANALYSIS BY REGION FROM 2014 T 2025

4.1: Global Low Profile Additive Market by Region

4.2: North American Low Profile Additive Market

4.2.1: Market by Application

4.2.2: Market by Product Type

4.2.3: The US Low Profile Additive Market

4.2.4: The Canadian Low Profile Additive Market

4.2.5: The Mexican Low Profile Additive Market

4.3: European Low Profile Additive Market

- 4.3.1: Market by Application
- 4.3.2: Market by Product Type
- 4.3.3: German Low Profile Additive Market
- 4.3.4: United Kingdom Low Profile Additive Market
- 4.3.5: French Low Profile Additive Market
- 4.3.6: Italian Low Profile Additive Market
- 4.4: APAC Low Profile Additive Market
 - 4.4.1: Market by Application
 - 4.4.2: Market by Product Type
 - 4.4.3: Chinese Low Profile Additive Market
 - 4.4.4: Japanese Low Profile Additive Market
 - 4.4.5: Indian Low Profile Additive Market
 - 4.4.6: South Korean Low Profile Additive Market
- 4.5: ROW Low Profile Additive Market
 - 4.5.1: Market by Application
 - 4.5.2: Market by Product Type

5. COMPETITOR ANALYSIS

- 5.1: Product Portfolio Analysis
- 5.2: Geographical Reach
- 5.3: Porter's Five Forces Analysis

6. GROWTH OPPORTUNITIES AND STRATEGIC ANALYSIS

- 6.1: Growth Opportunity Analysis
 - 6.1.1: Growth Opportunities for the Global Low Profile Additive Market by Application
 - 6.1.2: Growth Opportunities for the Global Low Profile Additive Market by Product Type
 - 6.1.3: Growth Opportunities for the Global Low Profile Additive Market by Region
- 6.2: Emerging Trends in the Global Low Profile Additive Market
- 6.3: Strategic Analysis
 - 6.3.1: New Product Development
 - 6.3.2: Capacity Expansion of the Global Low Profile Additive Market
 - 6.3.3: Technology Development
 - 6.3.4: Mergers and Acquisitions in the Global Low Profile Additive Industry

7. COMPANY PROFILES OF LEADING PLAYERS

- 7.1: Wacker Chemie
- 7.2: LyondellBasell Industries
- 7.3: Polynt-Reichhold Group
- 7.4: Ashland
- 7.5: PolyOne Corporation
- 7.6: Poliya Composite Resins and Polymers
- 7.7: Swancor Manufacturing
- 7.8: AOC Aliancys
- 7.9: Interplastic Corporation
