Medical in the FPC Market Trends and Forecast

The future of medical in FPC market looks promising with opportunities in the single layer, double layer, multi- layer, and rigid-flex markets. Medical in the global FPC market is expected to reach an estimated \$0.76 billion by 2028 with a CAGR of 7.5% from 2023 to 2028. The major drivers for this market are growing demand for portable, wireless, and more complex electronic assemblies in the medical sector and miniaturization of medical devices.

A more than 150-page report is developed to help in your business decisions. Sample figures with some insights are shown below.

Medical in the FPC Market by Segment

The study includes a forecast for medical in the global FPC market by technology, laminate material type, and region, as follows:

Medical in FPC Market by Technology [Value (\$B) Shipment Analysis from 2017 to 2028]:

Single Layer

Double Layer

Multi- Layer

Rigid-Flex

Medical in FPC Market by Laminate Material Type [Value (\$B) Shipment Analysis from 2017 to 2028]:

Polyimide

Polyester

Others

Medical in FPC Market by Region [Value (\$B) Shipment Analysis from 2017 to 2028]:

North America

Europe

Asia Pacific

The Rest of the World

List of Medical Companies in the Global FPC market

Companies in the market compete on the basis of product quality offered. Major players in this market focus on expanding their manufacturing facilities, R&D investments, infrastructural development, and leverage integration opportunities across the value chain. With these strategies medical companies in the global FPC cater to increasing demand, ensure competitive effectiveness, develop innovative products & technologies, reduce production costs, and expand their customer base. Some of the medical companies in the global FPC profiled in this report include.

NOK Corporation

Sumitomo Electric

Fujikura

Nitto Denko Corporation

Interflex

Medical in the FPC Market Insights

Lucintel forecasts that polyimide is expected to witness higher growth over the forecast period due to the widespread use of polyimide materials based FPC in various applications, such as hearing aids, respirators, breathing apparatus, instrumentation, MRI equipment, surgical devices, and other devices.

Rigid-flex is expected to witness higher growth over the forecast period due to the growing use of rigid-flex PCBs in medical devices based on their capacity to withstand the high frequencies and are also considered suitable for lighter and smaller devices.

APAC is expected to witness higher growth over the forecast period due to the growing demand for healthcare among population and continuous advancement of medical technology in the region.

Features of Medical in the FPC Market

Market Size Estimates: Medical in the FPC market size estimation in terms of value (\$B)

Trend And Forecast Analysis: Market trends (2017-2022) and forecast (2023-2028) by various segments and regions.

Segmentation Analysis: Medical in the FPC market size by various segments, such as by technology, laminate material type, and region

Regional Analysis: Medical in the FPC market breakdown by North America, Europe, Asia Pacific, and the Rest of the World.

Growth Opportunities: Analysis on growth opportunities in different by technology, laminate material type, and regions for medical in the FPC market.

Strategic Analysis: This includes M&A, new product development, and competitive landscape for medical in the FPC market.

Analysis of competitive intensity of the industry based on Porter's Five Forces model.

FAQ

Q1. What is medical in the FPC market size?

Answer: Medical in the global FPC market is expected to reach an estimated \$0.76 billion by 2028.

Q2. What is the growth forecast for medical in the FPC market?

Answer: Medical in the global FPC market is expected to grow with a CAGR of 7.5% from 2023 to 2028.

Q3. What are the major drivers influencing the growth of medical in the FPC market?

Answer: The major drivers for this market are growing demand for portable, wireless, and more complex electronic assemblies in the medical sector and miniaturization of medical devices.

Q4. What are the major segments for medical in the FPC market?

Answer: The future of medical in the FPC market looks promising with opportunities in the single layer, double layer, multi-layer, and rigid-flex markets.

Q5. Who are the key medical companies in the global FPC market?

Answer: Some of the key medical companies in the global FPC are as follows:

NOK Corporation

Sumitomo Electric

Fujikura

Nitto Denko Corporation

Interflex

Q6. Which medical in the FPC segment will be the largest in future?

Answer: Lucintel forecasts that polyimide is expected to witness higher growth over the forecast period due to the widespread use of polyimide materials based FPC in various applications, such as hearing aids, respirators, breathing apparatus, instrumentation, MRI equipment, surgical devices, and other devices.

Q7. In medical in the FPC market, which region is expected to be the largest in next 5 years?

Answer: APAC is expected to witness higher growth over the forecast period due to the growing demand for healthcare among population and continuous advancement of medical technology in the region.

Q8. Do we receive customization in this report?

Answer: Yes, Lucintel provides 10% Customization Without any Additional Cost.

This report answers following 11 key questions

Q.1. What are some of the most promising, high-growth opportunities for medical in the FPC market by technology (single layer, double layer, multi-layer, and rigid flex), laminate material type (polyimide, polyester, and others), and region (North America, Europe, Asia Pacific, and the Rest of the World)?

Q.2. Which segments will grow at a faster pace and why?

Q.3. Which region will grow at a faster pace and why?

Q.4. What are the key factors affecting market dynamics? What are the key challenges and business risks in this market?

Q.5. What are the business risks and competitive threats in this market?

Q.6. What are the emerging trends in this market and the reasons behind them?

Q.7. What are some of the changing demands of customers in the market?

Q.8. What are the new developments in the market? Which companies are leading

these developments?

Q.9. Who are the major players in this market? What strategic initiatives are key players pursuing for business growth?

Q.10. What are some of the competing products in this market and how big of a threat do they pose for loss of market share by material or product substitution?

Q.11. What M&A activity has occurred in the last 5 years and what has its impact been on the industry?

For any questions related to medical in the global FPC market or related to medical in the global FPC companies, medical in the global FPC market size, medical in the global FPC market share, medical in the global FPC analysis, write Lucintel analyst at email: helpdesk@lucintel.com we will be glad to get back to you soon.
