

# Metal Composite Power Inductor Market Report: Trends, Forecast and Competitive Analysis to 2030

<https://marketpublishers.com/r/MBAD921181AEEN.html>

Date: September 2023

Pages: 150

Price: US\$ 4,850.00 (Single User License)

ID: MBAD921181AEEN

## Abstracts

It will take 2-3 business days to deliver the report upon receipt the order if any customization is not there.

### Metal Composite Power Inductor Market Trends and Forecast

The future of the global metal composite power inductor market looks promising with opportunities in the consumer electronics, aerospace and defense, industrial, IT and telecom, and healthcare sectors. The global metal composite power inductor market is expected to reach an estimated \$939.3 million by 2030 with a CAGR of 4.5% from 2024 to 2030. The major drivers for this market are considerable use of these inductors in novel mobile electronic devices, increasing interest for automation among industry 4.0 technologies ,and rising trend for electric vehicles.

A more than 150-page report is developed to help in your business decisions. Sample figures with some insights are shown below.

### Metal Composite Power Inductor Market by Segment

The study includes a forecast for the global metal composite power inductor market by type, form, mounting, end use, and region

Metal Composite Power Inductor Market by Type [Shipment Analysis by Value from 2018 to 2030]:

Wire Wound

Multilayered

Thin Film Type

Others

Metal Composite Power Inductor Market by Form [Shipment Analysis by Value from 2018 to 2030]:

DC-DC Converters

Tuning Circuits

Module Circuits

Filters

Metal Composite Power Inductor Market by Mounting [Shipment Analysis by Value from 2018 to 2030]:

Through Hole

Surface Mount

Metal Composite Power Inductor Market by Region [Shipment Analysis by Value from 2018 to 2030]:

North America

Europe

Asia Pacific

The Rest of the World

List of Metal Composite Power Inductor Companies

Companies in the market compete on the basis of product quality offered. Major players in this market focus on expanding their manufacturing facilities, R&D investments, infrastructural development, and leverage integration opportunities across the value chain. With these strategies metal composite power inductor companies cater increasing demand, ensure competitive effectiveness, develop innovative products & technologies, reduce production costs, and expand their customer base. Some of the metal composite power inductor companies profiled in this report include-

Würth Electronics

Bourns

Abracon

KEMET

Cyntec

Murata Manufacturing

Little Fuse

NIC Components

Pulse Electronics

SUMIDA

## Metal Composite Power Inductor Market Insights

Lucintel forecast that multilayered is expected to witness highest growth over the forecast period due to its significant use in automotive and industrial applications owing to its lightweight and easy installation.

Consumer electronics will remain the largest segment due to tremendous demand for digital and electronic products for both personal and professional use.

North America is expected to witness highest growth over the forecast period due to expanding acceptance in consumer electronics, rising preference for eco-friendly automotive, existence of key manufacturers in the region.

## Features of the Global Metal Composite Power Inductor Market

**Market Size Estimates:** Metal composite power inductor market size estimation in terms of value (\$M).

**Trend and Forecast Analysis:** Market trends (2018 to 2023) and forecast (2024 to 2030) by various segments and regions.

**Segmentation Analysis:** Metal composite power inductor market size by various segments, such as by type, form, mounting, end use, and region in terms of value (\$M).

**Regional Analysis:** Metal composite power inductor market breakdown by North America, Europe, Asia Pacific, and Rest of the World.

**Growth Opportunities:** Analysis of growth opportunities in different type, form, mounting, end use, and region for the metal composite power inductor market.

**Strategic Analysis:** This includes M&A, new product development, and competitive landscape of the metal composite power inductor market.

Analysis of competitive intensity of the industry based on Porter's Five Forces model.

## FAQ

**Q.1** What is the metal composite power inductor market size?

**Answer:** The global metal composite power inductor market is expected to reach an estimated \$939.3 million by 2030.

**Q.2** What is the growth forecast for metal composite power inductor market?

**Answer:** The global metal composite power inductor market is expected to grow with a cagr of 4.5% from 2024 to 2030

**Q.3** What are the major drivers influencing the growth of the metal composite power

inductor market?

Answer: The major drivers for this market are considerable use of these inductors in novel mobile electronic devices increasing interest for automation among industry 4.0 technologies rising trend for electric vehicles

Q4. What are the major segments for metal composite power inductor market?

Answer: The future of the metal composite power inductor market looks promising with opportunities in the consumer electronics, aerospace and defense, industrial, it and telecom, and healthcare sectors.

Q5. Who are the key metal composite power inductor market companies?

Answer: Some of the key metal composite power inductor companies are as follows:

Wurth Electronics

Bourns

Abracon

KEMET

Cyntec

Murata Manufacturing

Little Fuse

NIC Components

Pulse Electronics

SUMIDA

Q6. Which metal composite power inductor market segment will be the largest in future?

Answer: Lucintel forecast that multilayered is expected to witness highest growth over the forecast period due to its significant use in automotive and industrial applications owing to its lightweight and easy installation.

Q7. In metal composite power inductor market, which region is expected to be the largest in next 5 years?

Answer: North America is expected to witness highest growth over the forecast period due to expanding acceptance in consumer electronics, rising preference for eco-friendly automotive, existence of key manufacturers in the region.

Q.8 Do we receive customization in this report?

Answer: yes, lucintel provides 10% customization without any additional cost.

This report answers following 11 key questions:

Q.1. What are some of the most promising, high-growth opportunities for the metal composite power inductor market by type (wire wound, multilayered, thin film type, and others), form (DC-DC converters, tuning circuits, module circuits, and filters), mounting (through hole and surface mount), end use (consumer electronics, aerospace and defense, industrial, IT and telecom, healthcare, and others), and region (North America, Europe, Asia Pacific, and the Rest of the World)?

Q.2. Which segments will grow at a faster pace and why?

Q.3. Which region will grow at a faster pace and why?

Q.4. What are the key factors affecting market dynamics? What are the key challenges and business risks in this market?

Q.5. What are the business risks and competitive threats in this market?

Q.6. What are the emerging trends in this market and the reasons behind them?

Q.7. What are some of the changing demands of customers in the market?

Q.8. What are the new developments in the market? Which companies are leading these developments?

Q.9. Who are the major players in this market? What strategic initiatives are key players pursuing for business growth?

Q.10. What are some of the competing products in this market and how big of a threat do they pose for loss of market share by material or product substitution?

Q.11. What M&A activity has occurred in the last 5 years and what has its impact been on the industry?

For any questions related to metal composite power inductor market or related to metal composite power inductor companies, metal composite power inductor market size, metal composite power inductor market share, metal composite power inductor market growth, metal composite power inductor market research, write Lucintel analyst at email: [helpdesk@lucintel.com](mailto:helpdesk@lucintel.com) Metal Composite Power Inductor Market Trends and Forecast

## Contents

### 1. EXECUTIVE SUMMARY

### 2. GLOBAL METAL COMPOSITE POWER INDUCTOR MARKET: MARKET DYNAMICS

2.1: Introduction, Background, and Classifications

2.2: Supply Chain

2.3: Industry Drivers and Challenges

### 3. MARKET TRENDS AND FORECAST ANALYSIS FROM 2018 TO 2030

3.1. Macroeconomic Trends (2018-2023) and Forecast (2024-2030)

3.2. Global Metal Composite Power Inductor Market Trends (2018-2023) and Forecast (2024-2030)

3.3: Global Metal Composite Power Inductor Market by Type

3.3.1: Wire Wound

3.3.2: Multilayered

3.3.3: Thin Film Type

3.3.4: Others

3.3.5: Segment

3.4: Global Metal Composite Power Inductor Market by Form

3.4.1: DC-DC Converters

3.4.2: Tuning Circuits

3.4.3: Module Circuits

3.4.4: Filters

3.5: Global Metal Composite Power Inductor Market by Mounting

3.5.1: Through Hole

3.5.2: Surface Mount

3.6: Global Metal Composite Power Inductor Market by End Use

3.6.1: Consumer Electronics

3.6.2: Aerospace and Defense

3.6.3: Industrial

3.6.4: IT and Telecom

3.6.5: Healthcare

3.6.6: Others

### 4. MARKET TRENDS AND FORECAST ANALYSIS BY REGION FROM 2018 TO

## 2030

4.1: Global Metal Composite Power Inductor Market by Region

4.2: North American Metal Composite Power Inductor Market

4.2.1: North American Metal Composite Power Inductor Market by Type: Wire Wound, Multilayered, Thin Film Type, and Others

4.2.2: North American Metal Composite Power Inductor Market by End Use: Consumer Electronics, Aerospace and Defense, Industrial, IT and Telecom, Healthcare, and Others

4.3: European Metal Composite Power Inductor Market

4.3.1: European Metal Composite Power Inductor Market by Type: Wire Wound, Multilayered, Thin Film Type, and Others

4.3.2: European Metal Composite Power Inductor Market by End Use: Consumer Electronics, Aerospace and Defense, Industrial, IT and Telecom, Healthcare, and Others

4.4: APAC Metal Composite Power Inductor Market

4.4.1: APAC Metal Composite Power Inductor Market by Type: Wire Wound, Multilayered, Thin Film Type, and Others

4.4.2: APAC Metal Composite Power Inductor Market by End Use: Consumer Electronics, Aerospace and Defense, Industrial, IT and Telecom, Healthcare, and Others

4.5: ROW Metal Composite Power Inductor Market

4.5.1: ROW Metal Composite Power Inductor Market by Type: Wire Wound, Multilayered, Thin Film Type, and Others

4.5.2: ROW Metal Composite Power Inductor Market by End Use: Consumer Electronics, Aerospace and Defense, Industrial, IT and Telecom, Healthcare, and Others

## 5. COMPETITOR ANALYSIS

5.1: Product Portfolio Analysis

5.2: Operational Integration

5.3: Porter's Five Forces Analysis

## 6. GROWTH OPPORTUNITIES AND STRATEGIC ANALYSIS

6.1: Growth Opportunity Analysis

6.1.1: Growth Opportunities for the Global Metal Composite Power Inductor Market by Type

6.1.2: Growth Opportunities for the Global Metal Composite Power Inductor Market by Form

6.1.3: Growth Opportunities for the Global Metal Composite Power Inductor Market by Mounting

6.1.4: Growth Opportunities for the Global Metal Composite Power Inductor Market by End Use

6.1.5: Growth Opportunities for the Global Metal Composite Power Inductor Market Region

6.2: Emerging Trends in the Global Metal Composite Power Inductor Market

6.3: Strategic Analysis

6.3.1: New Product Development

6.3.2: Capacity Expansion of the Global Metal Composite Power Inductor Market

6.3.3: Mergers, Acquisitions, and Joint Ventures in the Global Metal Composite Power Inductor Market

6.3.4: Certification and Licensing

## **7. COMPANY PROFILES OF LEADING PLAYERS**

7.1: Würth Electronics

7.2: Bourns

7.3: Abracon

7.4: KEMET

7.5: Cyntec

7.6: Murata Manufacturing

7.7: Little Fuse

7.8: NIC Components

7.9: Pulse Electronics

7.10: SUMIDA

## I would like to order

Product name: Metal Composite Power Inductor Market Report: Trends, Forecast and Competitive Analysis to 2030

Product link: <https://marketpublishers.com/r/MBAD921181AEEN.html>

Price: US\$ 4,850.00 (Single User License / Electronic Delivery)

If you want to order Corporate License or Hard Copy, please, contact our Customer Service:
