Micro Fulfillment Market Insights

Lucintel forecasts that store-integrated/in store is expected to witness the highest growth over the forecast period due to this strategy helps businesses to make better use of their retail space and goods and potentially minimize the requirement for separate dedicated fulfillment centers.

Within this market, traditional retailer & distributor is expected to witness the highest growth as they have a well-established network of physical storefronts, warehouses, and distribution hubs.

North America will remain the largest region over the forecast period due to presence of well-established infrastructure, growing innovation and increasing customer's preference towards online purchasing.
