Abstracts

The future of the polyurethane market looks promising with opportunities in the building and construction, bedding and furniture, automotive and transportation, electrical and electronics, and footwear industries. The Middle Eastern and North African polyurethane market is expected to decline in 2020 due to the global economic recession led by COVID-19. However, the market will witness recovery in the year 2021, and it is expected to reach an estimated \$2.3 billion by 2025 with a CAGR of 3%-5% from 2019 to 2025. The major drivers for this market are significant growth in building and houses and increasing penetration of polyurethane in furniture, bedding, and automotive applications.

Emerging trends, which have a direct impact on the dynamics of the industry, include the use of bio-based polyurethane, increasing demand for low VOC, green, and sustainable polyurethane and recycling of polyurethane. The Dow Chemical Company, Huntsman Corporation, BASF, Kuwait Polyurethane Industry, Covestro, and Wanhua Chemical Group Co. Ltd. are among the major suppliers of the Middle Eastern and North African polyurethane market.

A total of 88 figures/charts and 49 tables are provided in this 137-page report to help in your business decisions. A sample figure with insights is shown below. To learn the scope of benefits, companies researched, and other details of the Middle Eastern and North African polyurethane market report, please download the report brochure.

The study includes trends and forecast for the Middle Eastern and North African polyurethane market by application, product type as follows:

By Application [\$M shipment and Volume (M lbs) analysis for 2014 – 2025]:

Building and Construction Bedding and FurnitureAutomotive and
TransportationElectrical and Electronics FootwearOthers
By Product Type [\$M shipment and Volume (M lbs) analysis for 2014 – 2025]:
Rigid FoamFlexible FoamCoatingElastomersOthers
By Country [\$M shipment and Volume (M lbs) analysis for 2014 – 2025]:
Saudi ArabiaUAEIranIraqOthers
Lucintel forecasts that flexible foam will remain the largest product type segment by
value and volume due to growth in furniture and bedding industry.

Bedding and furniture segment will remain the largest end use industry due to rising in
residential and commercial construction and changing lifestyle of people along with the
growing population.

Some of the Middle Eastern and North African polyurethane manufacturers profiled in
this report include The Dow Chemical Company, Huntsman Corporation, BASF, Kuwait
Polyurethane Industry, Covestro, and Wanhua Chemical Group Co. Ltd.

Features of the Middle Eastern and North African polyurethane Market

Market Size Estimates: Middle Eastern and North African polyurethane size estimation
in terms of value (\$M) shipment and volume (M lbs)Trend and Forecast Analysis:
Market trends (2014-2019) and forecast (2020-2025) by various segments and
country.Segmentation Analysis: Middle Eastern and North African polyurethane market
size by various segments, such as application, product type in terms of value and
volume.Growth Opportunities: Analysis on growth opportunities in different application,
product type for the Middle Eastern and North African polyurethane market.Strategic
Analysis: This includes M&A, new product development, and competitive landscape for
the Middle Eastern and North African polyurethane market.Analysis of competitive
intensity of the industry based on Porter's Five Forces model.

This report answers following 11 key questions

Q.1 What are some of the most promising potential, high-growth opportunities for the
Middle Eastern and North African polyurethane market by application, and product
type?

Q.2 Which segments will grow at a faster pace and why?

Q.3 What are the key factors affecting market dynamics? What are the drivers and
challenges of the Middle Eastern and North African polyurethane market?

Q.4 What are the business risks and threats to the Middle Eastern and North African

polyurethane market?

Q.5 What are emerging trends in this Middle Eastern and North African polyurethane market and the reasons behind them?

Q.6 What are some changing demands of customers in the Middle Eastern and North African polyurethane market?

Q.7 What are the new developments in the Middle Eastern and North African polyurethane market? Which companies are leading these developments?

Q.8 Who are the major players in the Middle Eastern and North African polyurethane market? What strategic initiatives are being implemented by key players for business growth?

Q.9 What are some of the competitive products and processes in the Middle Eastern and North African polyurethane market, and how big of a threat do they pose for loss of market share via material or product substitution?

Q.10 What M&A activities did take place in the last five years in the Middle Eastern and North African polyurethane market?
