Military Rotorcraft Market Trends and Forecast

The future of the military rotorcraft market looks promising with opportunities in the troop airlifting, cargo supply, emergency medical services, corporate services, search and rescue operation, oil and gas, defense, and homeland security market. The global military rotorcraft market is expected to grow with a CAGR of 4% to 6% from 2023 to 2028. The major drivers for this market are rise in territorial and political conflicts, rapid advancement in technology, and increasing usage of advanced military helicopters.

Emerging Trends in the Military Rotorcraft Market

Emerging trends, which have a direct impact on the dynamics of the industry, include increasing government expenditure on border security.

A more than 150-page report is developed to help in your business decisions. A sample figure with some insights is shown below. To learn the scope, benefits, companies researched and other details of the global military rotorcraft market report, please download the report brochure.

Military Rotorcraft Market by Segments

The study includes trends and forecast for the global military rotorcraft market by product type, application, system, weight, point of sale, payload, and region, as follows:

Military Rotorcraft Market by Product Type [Value (\$B) Shipment Analysis from 2017 to 2028]:

Attack Helicopters

Transport Helicopters

Multi-Mission and Training Helicopters

Military Rotorcraft Market by Application [Value (\$B) Shipment Analysis from 2017 to 2028]:

Troop Airlifting

Cargo Supply

Emergency Medical Services

Corporate Services

Search and Rescue Operation

Oil and Gas

Defense

Homeland Security

Others

Military Rotorcraft Market by Weight [Value (\$B) Shipment Analysis from 2017 to 2028]:

Lightweight

Medium Weight

Heavy Weight

Military Rotorcraft Market by Payload [Value (\$B) Shipment Analysis from 2017 to 2028]:

Below 50 Tons

51 Tons to 100 Tons

101 Tons and Above

Military Rotorcraft Market by Region [Value (\$B) Shipment Analysis from 2017 to 2028]:

North America

Europe

Asia Pacific

The Rest of the World

List of Military Rotorcraft Companies

Companies in the market compete on the basis of product quality offered. Major players in this market focus on expanding their manufacturing facilities, R&D investments, infrastructural development, and leverage integration opportunities across the value chain. With these strategies, military rotorcraft companies cater to increasing demand, ensure competitive effectiveness, develop innovative products & technologies, reduce production costs, and expand their customer base. Some of the military rotorcraft companies profiled in this report include-

Airbus SE

Aviation Industry Corporation of China (AVIC)

Embraer SA

Kawasaki Heavy Industries

Leonardo SpA

Lockheed Martin Corporation

Mitsubishi

Military Rotorcraft Market Insights

Lucintel forecasts that heavy weight will remain the largest weight segment over the forecast period due to the augmenting demand for rotorcraft with specific application, rising transportation of cargo and troops, and high passenger carrying capacity for commercial application.

Attack helicopters is expected to remain the largest product type segment due to the procurement of attack helicopters on a large scale, rise in counterterrorism and counterinsurgency campaigns and increase in search and rescue activities.

APAC will remain the largest region due to the growing military spending, increasing requirement of modernized military equipment and presence of key players in the region.

Market Size Estimates: Military rotorcraft market size estimation in terms of value (\$B)

Trend And Forecast Analysis: Market trends (2017-2022) and forecast (2023-2028) by various segments and regions.

Segmentation Analysis: Military rotorcraft market size by various segments, such as product type, application, weight, and payload

Regional Analysis: Military rotorcraft market breakdown by North America, Europe, Asia Pacific, and the Rest of the World.

Growth Opportunities: Analysis on growth opportunities in different product

types, applications, weight, payloads, and regions for the military rotorcraft market.

Strategic Analysis: This includes M&A, new product development, and competitive landscape for the military rotorcraft market.

Analysis of competitive intensity of the industry based on Porter's Five Forces model.

FAQ

Q1. What is the military rotorcraft market size?

Answer: The global military rotorcraft market is expected to reach an estimated \$xx billion by 2028.

Q2. What is the growth forecast for military rotorcraft market?

Answer: The global military rotorcraft market is expected to grow with a CAGR of 4% to 6% from 2023 to 2028.

Q3. What are the major drivers influencing the growth of the military rotorcraft market?

Answer: The major drivers for this market are rise in territorial and political conflicts, rapid advancement in technology, and increasing usage of advanced military helicopters.

Q4. What are the major segments for military rotorcraft market?

Answer: The future of the military rotorcraft market looks promising with opportunities in the troop airlifting, cargo supply, emergency medical service, corporate service, search and rescue operation, oil and gas, defense, and homeland security applications.

Q5. What are the emerging trends in military rotorcraft market?

Answer: Emerging trends, which have a direct impact on the dynamics of the industry, include increasing government expenditure on border security.

Q6. Who are the key military rotorcraft companies?

Answer: Some of the key military rotorcraft companies are as follows:

Airbus SE

Aviation Industry Corporation of China (AVIC)

Embraer SA

Kawasaki Heavy Industries

Leonardo SpA

Lockheed Martin Corporation

Mitsubishi

Q7. Which military rotorcraft segment will be the largest in future?

Answer: Lucintel forecasts that heavy weight will remain the largest segment over the forecast period due to the augmenting demand for rotorcraft with specific application, rising transportation of cargo and troops, and high passenger carrying capacity for commercial application.

Q8. In military rotorcraft market, which region is expected to be the largest in next 5 years?

Answer: APAC will remain the largest region due to the growing military spending, increasing requirement of modernized military equipment and presence of key players in the region.

Q9. Do we receive customization in this report?

Answer: Yes, Lucintel provides 10% Customization Without any Additional Cost.

This report answers following 11 key questions

Q.1. What are some of the most promising, high-growth opportunities for the military rotorcraft market by product type (attack helicopters, transport helicopters and multi-mission, and training helicopters), application (troop airlifting, cargo supply, emergency medical services, corporate services, search and rescue operation, oil and gas, defense, homeland security, and others), weight (lightweight, medium weight, and heavy weight), payload (below 50 tons, 51 tons to 100 tons, 101 tons, and above), and region (North America, Europe, Asia Pacific, and the Rest of the World)?

Q.2. Which segments will grow at a faster pace and why?

Q.3. Which region will grow at a faster pace and why?

Q.4. What are the key factors affecting market dynamics? What are the key challenges and business risks in this market?

Q.5. What are the business risks and competitive threats in this market?

Q.6. What are the emerging trends in this market and the reasons behind them?

Q.7. What are some of the changing demands of customers in the market?

Q.8. What are the new developments in the market? Which companies are leading these developments?

Q.9. Who are the major players in this market? What strategic initiatives are key players pursuing for business growth?

Q.10. What are some of the competing products in this market and how big of a threat do they pose for loss of market share by material or product substitution?

Q.11. What M&A activity did occur in the last five years and what has been the impact on the industry?
