

Motion Preservation Devices Market Report: Trends, Forecast and Competitive Analysis to 2030

<https://marketpublishers.com/r/MF921FAF2BA1EN.html>

Date: September 2023

Pages: 150

Price: US\$ 4,850.00 (Single User License)

ID: MF921FAF2BA1EN

Abstracts

It will take 2-3 business days to deliver the report upon receipt the order if any customization is not there.

Motion Preservation Devices Trends and Forecast

The future of the global motion preservation devices market looks promising with opportunities in the hospital, orthopedic clinic, and ambulatory surgical center markets. The global motion preservation devices market is expected to reach an estimated \$2.9 billion by 2030 with a CAGR of 9.5% from 2024 to 2030. The major drivers for this market are increase in increasing prevalence of spine problems, growing geriatric population, on-going technological advancement and development in bone graft products.

A more than 150-page report is developed to help in your business decisions. Sample figures with some insights are shown below.

Motion Preservation Devices by Segment

The study includes a forecast for the global motion preservation devices by surgery, product type, end use, and region.

Motion Preservation Devices Market by Surgery [Shipment Analysis by Value from 2018 to 2030]:

Minimally Invasive Spine Surgery

Open Spine Surgery

Motion Preservation Devices Market by Product Type [Shipment Analysis by Value from 2018 to 2030]:

Dynamic Stabilization Devices

Artificial Discs

Annulus Repair Devices

Nuclear Disc Prostheses Device

Motion Preservation Devices Market by End Use [Shipment Analysis by Value from 2018 to 2030]:

Hospitals

Orthopedic Clinics

Ambulatory Surgical Centers (ASCs)

Others

Motion Preservation Devices Market by Region [Shipment Analysis by Value from 2018 to 2030]:

North America

Europe

Asia Pacific

The Rest of the World

List of Motion Preservation Devices Companies

Companies in the market compete on the basis of product quality offered. Major players in this market focus on expanding their manufacturing facilities, R&D investments, infrastructural development, and leverage integration opportunities across the value chain. With these strategies motion preservation devices companies cater increasing demand, ensure competitive effectiveness, develop innovative products & technologies, reduce production costs, and expand their customer base. Some of the motion preservation devices companies profiled in this report include-

Zimmer Biomet

Spinal Kinetics

RTI Surgical

Aura Spine

Raymedica

Paradigm Spine

Ulrich

Hpi Implants

B. Braun Melunsung

Globusmedical

Motion Preservation Devices Market Insights

Lucintel forecasts that minimally invasive spine surgery is expected to witness higher growth over the forecast period due to the growing number of spinal diseases and on-going improvement in surgical technology.

Artificial discs will remain the largest segment due to growing geriatric population and increasing number of spine disorders.

APAC is expected to witness highest growth over the forecast period due to a rise in the prevalence of spine injuries and improvement in the healthcare infrastructure in the region.

Features of the Global Motion Preservation Devices Market

Market Size Estimates: Motion preservation devices market size estimation in terms of value (\$B).

Trend and Forecast Analysis: Market trends (2018 to 2023) and forecast (2024 to 2030) by various segments and regions.

Segmentation Analysis: Motion preservation devices market size by surgery, product type, end use, and region in terms of value (\$B).

Regional Analysis: Motion preservation devices market breakdown by North America, Europe, Asia Pacific, and Rest of the World.

Growth Opportunities: Analysis of growth opportunities in different surgeries, product types, end uses, and regions for the motion preservation devices market.

Strategic Analysis: This includes M&A, new product development, and competitive landscape of the motion preservation devices market.

Analysis of competitive intensity of the industry based on Porter's Five Forces model.

FAQ

Q.1 What is the motion preservation devices market size?

Answer: The global motion preservation devices market is expected to reach an estimated \$2.9 billion by 2030.

Q.2 What is the growth forecast for motion preservation devices market?

Answer: The global motion preservation devices market is expected to grow with a CAGR of 9.5% from 2024 to 2030.

Q.3 What are the major drivers influencing the growth of the motion preservation

devices market?

Answer: The major drivers for this market are increase in increasing prevalence of spine problems, growing geriatric population, on-going technological advancement and development in bone graft products.

Q4. What are the major segments for motion preservation devices market?

Answer: The future of the global motion preservation devices market looks promising with opportunities in the hospital, orthopedic clinic, and ambulatory surgical center markets.

Q5. Who are the key motion preservation devices market companies?

Answer: Some of the key motion preservation devices companies are as follows:

Zimmer Biomet

Spinal Kinetics

RTI Surgical

Aura Spine

Raymedica

Paradigm Spine

Ulrich

HPI Implants

B. Braun Melunsung

GlobusMedical

Q6. Which motion preservation devices market segment will be the largest in future?

Answer: Lucintel forecasts that minimally invasive spine surgery is expected to witness higher growth over the forecast period due to the growing number of spinal diseases and on-going improvement in surgical technology.

Q7. In motion preservation devices market, which region is expected to be the largest in next 5 years?

Answer: APAC is expected to witness highest growth over the forecast period due to a rise in the prevalence of spine injuries and improvement in the healthcare infrastructure in the region.

Q.8 Do we receive customization in this report?

Answer: Yes, Lucintel provides 10% customization without any additional cost.

This report answers following 11 key questions:

Q.1. What are some of the most promising, high-growth opportunities for the motion preservation devices market by surgery (minimally invasive spine surgery and open spine surgery), product type (dynamic stabilization devices, artificial discs, annulus repair devices, and nuclear disc prostheses device), end use (hospitals, orthopedic clinics, ambulatory surgical centers (ASCs), and others), and region (North America, Europe, Asia Pacific, and the Rest of the World)?

Q.2. Which segments will grow at a faster pace and why?

Q.3. Which region will grow at a faster pace and why?

Q.4. What are the key factors affecting market dynamics? What are the key challenges and business risks in this market?

Q.5. What are the business risks and competitive threats in this market?

Q.6. What are the emerging trends in this market and the reasons behind them?

Q.7. What are some of the changing demands of customers in the market?

Q.8. What are the new developments in the market? Which companies are leading these developments?

Q.9. Who are the major players in this market? What strategic initiatives are key players pursuing for business growth?

Q.10. What are some of the competing products in this market and how big of a threat do they pose for loss of market share by material or product substitution?

Q.11. What M&A activity has occurred in the last 5 years and what has its impact been on the industry?

For any questions related to motion preservation devices market or related to motion preservation devices companies, motion preservation devices market size, motion preservation devices market share, motion preservation devices market growth, motion preservation devices market research, write Lucintel analyst at email: helpdesk@lucintel.com we will be glad to get back to you soon.

Contents

1. EXECUTIVE SUMMARY

2. GLOBAL MOTION PRESERVATION DEVICES MARKET : MARKET DYNAMICS

2.1: Introduction, Background, and Classifications

2.2: Supply Chain

2.3: Industry Drivers and Challenges

3. MARKET TRENDS AND FORECAST ANALYSIS FROM 2018 TO 2030

3.1. Macroeconomic Trends (2018-2023) and Forecast (2024-2030)

3.2. Global Motion Preservation Devices Market Trends (2018-2023) and Forecast (2024-2030)

3.3: Global Motion Preservation Devices Market by Surgery

3.3.1: Minimally Invasive Spine Surgery

3.3.2: Open Spine Surgery

3.4: Global Motion Preservation Devices Market by Product Type

3.4.1: Dynamic Stabilization Devices

3.4.2: Artificial Discs

3.4.3: Annulus Repair Devices

3.4.4: Nuclear Disc Prostheses Device

3.5: Global Motion Preservation Devices Market by End Use

3.5.1: Hospitals

3.5.2: Orthopedic Clinics

3.5.3: Ambulatory Surgical Centers (ASCs)

3.5.4: Others

4. MARKET TRENDS AND FORECAST ANALYSIS BY REGION FROM 2018 TO 2030

4.1: Global Motion Preservation Devices Market by Region

4.2: North American Motion Preservation Devices Market

4.2.1: North American Motion Preservation Devices Market by Surgery: Minimally Invasive Spine Surgery and Open Spine Surgery

4.2.2: North American Motion Preservation Devices Market by Product Type: Dynamic Stabilization Devices, Artificial Discs, Annulus Repair Devices, and Nuclear Disc Prostheses Device

4.3: European Motion Preservation Devices Market

4.3.1: European Motion Preservation Devices Market by Surgery: Minimally Invasive Spine Surgery and Open Spine Surgery

4.3.2: European Motion Preservation Devices Market by Product Type: Dynamic Stabilization Devices, Artificial Discs, Annulus Repair Devices, and Nuclear Disc Prostheses Device

4.4: APAC Motion Preservation Devices Market

4.4.1: APAC Motion Preservation Devices Market by Surgery: Minimally Invasive Spine Surgery and Open Spine Surgery

4.4.2: APAC Motion Preservation Devices Market by Product Type: Dynamic Stabilization Devices, Artificial Discs, Annulus Repair Devices, and Nuclear Disc Prostheses Device

4.5: ROW Motion Preservation Devices Market

4.5.1: ROW Motion Preservation Devices Market by Surgery: Minimally Invasive Spine Surgery and Open Spine Surgery

4.5.2: ROW Motion Preservation Devices Market by Product Type: Dynamic Stabilization Devices, Artificial Discs, Annulus Repair Devices, and Nuclear Disc Prostheses Device

5. COMPETITOR ANALYSIS

5.1: Product Portfolio Analysis

5.2: Operational Integration

5.3: Porter's Five Forces Analysis

6. GROWTH OPPORTUNITIES AND STRATEGIC ANALYSIS

6.1: Growth Opportunity Analysis

6.1.1: Growth Opportunities for the Global Motion Preservation Devices Market by Surgery

6.1.2: Growth Opportunities for the Global Motion Preservation Devices Market by Product Type

6.1.3: Growth Opportunities for the Global Motion Preservation Devices Market by End Use

6.1.4: Growth Opportunities for the Global Motion Preservation Devices Market by Region

6.2: Emerging Trends in the Global Motion Preservation Devices Market

6.3: Strategic Analysis

6.3.1: New Product Development

6.3.2: Capacity Expansion of the Global Motion Preservation Devices Market

6.3.3: Mergers, Acquisitions, and Joint Ventures in the Global Motion Preservation Devices Market

6.3.4: Certification and Licensing

7. COMPANY PROFILES OF LEADING PLAYERS

7.1: Zimmer Biomet

7.2: Spinal Kinetics

7.3: RTI Surgical

7.4: Aura Spine

7.5: Raymedica

7.6: Paradigm Spine

7.7: Ulrich

7.8: HPI Implants

7.9: B. Braun Melunsung

7.10: GlobusMedical
