The future of the natural food colorant market looks promising with opportunities in the processed food product and beverage application markets. The global natural food colorant market is expected to grow with a CAGR of 4% to 6% from 2021 to 2026. The major drivers for this market are growing consumer awareness of organic products, increasing demand for processed food products, and organic properties in natural products combined with health enhancing properties of natural colors.

A more than 150 page report is developed to help in your business decisions. Sample figures with some insights are shown below. To learn the scope of, benefits, companies researched and other details of natural food colorant market report download the report brochure.

The study includes trends and forecasts for the global natural food colorant market by source, pigment type, application, form, and region as follows:

By Source [Volume (kilotons) and \$M shipment analysis for 2015 – 2026]:

Plants

Animals

Microbes

Minerals

By Pigment Type [Volume (kilotons) and \$M shipment analysis for 2015 – 2026]:

Anthocyanins

Betanin

Carminic Acid

Chlorophylls/Chlorophyllins

Carotenoids

Curcumin

Riboflavin

Carbon Black

Caramels

Others

By Application [Volume (kilotons) and \$M shipment analysis for 2015 – 2026]:

Processed Food Products

Dairy Products

Bakery and Confectionery

Meat, Poultry, and Seafood

Others

Beverages

Non-Alcoholic

Alcoholic

By Form [Volume (kilotons) and \$M shipment analysis for 2015 – 2026]:

Liquid

Powders

Gels

Pastes

By Region [Volume (kilotons) and \$M shipment analysis for 2015 – 2026]:

North America

United States

Canada

Mexico

Europe

Germany

United Kingdom

France

Italy

Asia Pacific

China

Japan

India

South Korea

The Rest of the World

Plant-sourced food colorant will remain the largest source segment due to growing demand for natural food colors derived from various parts of plants.

Processed food products will remain the largest application segment during the forecast period due to increasing demand for processed products.

Some of the natural food colorant companies profiled in this report include CHR Hansen Holding A/S, Koninklijke DSM N.V., Sensient Technologies Corporation, Archer Daniels Midland Company, Döhler Group, D.D. Williamson & Co., Inc., Naturex S.A., Aromata Group S.r.l, Kalsec Inc., FMC Corporation, BASF SE, Lycored Ltd., GNT Group b.v.

Features of Natural Food Colorant Market

Market Size Estimates: Natural food colorant market size estimation in terms of value (\$M) and volume (tons)

Trend and Forecast Analysis: Market trends (2015-2020) and forecast (2021-2026) by various segments and regions.

Segmentation Analysis: Market size by source, pigment type, application, and form

Regional Analysis: Natural food colorant market breakdown by North America, Europe, Asia Pacific, and the Rest of the World.

Growth Opportunities: Analysis on growth opportunities in different source, pigment type, application, form, and regions for natural food colorant market.

Strategic Analysis: This includes M&A, new product development, and

competitive landscape for the natural food colorant market.

Analysis of competitive intensity of the industry based on Porter's Five Forces model.

This report answers following 11 key questions

Q.1 What are some of the most promising potential, high-growth opportunities for the global natural food colorant market by source (plants, animals, microbes, and mineral), pigment type (anthocyanins, betanin, carminic acid, chlorophylls/chlorophyllins, carotenoids, curcumin, riboflavin, carbon black, caramels, and others), application (processed food products (dairy products, bakery and confectionery, meat, poultry, and seafood, and others) and beverages (non-alcoholic and alcoholic)), form (liquid, powders, gels, and pastes), and region (North America, Europe, Asia Pacific, and the Rest of the World)?

Q.2 Which segments will grow at a faster pace and why?

Q.3 Which regions will grow at a faster pace and why?

Q.4 What are the key factors affecting market dynamics? What are the drivers and challenges of the natural food colorant market?

Q.5 What are the business risks and threats to the natural food colorant market?

Q.6 What are emerging trends in this natural food colorant market and the reasons behind them?

Q.7 What are some changing demands of customers in the natural food colorant market?

Q.8 What are the new developments in the natural food colorant market? Which companies are leading these developments?

Q.9 Who are the major players in the natural food colorant market? What strategic initiatives are being implemented by key players for business growth?

Q.10 What are some of the competitive products and processes in the natural food colorant market, and how big of a threat do they pose for loss of market share via material or product substitution?

Q.11 What M&A activities did take place in the last five years in the natural food colorant market?
