The future of the non-halogenated flame retardant chemical market looks promising with opportunities in the electrical & electronic, building & construction, transportation, and textile & furniture end use industries. The global non-halogenated flame retardant chemical market is expected to decline in 2020 due to the global economic recession led by the COVID-19 pandemic. However, the market will witness recovery in the year 2021, and it is expected to grow with a CAGR of 5% to 7% from 2020 to 2025. The major drivers for this market are stringent governmental regulations related to prohibition on use of halogenated flame retardants, growing awareness of fire safety, and growing demand for flame retardants in the building and construction industry.

A more than 150 page report is developed to help in your business decisions. Sample figures with some insights are shown below. To learn the scope of, benefits, companies researched and other details of non-halogenated flame retardant chemical market report download the report brochure.

The study includes trends and forecasts for the global non-halogenated flame retardant chemical market by type, end use industry, and region as follows:

By Type [Volume (Kilotons) and \$M shipment analysis for 2014 – 2025]:

Inorganic

Aluminum Hydroxide

Magnesium Hydroxide

Boron Compounds

Phosphorus

Nitrogen

Other

By End Use Industry [Volume (Kilotons) and \$M shipment analysis for 2014 – 2025]:

Electrical & Electronics

Buildings & Construction

Transportation

Textiles & Furniture

Others

By Region [Volume (Kilotons) and \$M shipment analysis for 2014 – 2025]:

North America

United States

Canada

Mexico

Europe

Germany

United Kingdom

France

Italy

Asia Pacific

China

Japan

India

South Korea

The Rest of the World

Aluminum hydroxide will remain the largest inorganic type segment due to its low cost and increasing demand in automobiles and electrical appliances.

Building and construction will remain the largest end use industry during the forecast period due to rising environmental concerns related to the usage of flame retardants and growing usage in building materials and products.

Europe will remain the largest region the forecast period due to stringent fire safety regulations and growth in electronics, automotive, and aerospace industries.

Some of the non-halogenated flame retardant chemical companies profiled in this report include Nabaltec, Huber Engineered Materials, BASF, and ICL

Features of Non-Halogenated Flame Retardant Chemical Market

Market Size Estimates: Non-halogenated flame retardant chemical market size estimation in terms of value (\$M) and volume (Kilotons)

Trend and Forecast Analysis: Market trends (2014-2019) and forecast (2020-2025) by various segments and regions.

Segmentation Analysis: Market size by type and end use industry

Regional Analysis: Non-halogenated flame retardant chemical market breakdown by North America, Europe, Asia Pacific, and the Rest of the World.

Growth Opportunities: Analysis on growth opportunities in different end use industries, type, and regions for non-halogenated flame retardant chemical market.

Strategic Analysis: This includes M&A, new product development, and competitive landscape for the non-halogenated flame retardant chemical market.

Analysis of competitive intensity of the industry based on Porter's Five Forces model.

This report answers following 11 key questions

Q.1 What are some of the most promising potential, high-growth opportunities for the global non-halogenated flame retardant chemical market by type (inorganic (aluminum hydroxide, magnesium hydroxide, and boron compounds), phosphorus, nitrogen, and other), end use industry (electrical & electronics, buildings & construction, transportation, textiles & furniture, and others), and region (North America, Europe, Asia Pacific, and the Rest of the World)?

Q.2 Which segments will grow at a faster pace and why?

Q.3 Which regions will grow at a faster pace and why?

Q.4 What are the key factors affecting market dynamics? What are the drivers and challenges of the non-halogenated flame retardant chemical market?

Q.5 What are the business risks and threats to the non-halogenated flame retardant chemical market?

Q.6 What are emerging trends in this non-halogenated flame retardant chemical market and the reasons behind them?

Q.7 What are some changing demands of customers in the non-halogenated flame retardant chemical market?

Q.8 What are the new developments in the non-halogenated flame retardant chemical market? Which companies are leading these developments?

Q.9 Who are the major players in the non-halogenated flame retardant chemical market? What strategic initiatives are being implemented by key players for business growth?

Q.10 What are some of the competitive products and processes in the non-halogenated flame retardant chemical market, and how big of a threat do they pose for loss of market share via material or product substitution?

Q.11 What M&A activities did take place in the last five years in the non-halogenated flame retardant chemical market?

Contents

1. EXECUTIVE SUMMARY

2. MARKET BACKGROUND AND CLASSIFICATIONS

2.1: Introduction, Background, and Classifications

2.2: Supply Chain

2.3: Industry Drivers and Challenges

3. MARKET TRENDS AND FORECAST ANALYSIS FROM 2014 T 2025

3.1: Macroeconomic Trends (2014-2019) and Forecast (2020-2025)

3.2: Global Non-Halogenated Flame Retardant Chemical Market Trends (2014-2019) and Forecast (2020-2025)

3.3: Global Non-Halogenated Flame Retardant Chemical Market by End Use Industry

3.3.1: Electrical & Electronics

3.3.2: Buildings & Construction

3.3.3: Transportation

3.3.4: Textiles & Furniture

3.3.5: Others

3.4: Global Non-Halogenated Flame Retardant Chemical Market by Type

3.4.1: Inorganic

3.4.1.1: Aluminum Hydroxide

3.4.1.2: Magnesium Hydroxide

3.4.1.3: Boron Compounds

3.4.2: Phosphorus

3.4.3: Nitrogen

3.4.4: Other

4. MARKET TRENDS AND FORECAST ANALYSIS BY REGION FROM 2014 T 2025

4.1: Global Non-Halogenated Flame Retardant Chemical Market by Region

4.2: North American Non-Halogenated Flame Retardant Chemical Market

4.2.1: Market by End Use Industry

4.2.2: Market by Type

4.2.3: The US Non-Halogenated Flame Retardant Chemical Market

4.2.4: The Canadian Non-Halogenated Flame Retardant Chemical Market

4.2.5: The Mexican Non-Halogenated Flame Retardant Chemical Market

- 4.3: European Non-Halogenated Flame Retardant Chemical Market
 - 4.3.1: Market by End Use Industry
 - 4.3.2: Market by Type
 - 4.3.3: German Non-Halogenated Flame Retardant Chemical Market
 - 4.3.4: United Kingdom Non-Halogenated Flame Retardant Chemical Market
 - 4.3.5: French Non-Halogenated Flame Retardant Chemical Market
 - 4.3.6: Italian Non-Halogenated Flame Retardant Chemical Market
- 4.4: APAC Non-Halogenated Flame Retardant Chemical Market
 - 4.4.1: Market by End Use Industry
 - 4.4.2: Market by Type
 - 4.4.3: Chinese Non-Halogenated Flame Retardant Chemical Market
 - 4.4.4: Japanese Non-Halogenated Flame Retardant Chemical Market
 - 4.4.5: Indian Non-Halogenated Flame Retardant Chemical Market
 - 4.4.6: South Korean Non-Halogenated Flame Retardant Chemical Market
- 4.5: ROW Non-Halogenated Flame Retardant Chemical Market
 - 4.5.1: Market by End Use Industry
 - 4.5.2: Market by Type

5. COMPETITOR ANALYSIS

- 5.1: Product Portfolio Analysis
- 5.2: Geographical Reach
- 5.3: Porter's Five Forces Analysis

6. GROWTH OPPORTUNITIES AND STRATEGIC ANALYSIS

- 6.1: Growth Opportunity Analysis
 - 6.1.1: Growth Opportunities for the Global Non-Halogenated Flame Retardant Chemical Market by End Use Industry
 - 6.1.2: Growth Opportunities for the Global Non-Halogenated Flame Retardant Chemical Market by Type
 - 6.1.3: Growth Opportunities for the Global Non-Halogenated Flame Retardant Chemical Market by Region
- 6.2: Emerging Trends in the Global Non-Halogenated Flame Retardant Chemical Market
- 6.3: Strategic Analysis
 - 6.3.1: New Product Development
 - 6.3.2: Capacity Expansion of the Global Non-Halogenated Flame Retardant Chemical Market

6.3.3: Technology Development

6.3.4: Mergers and Acquisitions in the Global Non-Halogenated Flame Retardant Chemical Industry

7. COMPANY PROFILES OF LEADING PLAYERS

7.1: Nabaltec

7.2: Huber Engineered Materials

7.3: BASF

7.4: ICL
