North American Spray Foam Insulation Market Trends and Forecast

The future of the North American spray foam insulation market looks promising with opportunities in the residential, commercial, and industrial sectors. The North American spray foam insulation market is expected to reach an estimated \$2.2 billion by 2030 with a CAGR of 5.4% from 2024 to 2030. The major drivers for this market are increasing building and construction activities, stringent government regulations for energy efficiency, and increasing demand for green building insulation.

Emerging Trends in the North American Spray Foam Insulation Market

Emerging trend, which have a direct impact on the dynamics of the industry; include increasing adoption of fourth generation of blowing agents and growing demand for green buildings that focus on energy conservation and sustainable building practices.

A total of 36 figures / charts and 25 tables are provided in this 90-page report to help in your business decisions. Sample figures with insights are shown below.

North American Spray Foam Insulation Market by Segment

In this market, residential is the largest end use market, whereas closed cell is the largest product type segment.

The study includes trends and forecast for the North American spray foam insulation

market by application, product type, end use, and country as follows:

North American Spray Foam Insulation Market by Application [\$M and M lbs shipment analysis for 2018 – 2030]:

Wall Insulation

Roof Insulation

Concrete Rehabilitation

Others

North American Spray Foam Insulation Market by Product Type [\$M and M lbs shipment analysis for 2018 – 2030]:

Closed Cell

Open Cell

North American Spray Foam Insulation Market by End Use [\$M and M lbs shipment analysis for 2018 – 2030]:

Residential

Commercial

Others

North American Spray Foam Insulation Market by Country [\$M and M lbs shipment analysis for 2018 – 2030]:

United States of America

Canada

Mexico

List of North American Spray Foam Insulation Companies

Companies in the market compete on the basis of product quality offered. Major players in this market focus on expanding their manufacturing facilities, R&D investments, infrastructural development, and leverage integration opportunities across the value chain. With these strategies spray foam insulation companies cater increasing demand, ensure competitive effectiveness, develop innovative products & technologies, reduce production costs, and expand their customer base. Some of the spray foam insulation companies profiled in this report includes.

BASF SE

FFL Partners LLC

Carlisle Companies Inc

Huntsman Corporation

North American Spray Foam Insulation Market Insight

Lucintel forecasts that wall insulation will remain the largest application over the forecast period due to better acoustic and moisture resistant properties of spray foam insulation.

Spray foam for residential construction will remain the largest end use industry during the forecast period due to increasing use of green technologies that are incorporated into residential constructions to reduce energy consumption.

Features of North American Spray Foam Insulation Market

Market Size Estimates: NA spray foam insulation market size estimation in terms of value (\$M) and volume (M lbs)

Trend and Forecast Analysis: Market trends (2018-2023) and forecast (2024-2030) by various segments and regions.

Segmentation Analysis: Market size by product type, application, and end use industry

Regional Analysis: NA spray foam market breakdown by United States of America, Canada, and Mexico.

Growth Opportunities: Analysis of growth opportunities in different end use industries, product types, applications, and countries for the NA spray foam insulation market.

Strategic Analysis: This includes M&A, new product development, and competitive landscape for the NA spray foam insulation market.

Analysis of competitive intensity of the industry based on Porter's Five Forces model.

FAQ

Q1. What is the NA spray foam insulation market size?

Answer: The NA spray foam insulation market is expected to reach an estimated \$2.2 billion by 2030.

Q2. What is the growth forecast for NA spray foam insulation market?

Answer: The NA spray foam insulation market is expected to grow with a CAGR of 5.4% from 2024 to 2030.

Q3. What are the major drivers influencing the growth of the NA spray foam insulation market?

Answer: The major drivers for this market are increasing building and construction activities, stringent government regulations towards energy efficiency, and increasing demand for green building insulation.

Q4. What are the major applications or end use industries for NA spray foam insulation?

Answer: Residential, commercial, and industrial are the major end use industries for spray foam insulation.

Q5. What are the emerging trends in NA spray foam insulation market?

Answer: Emerging trend, which have a direct impact on the dynamics of the industry; include increasing adoption of fourth generation of blowing agents and growing demand for green buildings that focus on energy conservation and sustainable building practices.

Q6. What are the key NA spray foam insulation companies?

Answer: Some of the key spray foam insulation companies are as follows:

BASF SE

FFL Partners LLC

Carlisle Companies Inc

Huntsman Corporation.

Q7. Which NA spray foam insulation application segment will be the largest in future?

Answer: Lucintel forecasts that wall insulation will remain the largest application over the forecast period due to better acoustic and moisture resistant properties of spray foam insulation.

Q8. Do we receive customization in this report?

Answer: Yes, Lucintel provides 10% Customization Without any Additional Cost.

This report answers following 9 key questions

Q.1 What are some of the most promising potential, high-growth opportunities for the

North American spray foam insulation market by application (wall insulation, roof insulation, concrete rehabilitation, and others), product type (closed cell and open cell), end use (residential, commercial, and others), and countries (United States of America, Canada, and Mexico)?

Q.2 Which segments will grow at a faster pace and why?

Q.3 Which countries will grow at a faster pace and why?

Q.4 What are the key factors affecting market dynamics? What are the drivers and challenges of the market?

Q.5 What are the business risks and threats to the market?

Q.6 What are the emerging trends in this market and the reasons behind them?

Q.7 What are some changing demands of customers in the market?

Q.8 What are the new developments in the market? Which companies are leading these developments?

Q.9 Who are the major players in this market? What strategic initiatives are being implemented by key players for business growth?

For any questions related to North American Spray Foam Insulation Market, North American Spray Foam Insulation Market Size, North American Spray Foam Insulation Market Growth, North American Spray Foam Insulation Market Analysis, North American Spray Foam Insulation Market Report, North American Spray Foam Insulation Market Share, North American Spray Foam Insulation Market Trends, North American Spray Foam Insulation Market Forecast, North American Spray Foam Insulation Companies, write Lucintel analyst at email: helpdesk@lucintel.com. We will be glad to get back to you soon.

Contents

1. EXECUTIVE SUMMARY

2. MARKET BACKGROUND AND CLASSIFICATIONS

2.1: Introduction, Background, and Classification

2.2: Supply Chain

2.3: Industry Drivers and Challenges

3. MARKET TRENDS AND FORECAST ANALYSIS FROM 2018 TO 2030

3.1: North American Spray Foam Insulation Market Trends (2018-2023) and Forecast (2024-2030)

3.1.1: Market by Application: Wall Insulation, Roof Insulation, Concrete Rehabilitation, and Others

3.1.2: Market by Product Type: Closed Cell and Open Cell

3.1.3: Market by End Use: Residential, Commercial, and Others

3.2: United States Spray Foam Insulation Market

3.3: Canadian Spray Foam Insulation Market

3.4: Mexican Spray Foam Insulation Market

4. COMPETITOR ANALYSIS

4.1: Product Portfolio Analysis

4.2: Competing Materials

4.3: Porter's Five Forces Analysis

5. GROWTH OPPORTUNITIES AND STRATEGIC ANALYSIS

5.1: Growth Opportunity Analysis

5.1.1: Growth Opportunities Analysis by Application

5.1.2: Growth Opportunities Analysis by Product Type

5.1.3: Growth Opportunities Analysis by End Use

5.2: Emerging Trends in the North American Spray Foam Insulation market

5.3: Strategic Analysis

5.3.1: New Product Development

5.3.2: Capacity Expansion in the North American Spray Foam Insulation market

5.3.3: Merger and Acquisition

6. COMPANY PROFILES OF LEADING PLAYERS

6.1: BASF

6.2: FFL Partners LLC

6.3: Carlisle Companies Inc.

6.4: Huntsman Corporation
