Abstracts

In Progress. Get it in 2 to 4 weeks by ordering today

The future of the occupancy sensor market looks promising with opportunities in the residential and commercial building industries. The global occupancy sensor market is expected to grow with a CAGR of 12% to 14% from 2020 to 2025. The major growth drivers for this are market favorable government policies towards energy saving and increasing demand for energy-efficient devices.

A total of XX figures / charts and XX tables are provided in more than 150 pages will help in your business decisions. Sample figures with some insights are shown below. To learn the scope, benefits, companies researched, and other details of the occupancy sensor market report, please download the report brochure.

Growth in various segments of the occupancy sensor market are given below:

The study includes trends and forecast for the global occupancy sensor market by technology, connectivity, end use industry, and region as follows

By Technology [\$M shipment analysis for 2014 – 2025]:

Passive Infrared

Ultrasonic

Dual

Others

By Connectivity [\$M shipment analysis for 2014 – 2025]:

Wired

Wireless

By End Use Industry [\$M shipment analysis for 2014 – 2025]:

Residential Building

Commercial Building

By Region [\$M shipment analysis for 2014 – 2025]:

North America

United States

Canada

Mexico

Europe

Germany

UK

Italy

Asia Pacific

China

Japan

India

South Korea

Rest of the World

Some of the gyroscope sensor manufacturers profiled in this report include, Schneider Electric, Eaton, Legrand, Johnson Controls, Honeywell, Siemens, and Texas Instruments.

In this market, passive infrared, ultrasonic, dual, and other such technologies are used.

Within the occupancy sensor market, residential buildings is expected to witness the highest growth over the forecast period due to several house owners prefer their residences installed with the latest technologies, which also helps them manage energy usage and minimize the cost.

APAC is expected to witness the highest growth over the forecast period due to growth of the construction industry.

Features of the Global Occupancy Sensor Market

Market size estimates: Global occupancy sensor market size estimation in terms of value (\$M) shipment. Trend and forecast analysis: Market trend (2014-2019) and forecast (2020-2025) by various segments and regions. Segmentation analysis: Market size by various segments such as by technology, connectivity, end use industry, and region. Regional analysis: Global occupancy sensor market breakdown by North America, Europe, Asia Pacific, and the Rest of the World. Growth opportunities: Analysis on growth opportunities in different technology, connectivity, end use industry and regions for global occupancy sensor market. Strategic analysis: This includes M&A, new product development, and competitive landscape of the global occupancy sensor market. Analysis of competitive intensity of the industry based on Porter's Five Forces model.

This report answers following 11 key questions

Q.1 What are some of the most promising potential, high-growth opportunities for the occupancy sensor market by technology (passive infrared, ultrasound, dual, and others), connectivity (wired and wireless), end use industry (residential building and commercial building), and region (North America, Europe, Asia Pacific (APAC), and

Rest of the World (ROW))?

Q. 2 Which segments will grow at a faster pace and why?

Q.3 Which regions will grow at a faster pace and why?

Q.4 What are the key factors affecting market dynamics? What are the drivers and challenges of the market?

Q.5 What are the business risks and threats to the occupancy sensor market?

Q.6 What are the emerging trends in occupancy sensor market and the reasons behind them?

Q.7 What are some changing demands of customers in the occupancy sensor market?

Q.8 What are the new developments in the occupancy sensor market? Which companies are leading these developments?

Q.9 Who are the major players in the occupancy sensor market? What strategic initiatives are being implemented by key players for business growth?

Q.10 What are some of the competitive products and processes in the occupancy sensor market, and how big of a threat do they pose for loss of market share via material or product substitution?

Q.11 What M & A activities did take place in the last five years in the occupancy sensor market?

Contents

Schneider Electric, Eaton, Legrand, Johnson Controls, Honeywell, Siemens, and Texas Instruments.
