## **Abstracts**

North America FRP tank market is expected to grow at a CAGR of 2.8% during 2014-2019. The major drivers of North America FRP tank market are growing capital investment programs and expansion of chemical and oil/gas operations in the region, growing housing start, and rehabilitation of old urban infrastructures. Increasing demand from replacement of existing tanks made of metal or concrete to get rid of corrosion and leakage problems also drive the FRP tank market in the region.

Lucintel, a leading global management consulting and market research firm, has analyzed the North America FRP tank market by segments and has come up with a comprehensive research report "Growth Opportunities for FRP Tank Market in North America: 2014-2019 Market Size, Market Share, and Forecast Analysis" This report provides an analysis of North America FRP tank market including an analysis of market trend, competitive landscape, company profiles, mergers and acquisitions, emerging trend, and key drivers of industry growth. The study also includes trends and forecasts for North America FRP tank market through 2019, segmented by applications such as:

Petroleum

Water/wastewater

Chemical

Septic

Agriculture/Aquaculture

Pulp and Paper

Others

On the basis of its comprehensive research, Lucintel forecasts that North America FRP tank market is expected to depict a slow growth during 2014-2019. Septic application is likely to witness relatively higher growth during the forecast period. Rehabilitation of old urban infrastructures and rebound of housing sector in the region are the driving forces for this segment. ZCL Composites Inc., Containment Solutions (Denali), Palmer of Texas, and L. F. Manufacturing, Red Ewald are the major manufacturers of FRP tanks in different applications in the North America market.

This unique report from Lucintel will provide you with valuable information, insights, and tools needed to identify new growth opportunities and operate your business successfully in this market. This report will save hundreds of hours of your own personal research time and will significantly benefit you in expanding your business in this market. In today's stringent economy, you need every advantage that you can find.

## Contents

### **1. EXECUTIVE SUMMARY**

### **2. INDUSTRY BACKGROUND AND CLASSIFICATION**

#### 2.1: Introduction

##### 2.1.1: Industry classification

##### 2.1.2: Markets served

##### 2.1.3: Supply chain

### **3. MARKET TREND AND FORECAST ANALYSIS**

#### 3.1: Current market analysis 2013

##### 3.1.1: North America FRP tank market by value and volume

##### 3.1.2: Regional market analysis

##### 3.1.3: Composite materials consumption in North America FRP tank industry

##### 3.1.4: FRP tank market by manufacturing process

#### 3.2: Market trend 2008-2013

##### 3.2.1: Macroeconomic trends

##### 3.2.2: North America FRP tank market trend by value and volume

##### 3.2.3: Composite materials consumption trend

##### 3.2.4: Industry drivers and challenges

#### 3.3: Market forecast 2014-2019

##### 3.3.1: Macroeconomic forecasts

##### 3.3.2: North America FRP tank market forecast by value and volume

### **4. COMPETITOR ANALYSIS**

#### 4.1: Product portfolio analysis

#### 4.2: Market share analysis

#### 4.3: Geographical reach

#### 4.4: Operational integration

#### 4.5: Porter's Five Forces Analysis

### **5. GROWTH OPPORTUNITY AND STRATEGIC ANALYSIS**

#### 5.1: Growth opportunities analysis

#### 5.2: Strategic analysis

5.2.1: Mergers and acquisitions in North America FRP tank industry

## **6. EMERGING INNOVATIONS IN NORTH AMERICA FRP TANK INDUSTRY**

6.1: Innovations in North America FRP tank market

6.2: Emerging trends in North America FRP tank market

## **7. COMPANY PROFILES OF LEADING PLAYERS**

## **8. CUSTOMER ANALYSIS**

8.1: Customer in different segments

8.1: Customer's geographic reach

8.2: Major customer profiles

## List Of Figures

### LIST OF FIGURES

#### Chapter 2. Industry Background and Classification

Figure 2.1: FRP tank

Figure 2.2: Evolution in corrosion applications for composite products since 1950

Figure 2.3: Underground fiberglass tank
