Abstracts

The future of the advance composites market looks promising with opportunities in aerospace and defense, wind energy, transportation, marine, construction, consumer goods, and pressure vessels applications. The global advance composites market declined in 2020 due to the global economic recession led by COVID-19. However, the market will witness recovery in the year 2021, and it is expected to reach an estimated \$9.5 billion by 2026 with a CAGR of 5.4% from 2021 to 2026. The major drivers of growth for this market are increasing demand of lightweight materials in the aerospace & defense and automotive industry.

Emerging trend, which has a direct impact on the dynamics of the industry, includes r&d projects across supply chain to bring carbon fiber from high end to high volume applications via low-cost carbon fiber, advancements in the production technologies of carbon composites, and recycling of advanced composites.

A total of 93 figures / charts and 79 tables are provided in this 169-page report to help in your business decisions. A sample figure with insights is shown below. To learn the scope of benefits, companies researched, and other details of the global advance composites market report, please download the report brochure.

The study includes trends and forecast for the global advance composites market by application, by fiber type, by resin type, and region as follows:

By Application [Volume (M lbs) and \$M shipment analysis from 2015 to 2026]:

Aerospace and Defense

Wind Energy

Transportation

Marine

Construction

Consumer Goods

Pressure Vessels

Others

By Fiber Type [Volume (M lbs) and \$M shipment analysis from 2015 to 2026]:

Carbon Composites

S-Glass Composites

Aramid Composites

By Resin Type [Volume (M lbs) and \$M shipment analysis from 2015 to 2026]:

Epoxy Composites

Phenolic Composites

Vinyl Ester Composites

Cynate and BMI Composites

Thermoplastic Composites

By Region [Volume (M lbs) and \$M shipment analysis from 2015 to 2026]:

North America

Europe

Asia Pacific

Rest of the world

In this market, carbon composites, S-glass composites, and aramid composites are the major fiber used to manufacture advanced composites parts for various end use industries. Lucintel forecasts that carbon composites will remain the largest segment due to its beneficial qualities of being lightweight while offering corrosion resistance and high tensile strength. The S-glass composites segment is expected to witness highest growth over the forecast period.

Within the global advance composites market, aerospace and defense is expected to be to remain the largest application over the forecast period by value and volume due to the increase penetration of composites in next generation commercial aircraft, like Boeing's B787 and Airbus 380, regional aircraft such as Bombardier's C Series, and general aviation aircraft such as Cirrus and Diamond. The pressure vessels is expected to witness highest growth over the forecast period.

Europe is expected to remain the largest market by value over the forecast period due to the growth in end-use industries and steady adoption of advanced composites in wind energy for wind blades. Europe is expected to witness the highest growth over the forecast period.

Some of the global advance composites manufacturers profiled in this report include are Toray Industries., Cytac Solvay, Owens Corning, AGY, and DuPont.

Features of the Global Advance Composites Market

Market Size Estimates: Global advance composites market size estimation in terms of value (\$M) and volume (M lbs) shipment

Trend and Forecast Analysis: Global advance composites market trends (2015-2020) and forecast (2021-2026) by various segments and regions.

Segmentation Analysis: Global advance composites market size by various segments, such as by application, by fiber type, by resin type, and regions in terms of value and volume.

Regional Analysis: Global advance composites market breakdown by North America, Europe, Asia Pacific, and Rest of the World.

Growth Opportunities: Analysis on growth opportunities in different by application, by fiber type, by resin type, and regions for the global advance composites market.

Strategic Analysis: This includes M&A, new product development, capacity expansion, merger and acquisition, and competitive landscape for the global advance composites market.

Analysis of competitive intensity of the industry based on Porter's Five Forces model.

This report answers following 11 key questions

Q.1 What are some of the most promising potential, high-growth opportunities for the global advance composites market by application (aerospace and defense, wind energy, automotive, marine, construction, consumer goods, pressure vessels, and others), fiber type (carbon composites, s-glass composites and aramid composites), resin type (epoxy composites, phenolic composites, vinyl ester composites, cyanate and BMI composites, thermoplastic composites), and region (North America, Europe, Asia Pacific, and Rest of the World)?

Q.2 Which segments will grow at a faster pace and why?

Q.3 Which regions will grow at a faster pace and why?

Q.4 What are the key factors affecting market dynamics? What are the drivers and challenges of the global advance composites market?

Q.5 What are the business risks and threats to the global advance composites market?

Q.6 What are emerging trends in this global advance composites market and the reasons behind them?

Q.7 What are some changing demands of customers in the global advance composites market?

Q.8 What are the new developments in the global advance composites market? Which companies are leading these developments?

Q.9 Who are the major players in the global advance composites market? What strategic initiatives are being implemented by key players for business growth?

Q.10 What are some of the competitive products and processes in the global advance composites market, and how big of a threat do they pose for loss of market share via material or product substitution?

Q.11 What M&A activities did take place in the last five years in the global advance composites market?

Contents

1. EXECUTIVE SUMMARY

2. MARKET BACKGROUND AND CLASSIFICATIONS

2.1: Introduction, Background, and Classifications

2.2: Supply Chain

2.3: Industry Drivers and Challenges

3. MARKET TRENDS AND FORECAST ANALYSIS FROM 2015 TO 2026

3.1: Macroeconomic Trends and Forecast

3.1.1: Macroeconomic Trends

3.1.2: Macroeconomic Forecast

3.2: Global Advanced Composites Market Trends and Forecast

3.3: Global Advanced Composites Market by Application

3.3.1: Aerospace and Defense

3.3.2: Wind Energy

3.3.3: Transportation

3.3.5: Marine

3.3.8: Construction

3.3.4: Consumer Goods

3.3.7: Pressure Vessels

3.3.9: Others

3.4: Global Advanced Composites Market by Fiber Type

3.4.1: Carbon Composites

3.4.2: S-glass Composites

3.3.3: Aramid Composites

3.5: Global Advanced Composites Market by Resin Type

3.5.1: Epoxy Composites

3.5.2: Phenolic Composites

3.5.3: Vinlyester Composites

3.5.4: Cyanate and BMI Composites

3.5.5: Thermoplastic Composites

3.6: Global Advanced Composites Market by End Product

4. MARKET TRENDS AND FORECAST ANALYSIS BY REGION

4.1: Global Advanced Composites Market by Region

4.2: North American Advanced Composites Market

4.2.1: Market by Application: Aerospace and Defense, Wind Energy, Automotive, Marine, Construction, Electrical and Electronics, Consumer Goods, Pressure Vessels, and Others

4.3: European Advanced Composites Market

4.3.1: Market by Application: Aerospace and Defense, Wind Energy, Automotive, Marine, Construction, Electrical and Electronics, Consumer Goods, Pressure Vessels, and Others

4.4: APAC Advanced Composites Market

4.4.1: Market by Application: Aerospace and Defense, Wind Energy, Automotive, Marine, Construction, Electrical and Electronics, Consumer Goods, Pressure Vessels, and Others

4.5: ROW Advanced Composites Market

4.5.1: Market by Application: Aerospace and Defense, Wind Energy, Automotive, Marine, Construction, Electrical and Electronics, Consumer Goods, Pressure Vessels, and Others

5. COMPETITOR ANALYSIS

5.1: Product Portfolio Analysis

5.2: Operational Integration

5.3: Geographical Reach

5.4: Porter's Five Forces Analysis

6. GROWTH OPPORTUNITIES AND STRATEGIC ANALYSIS

6.1: Growth Opportunity Analysis

6.1.1: Growth Opportunities for the Global Advanced Composites Market by Application

6.1.2: Growth Opportunities for the Global Advanced Composites Market by Fiber Type

6.1.3: Growth Opportunities for the Global Advanced Composites Market by Resin Type

6.1.4: Growth Opportunities for the Global Advanced Composites Market by Region

6.2: Emerging Trends in the Global Advanced Composites Market

6.3: Strategic Analysis

6.3.1: New Product Development

6.3.2: Capacity Expansion of the Global Advanced Composites Market

6.3.3: Mergers, Acquisitions, and Joint Ventures in the Global Advanced Composites Market

7. COMPANY PROFILES OF LEADING PLAYERS

7.1: Toray Industries Inc.

7.2: Cyttec Solvay Group

7.3: Owens Corning

7.4: AGY Holdings

7.5: E.I Du Pont de Nemours

7.6: Teijin Aramid
