Abstracts

The future of the global mold release agent market looks promising with opportunities in die casting, rubber, tire, concrete, plastic, and food processing applications. The global mold release agent market is expected to decline in 2020 due to global economic recession led by COVID-19. However, the market will witness recovery in the year 2021, and it is expected to reach an estimated \$1.4 billion by 2026 with a CAGR of 4.1% from 2021 to 2026. The major drivers of growth for this market are increasing production of tires, rubber, and growth of the die casting market which demands for mold release agent.

Emerging trends, which have a direct impact on the dynamics of the industry, include the rising shift to water-based release agents and increasing value of gluten-free baked products. Chem-Trend, Wacker Chemie, Daikin industries, Dow Corning, and Momentive Performance Materials are among the major suppliers of the mold release agent market.

A total of 143 figures / charts and 117 tables are provided in this 212-page report to help in your business decisions. A sample figure with insights is shown below. To learn the scope of benefits, companies researched, and other details of the global mold release agent market report, please download the report brochure.

The study includes trends and forecast for the global mold release agent market by material type, product type, application, and region as follows:

By Material Type (Volume (Million Pounds) and \$M shipment analysis for 2015 – 2026):

Water Based

Solvent Based

Others

By Product Type (Volume (Million Pounds) and \$M shipment analysis for 2015 – 2026):

External

Internal

Semi-permanent

By Application (Volume (Million Pounds) and \$M shipment analysis for 2015 – 2026):

Die Casting

Rubber

Tire

Concrete

Plastic

Food Processing

Others

By Region (Volume (Million Pounds) and \$M shipment analysis for 2015 – 2026):

North America

Europe

Asia Pacific

Rest of the World

In this market, water based mold release agent, solvent based mold release agent, and other mold release agent are used to manufacture composites parts for various end use industry. Lucintel forecasts that solvent based mold release agent will remain the largest segment due to its excellent properties. The water based mold release agent is expected to witness highest growth over the forecast period.

Within the global mold release agent market, others segment will remain the largest application over the forecast period and rubber is also expected to witness highest growth over the forecast period by value and volume due to its increasing use in various applications like transportation, medical equipment, and sporting goods.

Asia Pacific (APAC) is expected to remain the largest region by value and volume due to growth in end use industries. Growing industries in emerging economies like China, India, and South Asia countries are the major factor for driving the mold release market; Europe is also expected to experience the highest growth over the forecast period.

Some of the global mold release agent manufacturers profiled in this report include Chem- Trend, Wacker Chemie, Daikin industries, Dow Corning, and Momentive Performance Materials and others are among the major mold release agent manufacturers.

Features of the Global Mold Release Agent Market

Market Size Estimates: Mold release agent market size estimation in terms of value (\$M) shipment and volume (M lbs)

Trend and Forecast Analysis: Market trends (2015-2020) and forecast (2021-2026) by various segments and regions.

Segmentation Analysis: Mold release agent market size by various segments, such as material type, and product type, application, and region in terms of value and volume shipment.

Regional Analysis: Mold release agent market breakdown by North America, Europe, Asia Pacific, and Rest of the World.

Growth Opportunities: Analysis on growth opportunities in different as material type, and product type, application, and regions for the global mold release agent market.

Strategic Analysis: This includes M&A, new product development, and competitive landscape for the global mold release agent market.

Analysis of competitive intensity of the industry based on Porter's Five Forces model.

This report answers following 11 key questions

Q.1 What are some of the most promising potential, high-growth opportunities for the global mold release agent market as material type, product type, application, and region (North America, Europe, Asia Pacific, and Rest of the World)?

Q.2 Which segments will grow at a faster pace and why?

Q.3 Which regions will grow at a faster pace and why?

Q.4 What are the key factors affecting market dynamics? What are the drivers and challenges of the global mold release agent market?

Q.5 What are the business risks and threats to the global mold release agent market?

Q.6 What are emerging trends in this global mold release agent market and the reasons behind them?

Q.7 What are some changing demands of customers in the global mold release agent market?

Q.8 What are the new developments in the global mold release agent market? Which companies are leading these developments?

Q.9 Who are the major players in the global mold release agent market? What strategic initiatives are being implemented by key players for business growth?

Q.10 What are some of the competitive products and processes in the global mold release agent market, and how big of a threat do they pose for loss of market share via material or product substitution?

Q.11 What M&A activities did take place in the last five years in the global mold release agent market?

Contents

1. EXECUTIVE SUMMARY

2. MARKET BACKGROUND AND CLASSIFICATIONS

2.1: Introduction, Background, and Classifications

2.2: Supply Chain

2.3: Industry Drivers and Challenges

3. MARKET TRENDS AND FORECAST ANALYSIS FROM 2015 TO 2026

3.1: Macroeconomic Trends and Forecast

3.2: Global Mold Release Agent Market Trends and Forecast

3.3: Global Mold Release Agent Market by Material Type

3.3.1: Water Based Mold Release Agents

3.3.2: Solvent Based Mold Release Agents

3.3.3: Other Mold Release Agents

3.4: Global Mold Release Agent Market by Product Type

3.4.1: External Mold Release Agents

3.4.2: Internal Mold Release Agent

3.4.3: Semi-permanent Mold Release Agents

3.5: Global Mold Release Agent Market by Application

3.5.1: Die Casting

3.5.2: Rubber

3.5.3: Tire

3.5.4: Concrete

3.5.5: Plastic

3.5.6: Food Processing

3.5.7: Others

4. MARKET TRENDS AND FORECAST ANALYSIS BY REGION

4.1: Global Mold Release Agent Market by Region

4.2: North American Mold Release Agent Market

4.2.1: Market by Product: External, Internal and Semi-permanent

4.2.2: Market by Application: Die Casting, Rubber, Tire, Concrete, Plastic, Food Processing and Others

4.3: European Mold Release Agent Market

- 4.3.1: Market by Product: External, Internal and Semi-permanent
- 4.3.2: Market by Application: Die Casting, Rubber, Tire, Concrete, Plastic, Food Processing and Others
- 4.4: APAC Mold Release Agent Market
 - 4.4.1: Market by Product: External, Internal and Semi-permanent
 - 4.4.2: Market by Application: Die Casting, Rubber, Tire, Concrete, Plastic, Food Processing and Others
- 4.5: ROW Mold Release Agent Market
 - 4.5.1: Market by Product: External, Internal and Semi-permanent
 - 4.5.2: Market by Application: Die Casting, Rubber, Tire, Concrete, Plastic, Food Processing and Others

5. COMPETITOR ANALYSIS

- 5.1: Product Portfolio Analysis
- 5.2: Market Share Analysis
- 5.3: Operational Integration
- 5.4: Geographical Reach
- 5.5: Porter's Five Forces Analysis

6. GROWTH OPPORTUNITIES AND STRATEGIC ANALYSIS

- 6.1: Growth Opportunity Analysis
 - 6.1.1: Growth Opportunities for the Global Mold Release Agent Market by Product
 - 6.1.2: Growth Opportunities for the Global Mold Release Agent Market by Application
 - 6.1.3: Growth Opportunities for the Global Mold Release Agent Market by Region
- 6.2: Emerging Trends in the Global Mold Release Agent Market
- 6.3: Strategic Analysis
 - 6.3.1: New Product Development
 - 6.3.2: Capacity Expansion of the Global Mold Release Agent Market
 - 6.3.3: Mergers, Acquisitions and Joint Ventures in the Global Mold Release Agent Market
 - 6.3.4: Certification and Licensing
 - 6.3.5: Technology Development

7. COMPANY PROFILES OF LEADING PLAYERS

- 7.1: Wacker
- 7.2: Daikin

- 7.3: Dow Corning
- 7.4: Momenive Performance Materials Inc
- 7.5: Chem Trend
- 7.6: Henkel AG & Co. KGaA.
- 7.7: CRODA
- 7.8: Chukyo- Yushi Corporation
- 7.9: McLube Div McGee Industries, Inc.
- 7.10: Michelman Inc
