### Chinese Pultrusion Market Trends and Forecast

The future of the Chinese pultrusion market looks promising with opportunities in electrical & electronics, construction, consumer goods, transportation, and wind energy end uses. The Chinese pultrusion market is expected to grow with a CAGR of 5.3% from 2021 to 2027. The major driver for market growth is its increased demand from end use industry, such as industrial processing, electrical and electronics and automotive segments.

### Emerging Trends in the Chinese Pultrusion Market

Emerging trends, which have a direct impact on the dynamics of the Chinese Pultrusion industry, includes Close collaboration between industry players to serve their unique needs and find new application areas, and Development of green technology products.

A total of 79 figures / charts and 58 tables are provided in this 159-page report to help in your business decisions. A sample figure with insights is shown below. To learn the scope of benefits, companies researched, and other details of the Chinese pultrusion market report, please download the report brochure.

### Chinese Pultrusion Market by Segment

The study includes a forecast for the Chinese pultrusion market by application and end

use as follows:

Chinese Pultrusion Market by Application [Value (\$M) and Volume (KT) shipment analysis for 2016 – 2027]:

Window Profiles

Rebar

Ladder Rails

Cable Trays

Electric Insulators

Decking

Grating

Road Makers

Sporting Goods

Tool Handles

Utility Pole

Structural Shapes

Transportation

Wind Energy

Others

Chinese Pultrusion Market by End Use [Value (\$M) and Volume (KT) shipment analysis for 2016 – 2027]:

Electrical and Electronics

Construction

Consumer Goods

Transportation

Wind Energy

Others

## List of Chinese Pultrusion Companies

Companies in the market compete on the basis of product quality offered. Major players in this market focus on expanding their manufacturing facilities, R&D investments, infrastructural development, and leverage integration opportunities across the value chain. With these strategies Chinese pultrusion companies cater increasing demand, ensure competitive effectiveness, develop innovative products & technologies, reduce production costs, and expand their customer base. Some of the Chinese pultrusion companies profiled in this report includes.

Excel Composites (Nanjing Jianhui Composite Material)

Changzhou Lianke Advanced Composites Co., Ltd

Jiangsu Jiuding New Material

JAMCO Corporation

Nanjing Spare Composites

ChineseGrate Composite Structures (Nantong) Ltd.

Xinbo Corporation

Chinese Pultrusion Market Insight

Lucintel forecasts that construction will remain the largest end use industry by value and volume due to the increasing construction spending in Chinese, in light of the supportive regulations to promote infrastructural development. Wind energy is expected to witness highest growth over the forecast period.

Structural shapes will remain the largest segment by value and volume due to the increasing use of pultruded products for its physical and mechanical properties such as high strength, chemical resistance, and low thermal expansion. Utility poles is expected to witness the highest growth over the forecasted period over the forecast period due to its growing demand in wind and marine industries.

## Features of Chinese Pultrusion Market

**Market Size Estimates:** Chinese pultrusion market size estimation in terms of value (\$M) and volume (KT).

**Trend and Forecast Analysis:** Market trends (2016-2021) and forecast (2022-2027) by various segments.

**Segmentation Analysis:** Market size by application and end use.

**Growth Opportunities:** Analysis of growth opportunities in different application and end use for the Chinese pultrusion market.

**Strategic Analysis:** This includes M&A, new product development, and competitive landscape for the Chinese pultrusion market.

**Analysis of competitive intensity of the industry based on Porter's Five Forces model.**

## FAQ

**Q1. What is the Chinese pultrusion market size?**

**Answer:** The Chinese pultrusion market is expected to reach an estimated \$841.0 million by 2027.

Q2. What is the growth forecast for Chinese pultrusion market?

Answer: The Chinese pultrusion market is expected to grow at a CAGR of 5.3% from 2021 to 2027.

Q3. What are the major drivers influencing the growth of the Chinese pultrusion market?

Answer: The major driver for market growth is its increased demand from end use industry, such as industrial processing, electrical and electronics and automotive segments.

Q4. What are the major applications or end use industries for Chinese pultrusion?

Answer: Construction and consumer goods are the major end uses for Chinese pultrusion.

Q5. What are the emerging trends in Chinese pultrusion market?

Answer: Emerging trends, which have a direct impact on the dynamics of the Chinese Pultrusion industry, include Close collaboration between industry players to serve their unique needs and find new application areas, and development of green technology products.

Q6. Who are the key Chinese pultrusion companies?

Answer: Some of the key Chinese pultrusion companies are as follows:

Excel Composites (Nanjing Jianhui Composite Material)

Changzhou Lianke Advanced Composites Co., Ltd.

Jiangsu Jiuding New Material

JAMCO CORPORATION

Nanjing Spare Composites

ChineseGrate Composite Structures (Nantong) Ltd.

## Xinbo Corporation

Q7. Which Chinese pultrusion end use segment will be the largest in future?

Answer: Lucintel forecasts that construction will remain the largest end use industry by value and volume due to the increasing construction spending in Chinese, in light of the supportive regulations to promote infrastructural development. Wind energy is expected to witness highest growth over the forecast period.

Q9. Do we receive customization in this report?

Answer: Yes, Lucintel provides 10% Customization Without any Additional Cost.

This report answers following 10 key questions

Q.1 What are some of the most promising potential, high growth opportunities for the Chinese pultrusion market by application (window profile, rebar, ladder rails, cable trays, electrical insulators, decking, grating, road maker, sporting goods, tool handles, utility poles, structural shapes, transportation, wind energy, and others), and end use industry (electrical and electronics, construction, consumer goods, transportation, wind energy, and others)?

Q. 2 Which segments will grow at a faster pace and why?

Q.3 What are the key factors affecting market dynamics? What are the drivers and challenges of the market?

Q.4 What are the business risks and threats to the market?

Q.5 What are the emerging trends in this market and the reasons behind them?

Q.6 What are the changing demands of customers in the market?

Q.7 What are the new developments in the market? Which companies are leading these developments?

Q.8 Who are the major players in this market? What strategic initiatives are being

implemented by key players for business growth?

Q.9 What are some of the competitive products and processes in this area and how big of a threat do they pose for loss of market share via material or product substitution?

Q.10 What M & A activities have taken place in the last 5 years in this market?

For any questions related to Chinese pultrusion market or related to Chinese pultrusion market share, Chinese pultrusion market analysis, Chinese pultrusion market size, Chinese pultrusion manufacturers, and Chinese pultrusion cost, write to Lucintel analysts at [helpdesk@lucintel.com](mailto:helpdesk@lucintel.com). We will be glad to get back to you soon.
