

# Optoelectronics Component Market Report: Trends, Forecast and Competitive Analysis

<https://marketpublishers.com/r/O4F4FB9BB6AEEN.html>

Date: May 2024

Pages: 150

Price: US\$ 4,850.00 (Single User License)

ID: O4F4FB9BB6AEEN

## Abstracts

Get it in 2 to 4 weeks by ordering today

The future of the optoelectronics component market looks promising with opportunities in the automotive, consumer electronics, telecommunication, military & aerospace, medical, residential, commercial, and manufacturing industries. The global optoelectronics component market is expected to grow with a CAGR of 8% to 10% from 2021 to 2026. The major drivers for this market are increased use of infrared components in consumer electronics & automobiles, the long life & low power consumption, demand for improved imaging & optical sensing solutions in the healthcare industry, and the suitable physical properties of optoelectronic sensors to operate in harsh environments.

A more than 150 page report is developed to help in your business decisions. Sample figures with some insights are shown below. To learn the scope of, benefits, companies researched and other details of optoelectronics component market report download the report brochure.

The study includes trends and forecasts for the global optoelectronics component market by component type, application, material, end use industry, and region as follows:

By Component Type [\$M shipment analysis for 2015 – 2026]:

Sensors

LED

Laser Diode

Infrared Components

By Application [\$M shipment analysis for 2015 – 2026]:

Measurement

Lighting

Communications

Security & Surveillance

Others

By Material [\$M shipment analysis for 2015 – 2026]:

Gallium Nitride

Gallium Arsenide

Silicon Carbide

Indium Phosphide

Silicon Germanium

Gallium Phosphide

By End Use Industry [\$M shipment analysis for 2015 – 2026]:

Automotive

Consumer Electronics

Telecommunication

Military & Aerospace

Medical

Residential

Commercial

Manufacturing

Others

By Region [\$M shipment analysis for 2015 – 2026]:

North America

United States

Canada

Mexico

Europe

Germany

United Kingdom

France

Italy

Asia Pacific

China

Japan

India

South Korea

The Rest of the World

Sensors will remain the largest component segment due to the usage of several types of sensors, including optical, image, phototransistors, photodiode, and photo relay for varied applications across several industries.

Consumer electronics will remain the largest end use industry during the forecast period due to technical advancements and the increasing use of consumer goods, such as high-end sophisticated cameras, photocopy machines, smartphones, blue-ray storage devices, and flat & flexible television displays.

Asia Pacific will remain the largest region over the forecast period due to growing automobile, medical, and industrial manufacturing companies in this region.

Some of the optoelectronics component companies profiled in this report includes Hamamatsu, Osram, TT Electronics, Vishay, ON Semiconductor, Cree, Trumpf, SICK AG, Samsung, Sony, and Broadcom.

#### Features of Optoelectronics Component Market

**Market Size Estimates:** Optoelectronics component market size estimation in terms of value (\$M)

**Trend and Forecast Analysis:** Market trends (2015-2020) and forecast (2021-2026) by various segments and regions.

**Segmentation Analysis:** Market size by component, application, material, and end use industry

**Regional Analysis:** Optoelectronics component market breakdown by North America, Europe, Asia Pacific, and the Rest of the World.

**Growth Opportunities:** Analysis on growth opportunities in different end use industries, component, application, material, and regions for optoelectronics component market.

**Strategic Analysis:** This includes M&A, new product development, and competitive landscape for the optoelectronics component market.

**Analysis of competitive intensity of the industry based on Porter's Five Forces model.**

This report answers following 11 key questions

Q.1 What are some of the most promising potential, high-growth opportunities for the global optoelectronics component market by component type (sensors, LED, laser diode, and infrared components), application (measurement, lighting, communications, security & surveillance, and others), material (gallium nitride, gallium arsenide, silicon carbide, indium phosphide, silicon germanium, gallium phosphide), end use industry (automotive, consumer electronics, telecommunication, military & aerospace, medical, residential, commercial, manufacturing, and others), and region (North America, Europe, Asia Pacific, and the Rest of the World)?

Q.2 Which segments will grow at a faster pace and why?

Q.3 Which regions will grow at a faster pace and why?

Q.4 What are the key factors affecting market dynamics? What are the drivers and challenges of the optoelectronics component market?

Q.5 What are the business risks and threats to the optoelectronics component market?

Q.6 What are the emerging trends in the optoelectronics component market and the reasons behind them?

Q.7 What are some changing demands of customers in the optoelectronics component market?

Q.8 What are the new developments in the optoelectronics component market? Which companies are leading these developments?

Q.9 Who are the major players in the optoelectronics component market? What strategic initiatives are being implemented by key players for business growth?

Q.10 What are some of the competitive products and processes in the optoelectronics component market, and how big of a threat do they pose for loss of market share via material or product substitution?

Q.11 What M&A activities did take place in the last five years in the optoelectronics

component market?

## Contents

- Executive Summary
- Market Background and Classifications
  - Introduction, Background, and Classifications
  - Supply Chain
  - Industry Drivers and Challenges
- Market Trends and Forecast Analysis from 2015 t 2026
  - Macroeconomic Trends (2015-2020) and Forecast (2021-2026)
  - Global Optoelectronics Component Market Trends (2015-2020) and Forecast (2021-2026)
  - Global Optoelectronics Component Market by Component
    - Sensor
    - LED
    - Laser Diode
    - Infrared Components
  - Global Optoelectronics Component Market by Application
    - Measurement
    - Lighting
    - Communications
    - Security & Surveillance
    - Others
  - Global Optoelectronics Component Market by Material
    - Gallium Nitride
    - Gallium Arsenide
    - Silicon Carbide
    - Indium Phosphide
    - Silicon Germanium
    - Gallium Phosphide
  - Global Optoelectronics Component Market by End Use Industry
    - Automotive
    - Consumer Electronics
    - Telecommunication
    - Military & Aerospace
    - Medical
    - Residential
    - Commercial
    - Manufacturing
    - Others

## Market Trends and Forecast Analysis by Region from 2015 t 2026

Global Optoelectronics Component Market by Region

North American Optoelectronics Component Market

Market by Component

Market by Application

Market by Material

Market by End Use Industry

The US Optoelectronics Component Market

The Canadian Optoelectronics Component Market

The Mexican Optoelectronics Component Market

European Optoelectronics Component Market

Market by Component

Market by Application

Market by Material

Market by End Use Industry

German Optoelectronics Component Market

United Kingdom Optoelectronics Component Market

French Optoelectronics Component Market

Italian Optoelectronics Component Market

APAC Optoelectronics Component Market

Market by Component

Market by Application

Market by Material

Market by End Use Industry

Chinese Optoelectronics Component Market

Japanese Optoelectronics Component Market

Indian Optoelectronics Component Market

South Korean Optoelectronics Component Market

ROW Optoelectronics Component Market

Market by Component

Market by Application

Market by Material

Market by End Use Industry

## Competitor Analysis

Product Portfoli Analysis

Geographical Reach

Porter's Five Forces Analysis

## Growth Opportunities and Strategic Analysis

Growth Opportunity Analysis

Growth Opportunities for the Global Optoelectronics Component Market by  
Component  
Growth Opportunities for the Global Optoelectronics Component Market by Application  
Growth Opportunities for the Global Optoelectronics Component Market by Material  
Growth Opportunities for the Global Optoelectronics Component Market by Region  
Emerging Trends in the Global Optoelectronics Component Market  
Strategic Analysis  
New Product Development  
Capacity Expansion of the Global Optoelectronics Component Market  
Technology Development  
Mergers and Acquisitions in the Global Optoelectronics Component Industry  
Company Profiles of Leading Players  
Hamamatsu  
Osram  
TT Electronics  
Vishay  
ON Semiconductor  
Cree  
Trumpf  
SICK AG  
Samsung

## I would like to order

Product name: Optoelectronics Component Market Report: Trends, Forecast and Competitive Analysis

Product link: <https://marketpublishers.com/r/O4F4FB9BB6AEEN.html>

Price: US\$ 4,850.00 (Single User License / Electronic Delivery)

If you want to order Corporate License or Hard Copy, please, contact our Customer Service:

[info@marketpublishers.com](mailto:info@marketpublishers.com)

## Payment

To pay by Credit Card (Visa, MasterCard, American Express, PayPal), please, click button on product page <https://marketpublishers.com/r/O4F4FB9BB6AEEN.html>

To pay by Wire Transfer, please, fill in your contact details in the form below:

First name:  
Last name:  
Email:  
Company:  
Address:  
City:  
Zip code:  
Country:  
Tel:  
Fax:
