### Pack Conveyor Trends and Forecast

The future of the global pack conveyor market looks promising with opportunities in the food and beverages, healthcare, automotive, and aerospace markets. The global pack conveyor market is expected to grow with a CAGR of 4.7% from 2024 to 2030. The major drivers for this market are increasing rates of urbanization and consumer disposable income, expanding research endeavors in order to foster technological progress, and rising automation sector.

A more than 150-page report is developed to help in your business decisions. Sample figures with some insights are shown below.

### Pack Conveyor by Segment

The study includes a forecast for the global pack conveyor by material type, chain type, end use industry, and region.

Pack Conveyor Market by Material Type [Shipment Analysis by Value from 2018 to 2030]:

Slat Conveyors

Belt Conveyors

Roller Conveyors

Accumulation Conveyors

LBP Conveyors

Pack Conveyor Market by Chain Type [Shipment Analysis by Value from 2018 to 2030]:

Thermoplastic Resin

Rubber

Roller

Modular

Pack Conveyor Market by End Use Industry [Shipment Analysis by Value from 2018 to 2030]:

Food and Beverages

Healthcare

Automotive

Aerospace

Others

Pack Conveyor Market by Region [Shipment Analysis by Value from 2018 to 2030]:

North America

Europe

Asia Pacific

## The Rest of the World

### List of Pack Conveyor Companies

Companies in the market compete on the basis of product quality offered. Major players in this market focus on expanding their manufacturing facilities, R&D investments, infrastructural development, and leverage integration opportunities across the value chain. With these strategies pack conveyor companies cater increasing demand, ensure competitive effectiveness, develop innovative products & technologies, reduce production costs, and expand their customer base. Some of the pack conveyor companies profiled in this report include-

ContiTech AG

Vetromeccanica

Microline

Siemens

Emerson Electric

Vanderlande Industries

Daifuku

Swisslog Holding

Taikisha

Dematic

### Pack Conveyor Market Insights

Lucintel forecasts that belt conveyors will remain the largest segment over the forecast period because it is widely utilized in airports because of qualities like low maintenance

requirements and ease of installation.

Within this market, food and beverages will remain the largest segment due to growing global population, rising food consumption, and rising disposable incomes of consumers.

North America will remain the largest region over the forecast period due to presence of major key players in this region, along with increasing demand and use of consumer goods.

Q3. What are the major segments for pack conveyor market?

Answer: The future of the global pack conveyor market looks promising with opportunities in the food and beverages, healthcare, automotive, and aerospace markets.

Q4. Who are the key pack conveyor market companies?

Answer: Some of the key pack conveyor companies are as follows:

ContiTech AG

Vetromeccanica

Microline

Siemens

Emerson Electric

Vanderlande Industries

Daifuku

Swisslog Holding

Taikisha

Dematic

Q5. Which pack conveyor market segment will be the largest in future?

Answer: Lucintel forecasts that belt conveyors will remain the largest segment over the

forecast period because it is widely utilized in airports because of qualities like low maintenance requirements and ease of installation.

Q6. In pack conveyor market, which region is expected to be the largest in next 5 years?

Answer: North America will remain the largest region over the forecast period due to presence of major key players in this region, along with increasing demand and use of consumer goods.

Q.7. Do we receive customization in this report?

Answer: Yes, Lucintel provides 10% customization without any additional cost.

This report answers following 11 key questions:

Q.1. What are some of the most promising, high-growth opportunities for the pack conveyor market by material type (slat conveyors, belt conveyors, roller conveyors, accumulation conveyors, and LBP conveyors), chain type (thermoplastic resin, rubber, roller, and modular), end use industry (food and beverages, healthcare, automotive, aerospace, and others), and region (North America, Europe, Asia Pacific, and the Rest of the World)?

Q.2. Which segments will grow at a faster pace and why?

Q.3. Which region will grow at a faster pace and why?

Q.4. What are the key factors affecting market dynamics? What are the key challenges and business risks in this market?
