Pleated Filter Trends and Forecast

The future of the global pleated filter market looks promising with opportunities in the industrial, paint & coating, chemical & petrochemical, electronic, oil & gas, power generation, and food & beverage applications. The global pleated filter market is expected to reach an estimated \$15.6 billion by 2030 with a CAGR of 3.7% from 2024 to 2030. The major drivers for this market are increasing industrial air quality regulations, growing demand for high-efficiency filtration in HVAC systems, and expanding applications of these filters in pharmaceutical and food industries.

A more than 150-page report is developed to help in your business decisions. Sample figures with some insights are shown below.

Pleated Filter by Segment

The study includes a forecast for the global pleated filter by product type, application, and region.

Pleated Filter Market by Product Type [Shipment Analysis by Value from 2018 to 2030]:

Air Filters

Food & Beverage Filters

Oil Filters

Others

Pleated Filter Market by Application [Shipment Analysis by Value from 2018 to 2030]:

Industrial

Paints & Coatings

Chemicals & Petrochemicals

Electronics

Oil & Gas

Power Generation

Food & Beverage

Others

Pleated Filter Market by Region [Shipment Analysis by Value from 2018 to 2030]:

North America

Europe

Asia Pacific

The Rest of the World

List of Pleated Filter Companies

Companies in the market compete on the basis of product quality offered. Major players in this market focus on expanding their manufacturing facilities, R&D investments,

infrastructural development, and leverage integration opportunities across the value chain. With these strategies pleated filter companies cater increasing demand, ensure competitive effectiveness, develop innovative products & technologies, reduce production costs, and expand their customer base. Some of the pleated filter companies profiled in this report include-

Columbus Industries

3M

AG Industries

Camfil

Freudenberg Filtration Technologies

SUEZ

Donaldson

Honeywell

Siemens

Parker Hannifin

Pleated Filter Market Insights

Lucintel forecasts that air filter will remain the largest segment over the forecast period due to its increasing utilization in HVAC systems, air purifiers, and air cleaners for home, business, and industrial applications.

Within this market, industrial will remain the largest segment over the forecast period.

Europe is expected to witness highest growth over the forecast period due to significant demand for pleated filter from various industries, such as cement, food & beverage, metal processing, and pharmaceutical in the region.
