According to a new market report published by Lucintel, the future of the polyimide film market looks attractive with opportunities in the electronics, automotive, aerospace, labeling, medical, and mining and drilling industries. The global polyimide film market is expected to reach an estimated \$4.4 billion by 2030 with a CAGR of 8.0% from 2024 to 2030. The major drivers for this market are increasing demand from end use industries such as electronics, automotive, and aerospace, and increasing penetration of polyimide film due to its excellent chemical, thermal, and physical properties over wide temperature range as compared to substitute films.

Emerging trends, which have a direct impact on the dynamics of the industry, include introduction of colorless polyimide film and development of polyimide film for 5g communication, AI, and others. PI Advanced Materials, DuPont, Kaneka Corporation, Toray Industries, and Ube Industries are among the major suppliers of polyimide film.

A total of 105 figures / charts and 88 tables are provided in this 180-page report to help in your business decisions. Sample figures with insights are shown below.

In this market, electronics is the largest end use market, whereas flexible printed circuit is largest in application type. Growth in various segment of the polyimide film market are given below:

The study includes trends and forecasts for the global polyimide film market by application, end use industry, and region as follows:

By Application [Volume (Kilotons) and \$M shipment analysis from 2018 to 2030]:

Flexible Printed Circuits

Specialty Fabricated Products

Pressure Sensitive Tape

Wire And Cable

Motor/Generator

By End Use Industry [Volume (Kilotons) and \$M shipment analysis from 2018 to 2030]:

Electronics

Automotive

Aerospace

Labeling

Other End Use Industries

By Region [Volume (Kilotons) and \$M shipment analysis from 2018 to 2030]:

North America

US

Canada

Mexico

Europe

Germany

United Kingdom

France

Asia Pacific

China

Japan

India

The Rest of the World

Middle East and Africa

South America

Lucintel forecasts that the flexible printed circuits is expected to remain the largest application; it is also expected to witness the highest growth in the forecast period due to high demand for rigid-flex PCBs from telecommunication industry, growth in connected device, and advancement in automotive electronics.

Lucintel predicts that the demand for polyimide films in electronics is expected to remain the largest end use industry; it is also expected to witness the highest growth during the forecast period, supported by the growth in demand for consumer electronics devices, smart wearable, and growth in IoT and communication technology. The ability to provide lightweight package in electric insulation applications is also a contributing factor in the growth of polyimide film in electronics industry.

Asia Pacific is expected to remain the largest market by value and volume and is also expected to witness the highest growth over the forecast period because of growth in the demand for flexible and superior quality films in various applications of electronics, automotive, and aerospace sectors considering economic expansions in India and China.

Features of the polyimide Film Market

Market Size Estimates: Polyimide film market size estimation in terms of value (\$M) and volume (kilotons)

Trend And Forecast Analysis: Market trends (2018-2023) and forecast (2024-2030) by various segments and regions.

Segmentation Analysis: Polyimide film market size by various segments, such as application and end use industry in terms of value and volume.

Regional Analysis: Polyimide film market breakdown by North America, Europe, Asia Pacific, and the Rest of the World.

Growth Opportunities: Analysis on growth opportunities in different applications, end use industry, and regions for the polyimide film market.

Strategic Analysis: This includes M&A, new product development, and competitive landscape for the polyimide film market.

Analysis of competitive intensity of the industry based on Porter's Five Forces model.

This report answers following 11 key questions

Q.1 What are some of the most promising potential, high-growth opportunities for the global polyimide film market by application (flexible printed circuits, specialty fabricated products, pressure sensitive tape, wire and cable, and motor/generator), end use industry (electronics, automotive, aerospace, labeling, and other end use industries), and region (North America, Europe, Asia Pacific, and the Rest of the World)?

Q.2 Which segments will grow at a faster pace and why?

Q.3 Which regions will grow at a faster pace and why?

Q.4 What are the key factors affecting market dynamics? What are the drivers and challenges of the polyimide film market?

Q.5 What are the business risks and threats to the polyimide film market?

Q.6 What are emerging trends in this polyimide film market and the reasons behind them?

Q.7 What are some changing demands of customers in the polyimide film market?

Q.8 What are the new developments in the polyimide film market? Which companies are leading these developments?

Q.9 Who are the major players in this polyimide film market? What strategic initiatives are being implemented by key players for business growth?

Q.10 What are some of the competitive products and processes in this polyimide film area and how big of a threat do they pose for loss of market share via material or product substitution?

Q.11 What M & A activities have taken place in the last 5 years in this polyimide film market?

Contents

1. EXECUTIVE SUMMARY

2. GLOBAL POLYIMIDE FILM MARKET BACKGROUND AND CLASSIFICATIONS

2.1: Introduction, Background, and Classification

2.1: Supply Chain

2.2: Industry Drivers and Challenges

3. MARKET TRENDS AND FORECAST ANALYSIS FROM 2018 TO 2030

3.1: Macroeconomic Trends and Forecasts

3.2: Global Polyimide Film Market Trends and Forecast

3.3: Global Polyimide Film Market by Application

3.3.1: Flexible Printed Circuits

3.3.2: Specialty Fabricated Products

3.3.3: Pressure Sensitive Tape

3.3.4: Wire and Cable

3.3.5: Motor/Generator

3.4: Global Polyimide Film Market by End Use Industry

3.4.1: Electronics

3.4.2: Automotive

3.4.3: Aerospace

3.4.4: Labeling

3.4.5: Other End Use Industries

4. MARKET TRENDS AND FORECAST ANALYSIS FROM 2018 TO 2030

4.1: Global Polyimide Film Market by Region

4.2: North American Polyimide Film Market Trends and Forecast

4.2.1: Market by Application: Flexible Printed Circuit, Specialty Fabricated Product, Pressure Sensitive Tape, Wire and Cable, and Motor/Generator

4.2.2: Market by End Use Industry: Electronics, Automotive, Aerospace, Labeling, and Others

4.2.3: United States Polyimide Film Market

4.2.4: Canadian Polyimide Film Market

4.2.5: Mexican Polyimide Film Market

4.3: European Polyimide Film Market Trends and Forecast

4.3.1: Market by Application: Flexible Printed Circuit, Specialty Fabricated Product, Pressure Sensitive Tape, Wire and Cable, and Motor/Generator

4.3.2: Market by End Use Industry: Electronics, Automotive, Aerospace, Labeling, and Others

4.3.3: German Polyimide Film Market

4.3.4: United Kingdom Polyimide Film Market

4.3.5: French Polyimide Film Market

4.4: APAC Polyimide Film Market Trends and Forecast

4.4.1: Market by Application: Flexible Printed Circuit, Specialty Fabricated Products, Pressure Sensitive Tapes, Wire and Cable, and Motor/Generator

4.4.2: Market by End Use Industry: Electronics, Automotive, Aerospace, Labeling, and Others

4.4.3: Chinese Polyimide Film Market

4.4.4: Japanese Polyimide Film Market

4.4.5: Indian Polyimide Film Market

4.5: ROW Polyimide Film Market Trends and Forecast

4.5.1: Market by Application: Flexible Printed Circuit, Specialty Fabricated Product, Pressure Sensitive Tape, Wire and Cable, and Motor/Generator

4.5.2: Market by End Use Industry: Electronics, Automotive, Aerospace, Labeling, and Others

4.5.3: Middle Eastern and African Polyimide Film Market

4.5.4: South American Polyimide Film Market

5. COMPETITOR ANALYSIS

5.1: Product Portfolio Analysis

5.2: Geographical Reach

5.3: Porter's Five Forces Analysis

6. GROWTH OPPORTUNITIES AND STRATEGIC ANALYSIS

6.1: Growth Opportunity Analysis

6.1.1: Growth Opportunities for the Global Polyimide Film Market by Application Type

6.1.2: Growth Opportunities for the Global Polyimide Film Market by End Use Industry

6.1.3: Growth Opportunities for the Global Polyimide Film Market by Region

6.2: Emerging Trends in the Global Polyimide Film Market

6.3: Strategic Analysis

6.3.1: New Product Development

6.3.2: Capacity Expansion of the Global Polyimide Film Market

6.3.3: Mergers, Acquisitions, and Joint Ventures in the Global Polyimide Film Market

7. COMPANY PROFILES OF LEADING PLAYERS

7.1: DuPont

7.2: PI Advanced Materials Co. Ltd.

7.3: Toray Industries

7.4: Kaneka Corporation

7.5: Ube Industries

7.6: Taimide Tech. Inc.

7.7: Arakawa Chemicals Industries

7.8: Shinmax Technology Ltd.

7.9: FLEXcon
