Prefabricated Building and Structural Steel Market Trends and Forecast

The future of the global prefabricated building and structural steel market looks promising with opportunities in the residential, institutional, commercial, and industrial sectors. The global prefabricated building and structural steel market is expected to reach an estimated \$290.4 billion by 2028 with a CAGR of 6.2% from 2023 to 2028. The major drivers for this market are increasing number of infrastructure activities for recovery, rehabilitation, and rebuilding in the urban areas, increasing use of these prefabricated structures to save money and time and technological advancements in the construction process.

A more than 150-page report is developed to help in your business decisions. Sample figures with some insights are shown below.

Prefabricated Building and Structural Steel Market by Segment

The study includes a forecast for the global prefabricated building and structural steel market by component, end use industry, and region, as follows:

Prefabricated Building and Structural Steel Market by Component [Value (\$B) Shipment Analysis from 2017 to 2028]:

Prefabricated Building

- o Floors and Roofs

- o Walls

- o Staircase

- o Panels and Lintels

- o Others

Structural Steel

- o H-Type Beam

- o Columns

- o I-Type Beam

- o Angles

- o Others

Prefabricated Building and Structural Steel Market by End Use Industry [Value (\$B) Shipment Analysis from 2017 to 2028]:

- Residential

- Institutional

- Commercial

- Industrial

Prefabricated Building and Structural Steel Market by Region [Value (\$B) Shipment Analysis from 2017 to 2028]:

North America

Europe

Asia Pacific

The Rest of the World

List of Prefabricated Building and Structural Steel Companies

Companies in the market compete on the basis of product quality offered. Major players in this market focus on expanding their manufacturing facilities, R&D investments, infrastructural development, and leverage integration opportunities across the value chain. With these strategies prefabricated building and structural steel companies cater to increasing demand, ensure competitive effectiveness, develop innovative products & technologies, reduce production costs, and expand their customer base. Some of the prefabricated building and structural steel companies profiled in this report include.

Algeco Scotsman

Champion Home Builders

Redsea Housing

Kirby Building Systems

Lindal Cedar Homes

Prefabricated Building and Structural Steel Market Insights

Lucintel forecasts that prefabricated building is expected to witness higher growth over the forecast period owing to growing demand for reliable, stable, and low priced prefabricated materials, floors, and roofs.

Industrial is expected to witness higher growth over the forecast period due to the increasing use of prefabricated steel structures because of their strength, ability to reduce the effects of repairs, strong strength-to-weight ratio, which

allows them to support the weight of both cars as well as people.

APAC is expected to witness higher growth over the forecast period due to the increasing financial support for housing and commercial construction projects in developing countries like China and India.

Features of the Prefabricated Building and Structural Steel Market

Market Size Estimates: Prefabricated building and structural steel market size estimation in terms of value (\$B)

Trend And Forecast Analysis: Market trends (2017-2022) and forecast (2023-2028) by various segments and regions.

Segmentation Analysis: Prefabricated building and structural steel market size by various segments, such as by component, end use industry, and region

Regional Analysis: Prefabricated building and structural steel market breakdown by North America, Europe, Asia Pacific, and the Rest of the World.

Growth Opportunities: Analysis on growth opportunities in different by component, end use industry, and regions for the prefabricated building and structural steel market.

Strategic Analysis: This includes M&A, new product development, and competitive landscape for the prefabricated building and structural steel market.

Analysis of competitive intensity of the industry based on Porter's Five Forces model.

FAQ

Q1. What is the prefabricated building and structural steel market size?

Answer: The global prefabricated building and structural steel market is expected to reach an estimated \$290.4 billion by 2028.

Q2. What is the growth forecast for prefabricated building and structural steel market?

Answer: The global prefabricated building and structural steel market is expected to grow with a CAGR of 6.2% from 2023 to 2028.

Q3. What are the major drivers influencing the growth of the prefabricated building and structural steel market?

Answer: The major drivers for this market are increasing number of infrastructure activities for recovery, rehabilitation, and rebuilding in the urban areas, increasing use of these prefabricated structures to save money and time and technological advancements in the construction process

Q4. What are the major segments for prefabricated building and structural steel market?

Answer: The future of the prefabricated building and structural steel market looks promising with opportunities in the residential, institutional, commercial, and industrial sectors.

Q5. Who are the key prefabricated building and structural steel companies?

Answer: Some of the key prefabricated building and structural steel companies are as follows:

Algeco Scotsman

Champion Home Builders

Redsea Housing

Kirby Building Systems

Lindal Cedar Homes

Q6. Which prefabricated building and structural steel segment will be the largest in future?

Answer: Lucintel forecasts that prefabricated building is expected to witness higher

growth over the forecast period owing to growing demand for reliable, stable, and low priced prefabricated materials, floors, and roofs.

Q7. In prefabricated building and structural steel market, which region is expected to be the largest in next 5 years?

Answer: APAC is expected to witness higher growth over the forecast period due to the increasing financial support for housing and commercial construction projects in developing countries like China and India.

Q8. Do we receive customization in this report?

Answer: Yes, Lucintel provides 10% Customization Without any Additional Cost.

This report answers following 11 key questions

Q.1. What are some of the most promising, high-growth opportunities for the prefabricated building and structural steel market by component (prefabricated building and structural steel), end use industry (residential, institutional, commercial, and industrial), and region (North America, Europe, Asia Pacific, and the Rest of the World)?

Q.2. Which segments will grow at a faster pace and why?

Q.3. Which region will grow at a faster pace and why?

Q.4. What are the key factors affecting market dynamics? What are the key challenges and business risks in this market?

Q.5. What are the business risks and competitive threats in this market?

Q.6. What are the emerging trends in this market and the reasons behind them?

Q.7. What are some of the changing demands of customers in the market?

Q.8. What are the new developments in the market? Which companies are leading these developments?

Q.9. Who are the major players in this market? What strategic initiatives are key players pursuing for business growth?

Q.10. What are some of the competing products in this market and how big of a threat do they pose for loss of market share by material or product substitution?

Q.11. What M&A activity has occurred in the last 5 years and what has its impact been on the industry?

For any questions related to prefabricated building and structural steel market or related to prefabricated building and structural steel companies, prefabricated building and structural steel market size, prefabricated building and structural steel market share,

prefabricated building and structural steel analysis, prefabricated building and structural steel market growth, prefabricated building and structural steel market research, write Lucintel analyst at email: helpdesk@lucintel.com we will be glad to get back to you soon.

Contents

1. EXECUTIVE SUMMARY

2. GLOBAL PREFABRICATED BUILDING AND STRUCTURAL STEEL MARKET: MARKET DYNAMICS

2.1: Introduction, Background, and Classifications

2.2: Supply Chain

2.3: Industry Drivers and Challenges

3. MARKET TRENDS AND FORECAST ANALYSIS FROM 2017 TO 2028

3.1: Macroeconomic Trends (2017-2022) and Forecast (2023-2028)

3.2: Global Prefabricated Building and Structural Steel Market Trends (2017-2022) and Forecast (2023-2028)

3.3: Global Prefabricated Building and Structural Steel Market by Component

3.3.1: Prefabricated Building

3.3.1.1: Floors and Roofs

3.3.1.2: Walls

3.3.1.3: Staircase

3.3.1.4: Panels and Lintels

3.3.1.5: Others

3.3.2: Structural Steel

3.3.2.1: H-Type Beam

3.3.2.2: Columns

3.3.2.3: I-Type Beam

3.3.2.4: Angles

3.3.2.5: Others

3.4: Global Prefabricated Building and Structural Steel Market by End Use Industry

3.4.1: Residential

3.4.2: Institutional

3.4.3: Commercial

3.4.4: Industrial

4. MARKET TRENDS AND FORECAST ANALYSIS BY REGION FROM 2017 TO 2028

4.1: Global Prefabricated Building and Structural Steel Market by Region

4.2: North American Prefabricated Building and Structural Steel Market

4.2.1: North American Prefabricated Building and Structural Steel Market by Component: Prefabricated Building and Structural Steel

4.2.2: North American Prefabricated Building and Structural Steel Market by End Use Industry: Residential, Institutional, Commercial, and Industrial

4.3: European Prefabricated Building and Structural Steel Market

4.3.1: European Prefabricated Building and Structural Steel Market by Component: Prefabricated Building and Structural Steel

4.3.2: European Prefabricated Building and Structural Steel Market by End Use Industry: Residential, Institutional, Commercial, and Industrial

4.4: APAC Prefabricated Building and Structural Steel Market

4.4.1: APAC Prefabricated Building and Structural Steel Market by Component: Prefabricated Building and Structural Steel

4.4.2: APAC Prefabricated Building and Structural Steel Market by End Use Industry: Residential, Institutional, Commercial, and Industrial

4.5: ROW Prefabricated Building and Structural Steel Market

4.5.1: ROW Prefabricated Building and Structural Steel Market by Component: Prefabricated Building and Structural Steel

4.5.2: ROW Prefabricated Building and Structural Steel Market by End Use Industry: Residential, Institutional, Commercial, and Industrial

5. COMPETITOR ANALYSIS

5.1: Product Portfolio Analysis

5.2: Operational Integration

5.3: Porter's Five Forces Analysis

6. GROWTH OPPORTUNITIES AND STRATEGIC ANALYSIS

6.1: Growth Opportunity Analysis

6.1.1: Growth Opportunities for the Global Prefabricated Building and Structural Steel Market by Component

6.1.2: Growth Opportunities for the Global Prefabricated Building and Structural Steel Market by End Use Industry

6.1.3: Growth Opportunities for the Global Prefabricated Building and Structural Steel Market by Region

6.2: Emerging Trends in the Global Prefabricated Building and Structural Steel Market

6.3: Strategic Analysis

6.3.1: New Product Development

6.3.2: Capacity Expansion of the Global Prefabricated Building and Structural Steel Market

6.3.3: Mergers, Acquisitions, and Joint Ventures in the Global Prefabricated Building and Structural Steel Market

6.3.4: Certification and Licensing

7. COMPANY PROFILES OF LEADING PLAYERS

7.1: Algeco Scotsman

7.2: Champion Home Builders

7.3: Redsea Housing

7.4: Kirby Building Systems

7.5: LINDAL CEDAR HOMES
