Primary Battery Recycling Trends and Forecast

The future of the global primary battery recycling market looks promising with opportunities in the consumer electronic, automotive, and industrial markets. The global primary battery recycling market is expected to reach an estimated \$25.0 billion by 2030 with a CAGR of 13.2% from 2024 to 2030. The major drivers for this market are growing demand for renewable electricity, increasing demand for portable electronic devices, and advancements in battery recycling technologies.

A more than 150-page report is developed to help in your business decisions. Sample figures with some insights are shown below.

Primary Battery Recycling by Segment

The study includes a forecast for the global primary battery recycling by type, application, and region.

Primary Battery Recycling Market by Type [Shipment Analysis by Value from 2018 to 2030]:

Wet Primary Battery Recycling

Dry Primary Battery Recycling

Primary Battery Recycling Market by Application [Shipment Analysis by Value from 2018 to 2030]:

Consumer Electronics

Automotive

Industrial

Others

Primary Battery Recycling Market by Region [Shipment Analysis by Value from 2018 to 2030]:

North America

Europe

Asia Pacific

The Rest of the World

List of Primary Battery Recycling Companies

Companies in the market compete on the basis of product quality offered. Major players in this market focus on expanding their manufacturing facilities, R&D investments, infrastructural development, and leverage integration opportunities across the value chain. With these strategies primary battery recycling companies cater increasing demand, ensure competitive effectiveness, develop innovative products & technologies, reduce production costs, and expand their customer base. Some of the primary battery recycling companies profiled in this report include-

Umicore

Retriev Technologies

Raw Materials

Glencore International

American Manganese

American Zinc Recycling

SITRASA

Neometals

Li-Cycle

Metal Conversion Technologies

Primary Battery Recycling Market Insights

Lucintel forecasts that wet is expected to witness the higher growth over the forecast period due to its widespread use in aviation, electric utilities, cell phone towers.

Within this market, consumer electronic will remain the largest segment due to increased demand for batteries among various gadgets, such as smartphones, laptops, and other electronic devices.

Europe is expected to witness highest growth over the forecast period.

Features of the Global Primary Battery Recycling Market

Market Size Estimates: Primary battery recycling market size estimation in terms of value (\$B).

Trend and Forecast Analysis: Market trends (2018 to 2023) and forecast (2024 to 2030) by various segments and regions.

Segmentation Analysis: Primary battery recycling market size by type, application, and region in terms of value (\$B).

Regional Analysis: Primary battery recycling market breakdown by North America,

Europe, Asia Pacific, and Rest of the World.

Growth Opportunities: Analysis of growth opportunities in different types, applications, and regions for the primary battery recycling market.

Strategic Analysis: This includes M&A, new product development, and competitive landscape of the primary battery recycling market.

Analysis of competitive intensity of the industry based on Porter's Five Forces model.

FAQ

Q1. What is the primary battery recycling market size?

Answer: The global primary battery recycling market is expected to reach an estimated \$25.0 billion by 2030.

Q2. What is the growth forecast for primary battery recycling market?

Answer: The global primary battery recycling market is expected to grow with a CAGR of 13.2% from 2024 to 2030.

Q3. What are the major drivers influencing the growth of the primary battery recycling market?

Answer: The major drivers for this market are growing demand for renewable electricity, increasing demand for portable electronic devices, and advancements in battery recycling technologies.

Q4. What are the major segments for primary battery recycling market?

Answer: The future of the primary battery recycling market looks promising with opportunities in the consumer electronic, automotive, and industrial markets.

Q5. Who are the key primary battery recycling market companies?

Answer: Some of the key primary battery recycling companies are as follows:

Umicore

Retriev Technologies

Raw Materials

Glencore International

American Manganese

American Zinc Recycling

SITRASA

Neometals

Li-Cycle

Metal Conversion Technologies

Q6. Which primary battery recycling market segment will be the largest in future?

Answer: Lucintel forecasts that wet is expected to witness the higher growth over the forecast period due to its widespread use in aviation, electric utilities, cell phone towers.

Q7. In primary battery recycling market, which region is expected to be the largest in next 5 years?

Answer: Europe is expected to witness highest growth over the forecast period.

Q.8 Do we receive customization in this report?

Answer: Yes, Lucintel provides 10% customization without any additional cost.

This report answers following 11 key questions:

Q.1. What are some of the most promising, high-growth opportunities for the primary battery recycling market by type (wet primary battery recycling and dry primary battery recycling), application (consumer electronics, automotive, industrial, and others), and

region (North America, Europe, Asia Pacific, and the Rest of the World)?

Q.2. Which segments will grow at a faster pace and why?

Q.3. Which region will grow at a faster pace and why?

Q.4. What are the key factors affecting market dynamics? What are the key challenges and business risks in this market?

Q.5. What are the business risks and competitive threats in this market?

Q.6. What are the emerging trends in this market and the reasons behind them?

Q.7. What are some of the changing demands of customers in the market?

Q.8. What are the new developments in the market? Which companies are leading these developments?

Q.9. Who are the major players in this market? What strategic initiatives are key players pursuing for business growth?

Q.10. What are some of the competing products in this market and how big of a threat do they pose for loss of market share by material or product substitution?

Q.11. What M&A activity has occurred in the last 5 years and what has its impact been on the industry?

For any questions related to Primary Battery Recycling Market, Primary Battery Recycling Market Size, Primary Battery Recycling Market Growth, Primary Battery Recycling Market Analysis, Primary Battery Recycling Market Report, Primary Battery Recycling Market Share, Primary Battery Recycling Market Trends, Primary Battery Recycling Market Forecast, Primary Battery Recycling Companies, write Lucintel analyst at email: helpdesk@lucintel.com. We will be glad to get back to you soon.

Contents

1. EXECUTIVE SUMMARY

2. GLOBAL PRIMARY BATTERY RECYCLING MARKET : MARKET DYNAMICS

2.1: Introduction, Background, and Classifications

2.2: Supply Chain

2.3: Industry Drivers and Challenges

3. MARKET TRENDS AND FORECAST ANALYSIS FROM 2018 TO 2030

3.1. Macroeconomic Trends (2018-2023) and Forecast (2024-2030)

3.2. Global Primary Battery Recycling Market Trends (2018-2023) and Forecast (2024-2030)

3.3: Global Primary Battery Recycling Market by Type

3.3.1: Wet Primary Battery Recycling

3.3.2: Dry Primary Battery Recycling

3.4: Global Primary Battery Recycling Market by Application

3.4.1: Consumer Electronics

3.4.2: Automotive

3.4.3: Industrial

3.4.4: Others

4. MARKET TRENDS AND FORECAST ANALYSIS BY REGION FROM 2018 TO 2030

4.1: Global Primary Battery Recycling Market by Region

4.2: North American Primary Battery Recycling Market

4.2.1: North American Primary Battery Recycling Market by Type: Wet Primary Battery Recycling and Dry Primary Battery Recycling

4.2.2: North American Primary Battery Recycling Market by Application: Consumer Electronics, Automotive, Industrial, and Others

4.3: European Primary Battery Recycling Market

4.3.1: European Primary Battery Recycling Market by Type: Wet Primary Battery Recycling and Dry Primary Battery Recycling

4.3.2: European Primary Battery Recycling Market by Application: Consumer Electronics, Automotive, Industrial, and Others

4.4: APAC Primary Battery Recycling Market

4.4.1: APAC Primary Battery Recycling Market by Type: Wet Primary Battery Recycling and Dry Primary Battery Recycling

4.4.2: APAC Primary Battery Recycling Market by Application: Consumer Electronics, Automotive, Industrial, and Others

4.5: ROW Primary Battery Recycling Market

4.5.1: ROW Primary Battery Recycling Market by Type: Wet Primary Battery Recycling and Dry Primary Battery Recycling

4.5.2: ROW Primary Battery Recycling Market by Application: Consumer Electronics, Automotive, Industrial, and Others

5. COMPETITOR ANALYSIS

5.1: Product Portfolio Analysis

5.2: Operational Integration

5.3: Porter's Five Forces Analysis

6. GROWTH OPPORTUNITIES AND STRATEGIC ANALYSIS

6.1: Growth Opportunity Analysis

6.1.1: Growth Opportunities for the Global Primary Battery Recycling Market by Type

6.1.2: Growth Opportunities for the Global Primary Battery Recycling Market by Application

6.1.3: Growth Opportunities for the Global Primary Battery Recycling Market by Region

6.2: Emerging Trends in the Global Primary Battery Recycling Market

6.3: Strategic Analysis

6.3.1: New Product Development

6.3.2: Capacity Expansion of the Global Primary Battery Recycling Market

6.3.3: Mergers, Acquisitions, and Joint Ventures in the Global Primary Battery Recycling Market

6.3.4: Certification and Licensing

7. COMPANY PROFILES OF LEADING PLAYERS

7.1: Umicore

7.2: Retrieval Technologies

7.3: Raw Materials

7.4: Glencore International

7.5: American Manganese

7.6: American Zinc Recycling

7.7: SITRASA

7.8: Neometals

7.9: Li-Cycle

7.10: Metal Conversion Technologies
