The future of the global proteomics market looks promising with opportunities in the clinical diagnostic and drug discovery. The global proteomics market is expected to grow with a CAGR of 13%-15% from 2020 to 2025. The major drivers for this market are increasing prevalence of diseases such as cancer, diabetes, and other cardiovascular diseases and increasing awareness related to personalized medicines among people.

A total of XX figures / charts and XX tables are provided in this more than 150-page report to help in your business decisions. Sample figures with some insights are shown below. To learn the scope, benefits, companies researched, and other details of the global proteomics market report, please download the report brochure.

In this market, reagents is the largest component of proteomics, whereas clinical diagnostics is the largest application. Growth in various segments of the proteomics market are given below:

The study includes trends and forecast for the global proteomics market by component, application, and region as follows:

By Component [Value (\$ Million) shipment analysis for 2014 – 2025]:

Instruments

Spectroscopy

Chromatography

Electrophoresis

Protein Microarrays

X-Ray Crystallography

Surface Plasma Resonance

Protein Fractionation

Reagents

Immunoassay Reagents

Spectroscopy Reagents

Chromatography Reagents

Protein Microarray Reagents

X-Ray Crystallography Reagents

Electrophoresis Reagents

Protein Fractionation Reagents

Services and Software

Core Proteomics Services

Bioinformatics Software & Services

By Application [Value (\$ Million) shipment analysis for 2014 – 2025]:

Clinical Diagnostic

Drug Discovery

Others

By Region [Value (\$ Million) shipment analysis for 2014 – 2025]:

North America

United States

Canada

Mexico

Europe

United Kingdom

Germany

France

Asia Pacific

China

India

Japan

The Rest of the World

Brazil

Some of the proteomic companies profiled in this report include Thermo Fisher Scientific, Agilent Technologies, GE Healthcare, Bio-Rad Laboratories, Danaher,

Luminex, Bruker, Merck, Waters, and PerkinElmer.

Lucintel forecasts that reagents will remain the largest segment over the forecast period due to increasing research in academic institutes along with high frequency of usage of kits, reagent, chemicals, and strips for the analysis of biological samples.

Within this market, clinical diagnostic will remain the largest segment by application over the forecast period due to increasing awareness regarding relevance of investigation and understanding patterns of protein expression for drug development and disease diagnostics.

North America will remain the largest region over the forecast period due to presence of sophisticated healthcare infrastructure, a large base of target population, and availability of advanced research facilities.

Features of the Global Proteomics Market

Market Size Estimates: Global proteomics market size estimation in terms of value (\$M) shipment.

Trend and Forecast Analysis: Market trends (2014-2019) and forecast (2020-2025) by various segments.

Segmentation Analysis: Global proteomics market size by various segments, such as component and application in terms of value.

Regional Analysis: Global proteomics market breakdown by North America, Europe, Asia Pacific, and Rest of the World.

Growth Opportunities: Analysis of growth opportunities in different component, application, and region for the global proteomics market.

Strategic Analysis: This includes M&A, new product development, and competitive landscape of the global proteomics market.

Analysis of competitive intensity of the industry based on Porter's Five Forces model.

This report answers following key questions

Q.1 What are some of the most promising potential, high-growth opportunities for the global proteomics market by component (instruments (spectroscopy, chromatography, electrophoresis, protein microarrays, X-ray crystallography, surface plasma resonance, and protein fractionation), reagents (immunoassay reagents, spectroscopy reagents, chromatography reagents, protein microarray reagents, X-ray crystallography reagents, electrophoresis reagents, and protein fractionation reagents), and services and software (core proteomics services and bioinformatics software & services), application (clinical diagnostic, drug discovery, and others), and region (North America, Europe, Asia Pacific, and Rest of the World)?

Q.2 Which segments will grow at a faster pace and why?

Q.3 Which region will grow at a faster pace and why?

Q.4 What are the key factors affecting market dynamics? What are the drivers and challenges of the global proteomics market?

Q.5 What are the business risks and threats to the global proteomics market?

Q.6 What are the emerging trends in this proteomics market and the reasons behind them?

Q.7 What are some changing demands of customers in this proteomics market?

Q.8 What are the new developments in this proteomics market? Which companies are leading these developments?

Q.9 Who are the major players in this proteomics market? What strategic initiatives are being implemented by key players for business growth?

Q.10 What are some of the competitive products and processes in this proteomics market, and how big of a threat do they pose for loss of market share via material or product substitution?

Q.11 What M&A activities did take place in the last five years in the global proteomics market?

Contents

1. EXECUTIVE SUMMARY

2. MARKET BACKGROUND AND CLASSIFICATIONS

2.1: Introduction, Background, and Classifications

2.2: Supply Chain

2.3: Industry Drivers and Challenges

3. MARKET TRENDS AND FORECAST ANALYSIS FROM 2014 T 2025

3.1: Macroeconomic Trends and Forecast

3.2: Global Proteomics Market Trends and Forecast

3.3: Global Proteomics Market by Component

3.3.1: Instruments

3.3.1.1: Spectroscopy

3.3.1.2: Chromatography

3.3.1.3: Electrophoresis

3.3.1.4: Protein Microarrays

3.3.1.5: X-Ray Crystallography

3.3.1.6: Surface Plasma Resonance

3.3.1.7: Protein Fractionation

3.3.2: Reagents

3.3.2.1: Immunoassay Reagents

3.3.2.2: Spectroscopy Reagents

3.3.2.3: Chromatography Reagents

3.3.2.4: Protein Microarray Reagents

3.3.2.5: X-Ray Crystallography Reagents

3.3.2.6: Electrophoresis Reagents

3.3.2.7: Protein Fractionation Reagents

3.3.3: Services and Software

3.3.3.1: Core Proteomics Services

3.3.3.2: Bioinformatics Software & Services

3.4: Global Proteomics Market by Application

3.4.1: Clinical Diagnostic

3.4.2: Drug Discovery

3.4.3: Others

4. MARKET TRENDS AND FORECAST ANALYSIS BY REGION

4.1: Global Proteomics Market by Region

4.2: North American Proteomics Market

4.2.1: Market by Component: Instruments (Spectroscopy, Chromatography, Electrophoresis, Protein Microarrays, X-Ray Crystallography, Surface Plasma Resonance, and Protein Fractionation), Reagents (Immunoassay Reagents, Spectroscopy Reagents, Chromatography Reagents, Protein Microarray Reagents, X-Ray Crystallography Reagents, Electrophoresis Reagents, and Protein Fractionation Reagents), and Services and Software (Core Proteomics Services and Bioinformatics Software & Services)

4.2.2: Market by Application: Clinical Diagnostic, Drug Discovery, and Others

4.2.3: The United States Proteomics Market

4.2.4: The Canadian Proteomics Market

4.2.5: The Mexican Proteomics Market

4.3: European Proteomics Market

4.3.1: Market by Component: Instruments (Spectroscopy, Chromatography, Electrophoresis, Protein Microarrays, X-Ray Crystallography, Surface Plasma Resonance, and Protein Fractionation), Reagents (Immunoassay Reagents, Spectroscopy Reagents, Chromatography Reagents, Protein Microarray Reagents, X-Ray Crystallography Reagents, Electrophoresis Reagents, and Protein Fractionation Reagents), and Services and Software (Core Proteomics Services and Bioinformatics Software & Services)

4.3.2: Market by Application: Clinical Diagnostic, Drug Discovery, and Others

4.3.3: The Proteomics Market of United Kingdom

4.3.4: The German Proteomics Market

4.3.5: The French Proteomics Market

4.4: APAC Proteomics Market

4.4.1: Market by Component: Instruments (Spectroscopy, Chromatography, Electrophoresis, Protein Microarrays, X-Ray Crystallography, Surface Plasma Resonance, and Protein Fractionation), Reagents (Immunoassay Reagents, Spectroscopy Reagents, Chromatography Reagents, Protein Microarray Reagents, X-Ray Crystallography Reagents, Electrophoresis Reagents, and Protein Fractionation Reagents), and Services and Software (Core Proteomics Services and Bioinformatics Software & Services)

4.4.2: Market by Application: Clinical Diagnostic, Drug Discovery, and Others

4.4.3: The Chinese Proteomics Market

4.4.4: The Indian Proteomics Market

4.4.5: The Japanese Proteomics Market

4.5: ROW Proteomics Market

4.5.1: Market by Component: Instruments (Spectroscopy, Chromatography, Electrophoresis, Protein Microarrays, X-Ray Crystallography, Surface Plasma Resonance, and Protein Fractionation), Reagents (Immunoassay Reagents, Spectroscopy Reagents, Chromatography Reagents, Protein Microarray Reagents, X-Ray Crystallography Reagents, Electrophoresis Reagents, and Protein Fractionation Reagents), and Services and Software (Core Proteomics Services and Bioinformatics Software & Services)

4.5.2: Market by Application: Clinical Diagnostic, Drug Discovery, and Others

4.5.3: Brazilian Proteomics Market

5. COMPETITOR ANALYSIS

5.1: Market Share Analysis

5.2: Product Portfolio Analysis

5.3: Operational Integration

5.4: Geographical Reach

5.5: Porter's Five Forces Analysis

6. COST STRUCTURE ANALYSIS

6.1: Cost of Goods Sold

6.2: SG&A

6.3: EBITDA Margin

7. GROWTH OPPORTUNITIES AND STRATEGIC ANALYSIS

7.1: Growth Opportunity Analysis

7.1.1: Growth Opportunities for the Global Proteomics Market by Component

7.1.2: Growth Opportunities for the Global Proteomics Market by Application

7.1.3: Growth Opportunities for the Global Proteomics Market by Region

7.2: Emerging Trends in the Global Proteomics Market

7.3: Strategic Analysis

7.3.1: New Product Development

7.3.2: Capacity Expansion of the Global Proteomics Market

7.3.3: Mergers, Acquisitions, and Joint Ventures in the Global Proteomics Market

7.3.4: Certification and Licensing

8. COMPANY PROFILES OF LEADING PLAYERS

- 8.1: Thermo Fisher Scientific, Inc.
- 8.2: Agilent Technologies, Inc.
- 8.3: GE Healthcare
- 8.4: Bio-Rad Laboratories, Inc.
- 8.5: Danaher Corporation
- 8.6: Luminex Corporation
- 8.7: Bruker Corporation
- 8.8: Merck KGaA
- 8.9: Waters Corporation
- 8.10: PerkinElmer, Inc.
