Pump Feeder Market Trends and Forecast

The future of the global pump feeder market looks promising with opportunities in the food and beverage, chemical, mining and metal, oil and gas, and pharmaceutical end use industries. The global pump feeder market is expected to reach an estimated \$117.2 billion by 2028 with a CAGR of 6.5% from 2023 to 2028. The major drivers for this market are growing demand for sustainable and energy-efficient pump feeders and increasing integration of pump feeders with internet of things (IoT) and automated technologies so as to optimize manufacturing process as well as improve the productivity.

A more than 150-page report is developed to help in your business decisions. Sample figures with some insights are shown here.

Pump Feeder Market by Segment

The study includes trends and forecast for the global pump feeder market by type, end use industry, and region, as follows:

Pump Feeder Market by Type [Shipment Analysis by Value from 2017 to 2028]:

Volumetric Pump Feeders

Gravitational Feeders

Pump Feeder Market by End Use Industry [Shipment Analysis by Value from 2017 to 2028]:

Food and Beverages

Chemicals

Mining and Metals

Oil & Gases

Pharmaceuticals

Others

Pump Feeder Market by Region [Shipment Analysis by Value from 2017 to 2028]:

North America

Europe

Asia Pacific

The Rest of the World

List of Pump Feeder Companies

Companies in the market compete on the basis of product quality offered. Major players in this market focus on expanding their manufacturing facilities, R&D investments, infrastructural development, and leverage integration opportunities across the value chain. With these strategies, pump feeder companies cater to increasing demand, ensure competitive effectiveness, develop innovative products & technologies, reduce production costs, and expand their customer base. Some of the pump feeder companies profiled in this report include:

LEWA

Elscint

Mepaco

Eagle Microsystems

Siemens Process Instrumentation

KUBOTA Corporation

Pump Feeder Market Insights

Lucintel forecasts that volumetric pump feeders will remain the highest growing segment over the forecast period because of the growing demand for smart and connected pump feeders along with increasing demand for automation and digitization in the manufacturing industry.

Within this market, food & beverages will remain the highest growing segment due to rising focus on food safety and hygiene in this sector along with increasing application of these feeders in food and beverage industry in various processes, such as homogenization, pasteurization mixing, filling, and other processes.

APAC will remain the fastest growing region over the forecast period due to rapid industrialization, rising production rate in the manufacturing and food & beverage industries and increasing adoption of automated feeding solutions in this region.

Features of the Pump Feeder Market

Market Size Estimates: Pump feeder market size estimation in terms of value (\$B)

Trend and Forecast Analysis: Market trends (2017-2022) and forecast (2023-2028) by various segments and regions.

Segmentation Analysis: Pump feeder market size by various segments, such as by type, end use industry, and region

Regional Analysis: Pump feeder market breakdown by North America, Europe, Asia Pacific, and the Rest of the World.

Growth Opportunities: Analysis on growth opportunities in different by type, end use industry, and regions for the pump feeder market.

Strategic Analysis: This includes M&A, new product development, and competitive landscape for the pump feeder market.

Analysis of competitive intensity of the industry based on Porter's Five Forces model.

FAQ

Q1. What is the pump feeder market size?

Answer: The global pump feeder market is expected to reach an estimated \$117.2 billion by 2028.

Q2. What is the growth forecast for pump feeder market?

Answer: The global pump feeder market is expected to grow with a CAGR of 6.5% from 2023 to 2028.

Q3. What are the major drivers influencing the growth of the pump feeder market?

Answer: The major drivers for this market are growing demand for sustainable and energy-efficient pump feeders and increasing integration of pump feeders with internet of things (IoT) and automated technologies so as to optimize manufacturing process as well as improve the productivity.

Q4. What are the major segments for pump feeder market?

Answer: The future of the global pump feeder market looks promising with opportunities

in the food and beverage, chemical, mining and metal, oil and gas, and pharmaceutical end use industries.

Q5. Who are the key pump feeder companies?

Answer: Some of the key pump feeder companies are as follows:

LEWA

Elscint

Mepaco

Eagle Microsystems

Siemens Process Instrumentation

KUBOTA Corporation

Q6. Which pump feeder segment will be the largest in future?

Answer: Lucintel forecasts that volumetric pump feeders will remain the highest growing segment over the forecast period because of the growing demand for smart and connected pump feeders along with increasing demand for automation and digitization in the manufacturing industry.

Q7. In pump feeder market, which region is expected to be the largest in next 5 years?

Answer: APAC will remain the fastest growing region over the forecast period due to rapid industrialization, rising production rate in the manufacturing and food & beverage industries, and increasing adoption of automated feeding solutions in this region.

Q8. Do we receive customization in this report?

Answer: Yes, Lucintel provides 10% Customization Without any Additional Cost.

This report answers following 11 key questions

Q.1. What are some of the most promising, high-growth opportunities for the global pump feeder market by type (volumetric pump feeders and gravitational feeders), end use industry (food and beverages, chemicals, mining and metals, oil and gases, pharmaceuticals, and others), and region (North America, Europe, Asia Pacific, and the Rest of the World)?

Q.2. Which segments will grow at a faster pace and why?

Q.3. Which region will grow at a faster pace and why?

Q.4. What are the key factors affecting market dynamics? What are the key challenges and business risks in this market?

Q.5. What are the business risks and competitive threats in this market?

Q.6. What are the emerging trends in this market and the reasons behind them?

Q.7. What are some of the changing demands of customers in the market?

Q.8. What are the new developments in the market? Which companies are leading these developments?

Q.9. Who are the major players in this market? What strategic initiatives are key players pursuing for business growth?

Q.10. What are some of the competing products in this market and how big of a threat do they pose for loss of market share by material or product substitution?

Q.11. What M&A activity has occurred in the last 5 years and what has its impact been on the industry?

For any questions related to pump feeder market or related to pump feeder companies, pump feeder market size, pump feeder market share, pump feeder market growth, pump feeder market research, write Lucintel analyst at email: helpdesk@lucintel.com we will be glad to get back to you soon.

Contents

1. EXECUTIVE SUMMARY

2. GLOBAL PUMP FEEDER MARKET: MARKET DYNAMICS

2.1: Introduction, Background, and Classifications

2.2: Supply Chain

2.3: Industry Drivers and Challenges

3. MARKET TRENDS AND FORECAST ANALYSIS FROM 2017 TO 2028

3.1: Macroeconomic Trends (2017-2022) and Forecast (2023-2028)

3.2: Global Pump Feeder Market Trends (2017-2022) and Forecast (2023-2028)

3.3: Global Pump Feeder Market by Type

3.3.1: Volumetric Pump Feeders

3.3.2: Gravitational Feeders

3.4: Global Pump Feeder Market by End Use Industry

3.4.1: Food and Beverages

3.4.2: Chemicals

3.4.3: Mining and Metals

3.4.4: Oil and Gases

3.4.5: Pharmaceuticals

3.4.6: Others

4. MARKET TRENDS AND FORECAST ANALYSIS BY REGION FROM 2017 TO 2028

4.1: Global Pump Feeder Market by Region

4.2: North American Pump Feeder Market

4.2.1: North American Pump Feeder Market by Type: Volumetric Pump Feeders and Gravitational Feeders

4.2.2: North American Pump Feeder Market by End Use Industry: Food and Beverages, Chemicals, Mining and Metals, Oil and Gases, Pharmaceuticals, and Others

4.3: European Pump Feeder Market

4.3.1: European Pump Feeder Market by Type: Volumetric Pump Feeders and Gravitational Feeders

4.3.2: European Pump Feeder Market by End Use Industry: Food and Beverages,

Chemicals, Mining and Metals, Oil and Gases, Pharmaceuticals, and Others

4.4: APAC Pump Feeder Market

4.4.1: APAC Pump Feeder Market by Type: Volumetric Pump Feeders and Gravitational Feeders

4.4.2: APAC Pump Feeder Market by End Use Industry: Food and Beverages, Chemicals, Mining and Metals, Oil and Gases, Pharmaceuticals, and Others

4.5: ROW Pump Feeder Market

4.5.1: ROW Pump Feeder Market by Type: Volumetric Pump Feeders and Gravitational Feeders

4.5.2: ROW Pump Feeder Market by End Use Industry: Food and Beverages, Chemicals, Mining and Metals, Oil and Gases, Pharmaceuticals, and Others

5. COMPETITOR ANALYSIS

5.1: Product Portfolio Analysis

5.2: Operational Integration

5.3: Porter's Five Forces Analysis

6. GROWTH OPPORTUNITIES AND STRATEGIC ANALYSIS

6.1: Growth Opportunity Analysis

6.1.1: Growth Opportunities for the Global Pump Feeder Market by Type

6.1.2: Growth Opportunities for the Global Pump Feeder Market by End Use Industry

6.1.3: Growth Opportunities for the Global Pump Feeder Market by Region

6.2: Emerging Trends in the Global Pump Feeder Market

6.3: Strategic Analysis

6.3.1: New Product Development

6.3.2: Capacity Expansion of the Global Pump Feeder Market

6.3.3: Mergers, Acquisitions, and Joint Ventures in the Global Pump Feeder Market

6.3.4: Certification and Licensing

7. COMPANY PROFILES OF LEADING PLAYERS

7.1: LEWA

7.2: Elscint

7.3: Mepaco

7.4: Eagle Microsystems

7.5: Siemens Process Instrumentation

7.6: KUBOTA Corporation
