In Progress. Get it in 2 to 4 weeks by ordering today

The future of the global rainscreen cladding market looks promising with opportunities in both non-residential and residential construction. The global rainscreen cladding market is expected to grow with a CAGR of 6%-8% from 2020 to 2025. The major drivers for this market are the high growth of the construction industry across the globe, remodeling & maintenance activities, its high durability, and ability to enhance the aesthetic appearance.

A total of XX figures / charts and XX tables are provided in this more than 150-pages report to help in your business decisions. Sample figures with some insights are shown below. To learn the scope, benefits, companies researched, and other details of the global rainscreen cladding market report, please download the report brochure.

rainscreen cladding

In this market, new construction is the largest construction of rainscreen cladding, whereas composite materials is the largest material. Growth in various segments of the rainscreen cladding market are given below:

rainscreen cladding

The study includes trends and forecast for the global rainscreen cladding market by material, construction, end-use sector, and region as follows:

By Material [Value (\$ Million) shipment analysis for 2014 – 2025]:

Composite Materials Metal Fiber Cement HPL (High Pressure Laminate)

By Construction [Value (\$ Million) shipment analysis for 2014 – 2025]:

New Construction Renovation

By End-Use [Value (\$ Million) shipment analysis for 2014 – 2025]:

Non-Residential Residential

By Region [Value (\$ Million) shipment analysis for 2014 – 2025]:

North America United States Canada Mexico Europe United Kingdom Spain Germany France Asia Pacific China India Japan The Rest of the World Brazil

Some of the rainscreen cladding companies profiled in this report include Kingspan Insulation, SIKA, Rockwool, Everest Industries, SFS, Sotech Architectural Façade, Promat.

Lucintel forecasts that new construction will remain the largest construction segment over the forecast period, as it is durable, flexible, waterproof, and includes an extruded polymer-based core layer which provides a better rigid property to the floor, easy installation, and smooth finished appearance after the installation.

Within this market, composite materials will remain the largest material segment over the forecast period because of their low cost and easy installation techniques.

Europe will remain the largest region over the forecast period due to the tremendous growth of the construction opportunities in the European countries and the increasing number of new housing units and huge investments in the infrastructural sector.

Features of the Global Rainscreen Cladding Market

Market Size Estimates: Global rainscreen cladding market size estimation in terms of value (\$M) shipment. Trend and Forecast Analysis: Market trends (2014-2019) and forecast (2020-2025) by various segments. Segmentation Analysis: Global rainscreen cladding market size by various segments, such as material, construction, and end-use sector in terms of value. Regional Analysis: Global rainscreen cladding market

breakdown by North America, Europe, Asia Pacific, and Rest of the World. Growth Opportunities: Analysis of growth opportunities in different material, construction, end-use sector, and region for the global rainscreen cladding market. Strategic Analysis: This includes M&A, new product development, and competitive landscape of the global rainscreen cladding market. Analysis of competitive intensity of the industry based on Porter's Five Forces model.

This report answers following key questions

- Q.1 What are some of the most promising potential, high-growth opportunities for the global rainscreen cladding market by material (composite materials, metal, fiber cement, HPL), construction (new construction and renovation), end-use (non-residential and residential), and region (North America, Europe, Asia Pacific, and Rest of the World)?
- Q.2 Which segments will grow at a faster pace and why?
- Q.3 Which region will grow at a faster pace and why?
- Q.4 What are the key factors affecting market dynamics? What are the drivers and challenges of the global rainscreen cladding market?
- Q.5 What are the business risks and threats to the global rainscreen cladding market?
- Q.6 What are the emerging trends in this rainscreen cladding market and the reasons behind them?
- Q.7 What are some changing demands of customers in this rainscreen cladding market?
- Q.8 What are the new developments in this rainscreen cladding market? Which companies are leading these developments?
- Q.9 Who are the major players in this rainscreen cladding market? What strategic initiatives are being implemented by key players for business growth?
- Q.10 What are some of the competitive products and processes in this rainscreen cladding market, and how big of a threat do they pose for loss of market share via material or product substitution?
- Q.11 What M&A activities did take place in the last five years in the global rainscreen cladding market?

Contents

1. EXECUTIVE SUMMARY

2. MARKET BACKGROUND AND CLASSIFICATIONS

2.1: Introduction, Background, and Classifications

2.2: Supply Chain

2.3: Industry Drivers and Challenges

3. MARKET TRENDS AND FORECAST ANALYSIS FROM 2014 T 2025

3.1: Macroeconomic Trends and Forecast

3.2: Global Rainscreen Cladding Market Trends and Forecast

3.3: Global Rainscreen Cladding Market by Material

3.3.1: Composite Materials

3.3.2: Metal

3.3.3: Fiber Cement

3.3.4: HPL (High Pressure Laminate)

3.4: Global Rainscreen Cladding Market by Construction

3.4.1: New Construction

3.4.2: Renovation

3.5: Global Rainscreen Cladding Market by End-Use

3.5.1: Non-Residential

3.5.2: Residential

4. MARKET TRENDS AND FORECAST ANALYSIS BY REGION

4.1: Global Rainscreen Cladding Market by Region

4.2: North American Rainscreen Cladding Market

4.2.1: Market by Material: Composite Materials, Metal, Fiber Cement, and HPL

4.2.2: Market by Construction: New Construction and Renovation

4.2.3: Market by End-Use: Non-Residential and Residential

4.2.4: The United States Rainscreen Cladding Market

4.2.5: The Canadian Rainscreen Cladding Market

4.2.6: The Mexican Rainscreen Cladding Market

4.3: European Rainscreen Cladding Market

4.3.1: Market by Material: Composite Materials, Metal, Fiber Cement, and HPL

4.3.2: Market by Construction: New Construction and Renovation

- 4.3.3: Market by End-Use: Non-Residential and Residential
- 4.3.4: The United Kingdom Rainscreen Cladding Market
- 4.3.5: The Spanish Rainscreen Cladding Market
- 4.3.6: The German Rainscreen Cladding Market
- 4.3.7: The French Rainscreen Cladding Market
- 4.4: APAC Rainscreen Cladding Market
 - 4.4.1: Market by Material: Composite Materials, Metal, Fiber Cement, and HPL
 - 4.4.2: Market by Construction: New Construction and Renovation
 - 4.4.3: Market by End-Use: Non-Residential and Residential
 - 4.4.4: The Chinese Rainscreen Cladding Market
 - 4.4.5: The Indian Rainscreen Cladding Market
 - 4.4.6: The Japanese Rainscreen Cladding Market
- 4.5: ROW Rainscreen Cladding Market
 - 4.5.1: Market by Material: Composite Materials, Metal, Fiber Cement, and HPL
 - 4.5.2: Market by Construction: New Construction and Renovation
 - 4.5.3: Market by End-Use: Non-Residential and Residential
 - 4.5.4: Brazilian Rainscreen Cladding Market

5. COMPETITOR ANALYSIS

- 5.1: Market Share Analysis
- 5.2: Product Portfolio Analysis
- 5.3: Operational Integration
- 5.4: Geographical Reach
- 5.5: Porter's Five Forces Analysis

6. COST STRUCTURE ANALYSIS

- 6.1: Cost of Goods Sold
- 6.2: SG&A
- 6.3: EBITDA Margin

7. GROWTH OPPORTUNITIES AND STRATEGIC ANALYSIS

- 7.1: Growth Opportunity Analysis
 - 7.1.1: Growth Opportunities for the Global Rainscreen Cladding Market by Material
 - 7.1.2: Growth Opportunities for the Global Rainscreen Cladding Market by Construction
 - 7.1.3: Growth Opportunities for the Global Rainscreen Cladding Market by End-Use

- 7.1.4: Growth Opportunities for the Global Rainscreen Cladding Market by Region
- 7.2: Emerging Trends in the Global Rainscreen Cladding Market
- 7.3: Strategic Analysis
 - 7.3.1: New Product Development
 - 7.3.2: Capacity Expansion of the Global Rainscreen Cladding Market
 - 7.3.3: Mergers, Acquisitions, and Joint Ventures in the Global Rainscreen Cladding Market
 - 7.3.4: Certification and Licensing

8. COMPANY PROFILES OF LEADING PLAYERS

- 8.1: Kingspan Insulation
- 8.2: SIKA
- 8.3: Rockwool
- 8.4: Everest Industries
- 8.5: SFS
- 8.6: Sotech Architectural Façade
- 8.7: Promat
- 8.8: Company
- 8.9: Company
- 8.10: Company
