Rehabilitation Robot Trends and Forecast

The future of the global rehabilitation robot market looks promising with opportunities in the hospitals & clinic, senior care facilities, and homecare settings markets. The global rehabilitation robot market is expected to reach an estimated \$627.2 million by 2030 with a CAGR of 16.5% from 2024 to 2030. The major drivers for this market are growing per capita healthcare spending and increased use of technologically sophisticated medical equipment, increased frequency of stroke and the constantly expanding elderly population, and growing diseases such as cumulative trauma disorder, repetitive strain injury, and occupational overuse syndromes that have a beneficial influence on the market.

A more than 150-page report is developed to help in your business decisions. Sample figures with some insights are shown below.

Rehabilitation Robot by Segment

The study includes a forecast for the global rehabilitation robot by type, extremity, end use, and region.

Rehabilitation Robot Market by Type [Shipment Analysis by Value from 2018 to 2030]:

Therapy Robots

Exoskeleton

Rehabilitation Robot Market by Extremity [Shipment Analysis by Value from 2018 to 2030]:

Upper Body

Lower Body

Rehabilitation Robot Market by End Use [Shipment Analysis by Value from 2018 to 2030]:

Hospitals & Clinics

Senior Care Facilities

Homecare Settings

Others

Rehabilitation Robot Market by Region [Shipment Analysis by Value from 2018 to 2030]:

North America

Europe

Asia Pacific

The Rest of the World

List of Rehabilitation Robot Companies

Companies in the market compete on the basis of product quality offered. Major players in this market focus on expanding their manufacturing facilities, R&D investments,

infrastructural development, and leverage integration opportunities across the value chain. With these strategies rehabilitation robot companies cater increasing demand, ensure competitive effectiveness, develop innovative products & technologies, reduce production costs, and expand their customer base. Some of the rehabilitation robot companies profiled in this report include-

Tyromotion

Life Science Robotics

Hocoma

Rex Bionics

Kinova

Rehab-Robotics

ReWalk Robotics

Ekso Bionics Holdings

Cyberdyne

Bionik Laboratories

Rehabilitation Robot Market Insights

Lucintel forecasts that exoskeleton will remain the larger segment over the forecast period due to increasing number of senior citizens, growing acceptance and knowledge of these exoskeletons in medicine, as well as, increasing rates of stroke, spinal cord damage, and paralysis,

North America will remain the largest region over the forecast period due to the rising rate of spinal cord injuries in the area, as well as, increased numbers of elderly people and those with disabilities in the region.

Features of the Global Rehabilitation Robot Market

Market Size Estimates: Rehabilitation robot market size estimation in terms of value (\$M).

Trend and Forecast Analysis: Market trends (2018 to 2023) and forecast (2024 to 2030) by various segments and regions.

Segmentation Analysis: Rehabilitation robot market size by type, extremity, end use, and region in terms of value (\$M).

Regional Analysis: Rehabilitation robot market breakdown by North America, Europe, Asia Pacific, and Rest of the World.

Growth Opportunities: Analysis of growth opportunities in different type, extremity, end use, and regions for the rehabilitation robot market.

Strategic Analysis: This includes M&A, new product development, and competitive landscape of the rehabilitation robot market.

Analysis of competitive intensity of the industry based on Porter's Five Forces model.

FAQ

Q1. What is the rehabilitation robot market size?

Answer: The global rehabilitation robot market is expected to reach an estimated \$627.2 million by 2030.

Q2. What is the growth forecast for rehabilitation robot market?

Answer: The global rehabilitation robot market is expected to grow with a CAGR of 16.5% from 2024 to 2030.

Q3. What are the major drivers influencing the growth of the rehabilitation robot market?

Answer: The major drivers for this market are growing per capita healthcare spending and increased use of technologically sophisticated medical equipment, increased frequency of stroke and the constantly expanding elderly population, and growing diseases such as cumulative trauma disorder, repetitive strain injury, and occupational

overuse syndromes that have a beneficial influence on the market.

Q4. What are the major segments for rehabilitation robot market?

Answer: The future of the global rehabilitation robot market looks promising with opportunities in the hospitals & clinic, senior care facilities, and homecare settings markets.

Q5. Who are the key rehabilitation robot market companies?

Answer: Some of the key rehabilitation robot companies are as follows:

Tyromotion

Life Science Robotics

Hocomo

Rex Bionics

Kinova

Rehab-Robotics

ReWalk Robotics

Ekso Bionics Holdings

Cyberdyne

Bionik Laboratories

Q6. Which rehabilitation robot market segment will be the largest in future?

Answer: Lucintel forecasts that exoskeleton will remain the larger segment over the forecast period due to increasing number of senior citizens, growing acceptance and knowledge of these exoskeletons in medicine, as well as, increasing rates of stroke, spinal cord damage, and paralysis,

Q7. In rehabilitation robot market, which region is expected to be the largest in next 5 years?

Answer: North America will remain the largest region over the forecast period due to the rising rate of spinal cord injuries in the area, as well as, increased numbers of elderly people and those with disabilities in the region.

Q.8 Do we receive customization in this report?

Answer: Yes, Lucintel provides 10% customization without any additional cost.

This report answers following 11 key questions:

Q.1. What are some of the most promising, high-growth opportunities for the rehabilitation robot market by type (therapy robots and exoskeleton), extremity (upper body and lower body), end use (hospitals & clinics, senior care facilities, homecare settings, and others), and region (North America, Europe, Asia Pacific, and the Rest of the World)?

Q.2. Which segments will grow at a faster pace and why?

Q.3. Which region will grow at a faster pace and why?

Q.4. What are the key factors affecting market dynamics? What are the key challenges and business risks in this market?

Q.5. What are the business risks and competitive threats in this market?

Q.6. What are the emerging trends in this market and the reasons behind them?

Q.7. What are some of the changing demands of customers in the market?

Q.8. What are the new developments in the market? Which companies are leading these developments?

Q.9. Who are the major players in this market? What strategic initiatives are key players pursuing for business growth?

Q.10. What are some of the competing products in this market and how big of a threat do they pose for loss of market share by material or product substitution?

Q.11. What M&A activity has occurred in the last 5 years and what has its impact been on the industry?

For any questions related to Rehabilitation Robot Market, Rehabilitation Robot Market Size, Rehabilitation Robot Market Growth, Rehabilitation Robot Market Analysis, Rehabilitation Robot Market Report, Rehabilitation Robot Market Share, Rehabilitation Robot Market Trends, Rehabilitation Robot Market Forecast, Rehabilitation Robot Companies, write Lucintel analyst at email: helpdesk@lucintel.com. We will be glad to get back to you soon.

Contents

1. EXECUTIVE SUMMARY

2. GLOBAL REHABILITATION ROBOT MARKET : MARKET DYNAMICS

2.1: Introduction, Background, and Classifications

2.2: Supply Chain

2.3: Industry Drivers and Challenges

3. MARKET TRENDS AND FORECAST ANALYSIS FROM 2018 TO 2030

3.1. Macroeconomic Trends (2018-2023) and Forecast (2024-2030)

3.2. Global Rehabilitation Robot Market Trends (2018-2023) and Forecast (2024-2030)

3.3: Global Rehabilitation Robot Market by Type

3.3.1: Therapy Robots

3.3.2: Exoskeleton

3.4: Global Rehabilitation Robot Market by Extremity

3.4.1: Upper Body

3.4.2: Lower Body

3.5: Global Rehabilitation Robot Market by End Use

3.5.1: Hospitals & Clinics

3.5.2: Senior care facilities

3.5.3: Homecare Settings

3.5.4: Others

4. MARKET TRENDS AND FORECAST ANALYSIS BY REGION FROM 2018 TO 2030

4.1: Global Rehabilitation Robot Market by Region

4.2: North American Rehabilitation Robot Market

4.2.1: North American Rehabilitation Robot Market by Type: Therapy Robots and Exoskeleton

4.2.2: North American Rehabilitation Robots Market by End Use: Hospitals & Clinics, Senior care facilities, Homecare Settings, and Others

4.3: European Rehabilitation Robot Market

4.3.1: European Rehabilitation Robot Market by Type: Therapy Robots and Exoskeleton

4.3.2: European Rehabilitation Robots Market by End Use: Hospitals & Clinics, Senior

care facilities, Homecare Settings, and Others

4.4: APAC Rehabilitation Robot Market

4.4.1: APAC Rehabilitation Robot Market by Type: Therapy Robots and Exoskeleton

4.4.2: APAC Rehabilitation Robots Market by End Use: Hospitals & Clinics, Senior care facilities, Homecare Settings, and Others

4.5: ROW Rehabilitation Robot Market

4.5.1: ROW Rehabilitation Robot Market by Type: Therapy Robots and Exoskeleton

4.5.2: ROW Rehabilitation Robots Market by End Use: Hospitals & Clinics, Senior care facilities, Homecare Settings, and Others

5. COMPETITOR ANALYSIS

5.1: Product Portfolio Analysis

5.2: Operational Integration

5.3: Porter's Five Forces Analysis

6. GROWTH OPPORTUNITIES AND STRATEGIC ANALYSIS

6.1: Growth Opportunity Analysis

6.1.1: Growth Opportunities for the Global Rehabilitation Robot Market by Type

6.1.2: Growth Opportunities for the Global Rehabilitation Robot Market by Extremity

6.1.3: Growth Opportunities for the Global Rehabilitation Robot Market by End Use

6.1.4: Growth Opportunities for the Global Rehabilitation Robots Market by Region

6.2: Emerging Trends in the Global Rehabilitation Robot Market

6.3: Strategic Analysis

6.3.1: New Product Development

6.3.2: Capacity Expansion of the Global Rehabilitation Robot Market

6.3.3: Mergers, Acquisitions, and Joint Ventures in the Global Rehabilitation Robot Market

6.3.4: Certification and Licensing

7. COMPANY PROFILES OF LEADING PLAYERS

7.1: Tyromotion

7.2: Life Science Robotics

7.3: Hocoma

7.4: Rex Bionics

7.5: Kinova

7.6: Rehab-Robotics

- 7.7: ReWalk Robotics
- 7.8: Ekso Bionics Holdings
- 7.9: Cyberdyne
- 7.10: Bionik Laboratories
