Rolling Stock Trends and Forecast

The future of the global rolling stock market looks promising with opportunities in the rail freight and rail passenger markets. The global rolling stock market is expected to reach an estimated \$76.8 billion by 2030 with a CAGR of 4.8% from 2024 to 2030. The major drivers for this market are ongoing infrastructural development of railroads, expanding use of cutting-edge digital solutions among railways, and rising inclination towards railway travel.

A more than 150-page report is developed to help in your business decisions. Sample figures with some insights are shown below.

Rolling Stock by Segment

The study includes a forecast for the global rolling stock by product, type, train type, and region.

Rolling Stock Market by Product [Shipment Analysis by Value from 2018 to 2030]:

Locomotive

Rapid Transport

Wagon

Rolling Stock Market by Type [Shipment Analysis by Value from 2018 to 2030]:

Diesel

Electric

Rolling Stock Market by Train Type [Shipment Analysis by Value from 2018 to 2030]:

Rail Freight

Rail Passenger

Rolling Stock Market by Region [Shipment Analysis by Value from 2018 to 2030]:

North America

Europe

Asia Pacific

The Rest of the World

List of Rolling Stock Companies

Companies in the market compete on the basis of product quality offered. Major players in this market focus on expanding their manufacturing facilities, R&D investments, infrastructural development, and leverage integration opportunities across the value chain. With these strategies rolling stock companies cater increasing demand, ensure competitive effectiveness, develop innovative products & technologies, reduce production costs, and expand their customer base. Some of the rolling stock companies profiled in this report include-

CRRC Corporation

Trinity Rail

Alstom Transport

GE Transportation

Siemens Mobility

Stadler Rail

Hitachi Rail System

The Greenbrier

Hyundai Rotem

Kawasaki Heavy Industries

Rolling Stock Market Insights

Lucintel forecasts that wagon will remain the largest segment over the forecast period.

Within this market, rail freight will remain larger segment over the forecast period.

APAC will remain the largest region over the forecast period.

Features of the Global Rolling Stock Market

Market Size Estimates: Rolling stock market size estimation in terms of value (\$B).

Trend and Forecast Analysis: Market trends (2018 to 2023) and forecast (2024 to 2030) by various segments and regions.

Segmentation Analysis: Rolling stock market size by product, type, train type, and region in terms of value (\$B).

Regional Analysis: Rolling stock market breakdown by North America, Europe, Asia Pacific, and Rest of the World.

Growth Opportunities: Analysis of growth opportunities in different products, types, train types, and regions for the rolling stock market.

Strategic Analysis: This includes M&A, new product development, and competitive landscape of the rolling stock market.

Analysis of competitive intensity of the industry based on Porter's Five Forces model.

FAQ

Q1. What is the rolling stock market size?

Answer: The global rolling stock market is expected to reach an estimated \$76.8 billion by 2030.

Q2. What is the growth forecast for rolling stock market?

Answer: The global rolling stock market is expected to grow with a CAGR of 4.8% from 2024 to 2030.

Q3. What are the major drivers influencing the growth of the rolling stock market?

Answer: The major drivers for this market are ongoing infrastructural development of railroads, expanding use of cutting-edge digital solutions among railways, and rising inclination towards railway travel.

Q4. What are the major segments for rolling stock market?

Answer: The future of the rolling stock market looks promising with opportunities in the rail freight and rail passenger markets.

Q5. Who are the key rolling stock market companies?

Answer: Some of the key rolling stock companies are as follows:

CRRC Corporation

Trinity Rail

Alstom Transport

GE Transportation

Siemens Mobility

Stadler Rail

Hitachi Rail System

The Greenbrier

Hyundai Rotem

Kawasaki Heavy Industries

Q6. Which rolling stock market segment will be the largest in future?

Answer: Lucintel forecasts that wagon will remain the largest segment over the forecast period.

Q7. In rolling stock market, which region is expected to be the largest in next 5 years?

Answer: APAC will remain the largest region over the forecast period.

Q.8 Do we receive customization in this report?

Answer: Yes, Lucintel provides 10% customization without any additional cost.

This report answers following 11 key questions:

Q.1. What are some of the most promising, high-growth opportunities for the rolling stock market by product (locomotive, rapid transport, and wagon), type (diesel and electric), train type (rail freight and rail passenger), and region (North America, Europe, Asia Pacific, and the Rest of the World)?

Q.2. Which segments will grow at a faster pace and why?

Q.3. Which region will grow at a faster pace and why?

Q.4. What are the key factors affecting market dynamics? What are the key challenges and business risks in this market?

Q.5. What are the business risks and competitive threats in this market?

Q.6. What are the emerging trends in this market and the reasons behind them?

Q.7. What are some of the changing demands of customers in the market?

Q.8. What are the new developments in the market? Which companies are leading these developments?

Q.9. Who are the major players in this market? What strategic initiatives are key players pursuing for business growth?

Q.10. What are some of the competing products in this market and how big of a threat do they pose for loss of market share by material or product substitution?
