Abstracts

In Progress. Get it in 2 to 4 weeks by ordering today

The future of the global semiconductor encapsulants market looks promising with opportunities in the consumer electronics, transportation, healthcare, and energy & power industries. The semiconductor encapsulants market is expected to decline in 2020 due to global economic recession led by COVID-19. However, market will witness recovery in the year 2021 and it is expected to grow with a CAGR of 5% to 6% from 2020 to 2025. The major growth driver for this market is growth of the semiconductor industry.

A total of XX figures / charts and XX tables are provided in more than 150 pages report is developed to help in your business decisions. Sample figures with some insights are shown below. To learn the scope of, benefits, companies researched and other details of global semiconductor encapsulants market report download the report brochure.

semiconductor encapsulants

Growth in various segments of the semiconductor encapsulants market are given below

semiconductor encapsulants

The study includes trends and forecast for the global semiconductor encapsulants market by types, chemistry, curing type, end use industry, and region as follows:

By Chemistry [\$M shipment analysis for 2014 – 2025]:

Epoxy Silicone Urethane Others

By Curing Type [\$M shipment analysis for 2014 – 2025]:

Room TemperatureHeat TemperatureUV

By End Use Industry [\$M shipment analysis for 2014 – 2025]:

Consumer ElectronicsTransportationHealthcareEnergy & PowerOthers

By Region [\$M shipment analysis for 2014 – 2025]:

North AmericaUnited StatesCanadaMexicoEuropeGermanyUKItalyAsia
PacificChinaJapanIndiaSouth KoreaRest of the World

Some of the semiconductor encapsulants manufacturers profiled in this report include, Dow Corning, Henkel, LORD Corporation, Shin-Etsu Chemicals, and H.B. Fuller.

In this market, epoxy, silicone, and urethane are major resin used to manufacture encapsulant.

Within this market, consumer electronics will remain the largest application over the forecast period due to growth of the electronics industry.

Asia-Pacific will remain the largest region and it is also expected to witness the highest growth over the forecast period due to growth of consumer electronics and transportation industries.

Features of the Global Semiconductor Encapsulants Market

Market size estimates: global semiconductor encapsulants market size estimation in terms of value (\$M) shipment.Trend and forecast analysis: Market trend (2014-2019) and forecast (2020-2025) by various segments and regions.Segmentation analysis: Market size by various segments such as by chemistry, curing type, end use industry, and regionRegional analysis: Global semiconductor encapsulants market breakdown by North America, Europe, Asia Pacific, and the Rest of the World.Growth opportunities: Analysis on growth opportunities in different types, chemistry, curing type, end use industry and regions for global semiconductor encapsulants market.Strategic analysis: This includes M&A, new product development, and competitive landscape of the global semiconductor encapsulants market.Analysis of competitive intensity of the industry based on Porter's Five Forces model.

This report answers following 11 key questions

Q.1 What are some of the most promising potential, high-growth opportunities for the global semiconductor encapsulants market by chemistry (epoxy, silicone, urethane, and others), curing type (room temperature, heat temperature, and UV), end use industry (consumer electronics, transportation, healthcare, energy & power, and others), and region (North America, Europe, Asia Pacific (APAC), and Rest of the World (ROW)?

Q. 2 Which segments will grow at a faster pace and why?

Q.3 Which regions will grow at a faster pace and why?

Q.4 What are the key factors affecting market dynamics? What are the drivers and challenges of the market?

Q.5 What are the business risks and threats to the global semiconductor encapsulants market?

Q.6 What are emerging trends in global semiconductor encapsulants market and the reasons behind them?

Q.7 What are some changing demands of customers in the global semiconductor encapsulants market?

Q.8 What are the new developments in the semiconductor encapsulants market? Which companies are leading these developments?

Q.9 Who are the major players in this global semiconductor encapsulants market? What strategic initiatives are being implemented by key players for business growth?

Q.10 What are some of the competitive products and processes in this global semiconductor encapsulants market, and how big of a threat do they pose for loss of market share via material or product substitution?

Q.11 What M & A activities did take place in the last five years in this, global semiconductor encapsulants market?

Contents

1. EXECUTIVE SUMMARY

2. MARKET BACKGROUND AND CLASSIFICATION

2.1: Introduction, Background, and Classification

2.2: Supply Chain

2.3: Industry Drivers and Challenges

3. MARKET TRENDS AND FORECAST ANALYSIS FROM 2014 T 2025

3.1: Macroeconomic Trends and Forecast

3.2: Global Semiconductor Encapsulants Market Trends and Forecast

3.3: Global Semiconductor Encapsulants Market by Chemistry

3.3.1: Epoxy

3.3.2: Silicone

3.3.3: Urethane

3.3.4: Others

3.4: Global Semiconductor Encapsulants Market by Curing Type

3.4.1: Room Temperature

3.4.2: Heat Temperature

3.4.3: UV

3.5: Global Semiconductor Encapsulants Market By End Use Industry

3.5.1: Consumer Electronics

3.5.2: Transportation

3.5.3: Medical

3.5.4: Energy & Power

3.5.5: Others

4. MARKET TRENDS AND FORECAST ANALYSIS BY REGION

4.1: Global Semiconductor Encapsulants Market by Region

4.2: North American Semiconductor Encapsulants Market

4.2.1: Market by Chemistry: Epoxy, Silicone, Urethane, and Others

4.2.2: Market by Curing Type: Room Temperature, Heat Temperature, and UV

4.2.3: Market by End-Use Industry: Consumer Electronics, Transportation, Medical, Energy & Power, and Others

4.2.4: United States Semiconductor Encapsulants Market

- 4.2.5: Canadian Semiconductor Encapsulants Market
- 4.2.6: Mexican Semiconductor Encapsulants Market
- 4.3: European Semiconductor Encapsulants Market
 - 4.3.1: Market by Chemistry: Epoxy, Silicone, Urethane, and Others
 - 4.3.2: Market by Curing Type: Room Temperature, Heat Temperature, and UV
 - 4.3.3: Market by End-Use Industry: Consumer Electronics, Transportation, Medical, Energy & Power, and Others
 - 4.3.4: UK Semiconductor Encapsulants Market
 - 4.3.5: Italy Semiconductor Encapsulants Market
 - 4.3.6: German Semiconductor Encapsulants Market
- 4.4: APAC Semiconductor Encapsulants Market
 - 4.4.1: Market by Chemistry: Epoxy, Silicone, Urethane, and Others
 - 4.4.2: Market by Curing Type: Room Temperature, Heat Temperature, and UV
 - 4.4.3: Market by End-Use Industry: Consumer Electronics, Transportation, Medical, Energy & Power, and Others
 - 4.4.4: China Semiconductor Encapsulants Market
 - 4.4.5: Japan Semiconductor Encapsulants Market
 - 4.4.6: South Korea Semiconductor Encapsulants Market
 - 4.4.7: India Semiconductor Encapsulants Market
- 4.5: ROW Semiconductor Encapsulants Market
 - 4.5.1: Market by Chemistry: Epoxy, Silicone, Urethane, and Others
 - 4.5.2: Market by Curing Type: Room Temperature, Heat Temperature, and UV
 - 4.5.3: Market by End-Use Industry: Consumer Electronics, Transportation, Medical, Energy & Power, and Others

5. COMPETITOR ANALYSIS

- 5.1: Product Portfolio Analysis
- 5.2: Market Share Analysis
- 5.3: Operational Integration
- 5.4: Geographical Reach
- 5.5: Porter's Five Forces Analysis

6. GROWTH OPPORTUNITIES AND STRATEGIC ANALYSIS

- 6.1: Growth Opportunity Analysis
 - 6.1.1: Growth Opportunities for Semiconductor Encapsulants Market by Chemistry
 - 6.1.2: Growth Opportunities for Semiconductor Encapsulants Market by Curing Type
 - 6.1.3: Growth Opportunities for Semiconductor Encapsulants Market by End-Use

Industry

6.1.4: Growth Opportunities for Semiconductor Encapsulants Market Region

6.2: Emerging Trends in the Global Semiconductor Encapsulants Market

6.3: Strategic Analysis

6.3.1: New Product Development

6.3.2: Capacity Expansion of Global Semiconductor Encapsulants Market

6.3.3: Mergers, Acquisitions and Joint Ventures in the Global Semiconductor Encapsulants Market

6.3.4: Certification and Licensing

7. COMPANY PROFILES OF LEADING PLAYERS

7.1: DOW

7.2: Henkel

7.3: LORD Corporation

7.4: Shin-Etsu Chemicals

7.5: H.B. Fuller

I would like to order

Product name: Semiconductor Encapsulants Market

Product link: <https://marketpublishers.com/r/S4EFC1970142EN.html>

Price: US\$ 4,850.00 (Single User License / Electronic Delivery)

If you want to order Corporate License or Hard Copy, please, contact our Customer Service:

info@marketpublishers.com

Payment

To pay by Credit Card (Visa, MasterCard, American Express, PayPal), please, click button on product page <https://marketpublishers.com/r/S4EFC1970142EN.html>

To pay by Wire Transfer, please, fill in your contact details in the form below:
