

Single-Photon Emission Computed Tomography (SPECT) Market Report: Trends, Forecast and Competitive Analysis to 2030

<https://marketpublishers.com/r/S37A44C3E037EN.html>

Date: September 2023

Pages: 150

Price: US\$ 4,850.00 (Single User License)

ID: S37A44C3E037EN

Abstracts

It will take 2-3 business days to deliver the report upon receipt the order if any customization is not there.

Single-Photon Emission Computed Tomography (SPECT) Trends and Forecast

The future of the global single-photon emission computed tomography (SPECT) market looks promising with opportunities in the hospital, diagnostic imaging center, and ambulatory surgical center markets. The global single-photon emission computed tomography (SPECT) market is expected to reach an estimated \$10.5 billion by 2030 with a CAGR of 10.0% from 2024 to 2030. The major drivers for this market are rapid growth in healthcare industry, rising prevalence of chronic diseases, including malignancies and cardiovascular, and increasing preference for dual-modality and organ-specific systems.

A more than 150-page report is developed to help in your business decisions. Sample figures with some insights are shown below.

Single-Photon Emission Computed Tomography (SPECT) by Segment

The study includes a forecast for the global single-photon emission computed tomography (SPECT) by product, application, end use, and region.

Single-Photon Emission Computed Tomography (SPECT) Market by Product [Shipment Analysis by Value from 2018 to 2030]:

Standalone SPECT

Hybrid SPECT

Single-Photon Emission Computed Tomography (SPECT) Market by Application
[Shipment Analysis by Value from 2018 to 2030]:

Cardiology

Oncology

General Imaging

Neurology

Others

Single-Photon Emission Computed Tomography (SPECT) Market by End Use
[Shipment Analysis by Value from 2018 to 2030]:

Hospitals

Diagnostic Imaging Centers

Ambulatory Surgical Centers

Others

Single-Photon Emission Computed Tomography (SPECT) Market by Region [Shipment
Analysis by Value from 2018 to 2030]:

North America

Europe

Asia Pacific

The Rest of the World

List of Single-Photon Emission Computed Tomography (SPECT) Companies

Companies in the market compete on the basis of product quality offered. Major players in this market focus on expanding their manufacturing facilities, R&D investments, infrastructural development, and leverage integration opportunities across the value chain. With these strategies single-photon emission computed tomography (SPECT) companies cater increasing demand, ensure competitive effectiveness, develop innovative products & technologies, reduce production costs, and expand their customer base. Some of the single-photon emission computed tomography (SPECT) companies profiled in this report include-

Siemens Healthineers

Bruker

Toshiba Medical

Digirad

Esaote

Invicro

GE Healthcare

Single-Photon Emission Computed Tomography (SPECT) Market Insights

Lucintel forecasts that standalone SPECT is expected to witness higher growth over the forecast period due to its significant use in the cancer and cardiovascular divisions.

Within this market, hospital will remain the largest segment due to growing numbers of patients being admitted to hospitals and rising adoption of SPECT equipment for diagnosis in this facility.

North America is expected to witness highest growth over the forecast period due to

existence of geriatric population and increasing number of patients with heart and cancer disease in the region.

Features of the Global Single-Photon Emission Computed Tomography (SPECT) Market

Market Size Estimates: Single-photon emission computed tomography (SPECT) market size estimation in terms of value (\$B).

Trend and Forecast Analysis: Market trends (2018 to 2023) and forecast (2024 to 2030) by various segments and regions.

Segmentation Analysis: Single-photon emission computed tomography (SPECT) market size by various segments, such as by application, end use, and region in terms of value (\$B).

Regional Analysis: Single-photon emission computed tomography (SPECT) market breakdown by North America, Europe, Asia Pacific, and Rest of the World.

Growth Opportunities: Analysis of growth opportunities in different applications, end uses, and regions for the single-photon emission computed tomography (SPECT) market.

Strategic Analysis: This includes M&A, new product development, and competitive landscape of the single-photon emission computed tomography (SPECT) market.

Analysis of competitive intensity of the industry based on Porter's Five Forces model.

FAQ

Q.1 What is the single-photon emission computed tomography (SPECT) market size?

Answer: The global single-photon emission computed tomography (SPECT) market is expected to reach an estimated \$10.5 billion by 2030.

Q.2 What is the growth forecast for single-photon emission computed tomography (SPECT) market?

Answer: The global single-photon emission computed tomography (SPECT) market is

expected to grow with a CAGR of 10.0% from 2024 to 2030.

Q.3 What are the major drivers influencing the growth of the single-photon emission computed tomography (SPECT) market?

Answer: The major drivers for this market are rapid growth in healthcare industry, rising prevalence of chronic diseases, including malignancies and cardiovascular, and increasing preference for dual-modality and organ-specific systems.

Q4. What are the major segments for single-photon emission computed tomography (SPECT) market?

Answer: The future of the single-photon emission computed tomography (SPECT) market looks promising with opportunities in the hospital, diagnostic imaging center, and ambulatory surgical center markets.

Q5. Who are the key single-photon emission computed tomography (SPECT) market companies?

Answer: Some of the key single-photon emission computed tomography (SPECT) companies are as follows:

Siemens Healthineers

Bruker

Toshiba Medical

Digirad

Esaote

Invicro

GE Healthcare

Q6. Which single-photon emission computed tomography (SPECT) market segment will be the largest in future?

Answer: Lucintel forecasts that standalone SPECT is expected to witness higher growth over the forecast period due to its significant use in the cancer and cardiovascular divisions.

Q7. In single-photon emission computed tomography (SPECT) market, which region is expected to be the largest in next 5 years?

Answer: North America is expected to witness highest growth over the forecast period due to existence of geriatric population and increasing number of patients with heart and cancer disease in the region.

Q.8 Do we receive customization in this report?

Answer: Yes, Lucintel provides 10% customization without any additional cost.

This report answers following 11 key questions:

Q.1. What are some of the most promising, high-growth opportunities for the single-photon emission computed tomography (SPECT) market by product (standalone SPECT and hybrid SPECT), application (cardiology, oncology, general imaging, neurology, and others), end use (hospitals, diagnostic imaging centers, ambulatory surgical centers, and others) and region (North America, Europe, Asia Pacific, and the Rest of the World)?

Q.2. Which segments will grow at a faster pace and why?

Q.3. Which region will grow at a faster pace and why?

Q.4. What are the key factors affecting market dynamics? What are the key challenges and business risks in this market?

Q.5. What are the business risks and competitive threats in this market?

Q.6. What are the emerging trends in this market and the reasons behind them?

Q.7. What are some of the changing demands of customers in the market?

Q.8. What are the new developments in the market? Which companies are leading

these developments?

Q.9. Who are the major players in this market? What strategic initiatives are key players pursuing for business growth?

Q.10. What are some of the competing products in this market and how big of a threat do they pose for loss of market share by material or product substitution?

Q.11. What M&A activity has occurred in the last 5 years and what has its impact been on the industry?

For any questions related to Single-Photon Emission Computed Tomography (Spect) Market, Single-Photon Emission Computed Tomography (Spect) Market Size, Single-Photon Emission Computed Tomography (Spect) Market Growth, Single-Photon Emission Computed Tomography (Spect) Market Analysis, Single-Photon Emission Computed Tomography (Spect) Market Report, Single-Photon Emission Computed Tomography (Spect) Market Share, Single-Photon Emission Computed Tomography (Spect) Market Trends, Single-Photon Emission Computed Tomography (Spect) Market Forecast, Single-Photon Emission Computed Tomography (Spect) Companies, write Lucintel analyst at email: helpdesk@lucintel.com. We will be glad to get back to you soon.

Contents

1. EXECUTIVE SUMMARY

2. GLOBAL SINGLE-PHOTON EMISSION COMPUTED TOMOGRAPHY (SPECT) MARKET : MARKET DYNAMICS

2.1: Introduction, Background, and Classifications

2.2: Supply Chain

2.3: Industry Drivers and Challenges

3. MARKET TRENDS AND FORECAST ANALYSIS FROM 2018 TO 2030

3.1. Macroeconomic Trends (2018-2023) and Forecast (2024-2030)

3.2. Global Single-Photon Emission Computed Tomography (SPECT) Market Trends (2018-2023) and Forecast (2024-2030)

3.3: Global Single-Photon Emission Computed Tomography (SPECT) Market by Product

3.3.1: Standalone SPECT

3.3.2: Hybrid SPECT

3.4: Global Single-Photon Emission Computed Tomography (SPECT) Market by Application

3.4.1: Cardiology

3.4.2: Oncology

3.4.3: General Imaging

3.4.4: Neurology

3.4.5: Others

3.5: Global Single-Photon Emission Computed Tomography (SPECT) Market by End Use

3.5.1: Hospitals

3.5.2: Diagnostic Imaging Centers

3.5.3: Ambulatory Surgical Centers

3.5.4: Others

4. MARKET TRENDS AND FORECAST ANALYSIS BY REGION FROM 2018 TO 2030

4.1: Global Single-Photon Emission Computed Tomography (SPECT) Market by Region

4.2: North American Single-Photon Emission Computed Tomography (SPECT) Market

4.2.2: North American Single-Photon Emission Computed Tomography (SPECT) Market by End Use: Hospitals, Diagnostic Imaging Centers, Ambulatory Surgical Centers, and Others

4.3: European Single-Photon Emission Computed Tomography (SPECT) Market

4.3.1: European Single-Photon Emission Computed Tomography (SPECT) Market by Product: Standalone SPECT and Hybrid SPECT

4.3.2: European Single-Photon Emission Computed Tomography (SPECT) Market by End Use: Hospitals, Diagnostic Imaging Centers, Ambulatory Surgical Centers, and Others

4.4: APAC Single-Photon Emission Computed Tomography (SPECT) Market

4.4.1: APAC Single-Photon Emission Computed Tomography (SPECT) Market by Product: Standalone SPECT and Hybrid SPECT

4.4.2: APAC Single-Photon Emission Computed Tomography (SPECT) Market by End Use: Hospitals, Diagnostic Imaging Centers, Ambulatory Surgical Centers, and Others

4.5: ROW Single-Photon Emission Computed Tomography (SPECT) Market

4.5.1: ROW Single-Photon Emission Computed Tomography (SPECT) Market by Product: Standalone SPECT and Hybrid SPECT

4.5.2: ROW Single-Photon Emission Computed Tomography (SPECT) Market by End Use: Hospitals, Diagnostic Imaging Centers, Ambulatory Surgical Centers, and Others

5. COMPETITOR ANALYSIS

5.1: Product Portfolio Analysis

5.2: Operational Integration

5.3: Porter's Five Forces Analysis

6. GROWTH OPPORTUNITIES AND STRATEGIC ANALYSIS

6.1: Growth Opportunity Analysis

6.1.1: Growth Opportunities for the Global Single-Photon Emission Computed Tomography (SPECT) Market by Product

6.1.2: Growth Opportunities for the Global Single-Photon Emission Computed Tomography (SPECT) Market by Application

6.1.3: Growth Opportunities for the Global Single-Photon Emission Computed Tomography (SPECT) Market by End Use

6.1.4: Growth Opportunities for the Global Single-Photon Emission Computed Tomography (SPECT) Market by Region

6.2: Emerging Trends in the Global Single-Photon Emission Computed Tomography (SPECT) Market

6.3: Strategic Analysis

6.3.1: New Product Development

6.3.2: Capacity Expansion of the Global Single-Photon Emission Computed Tomography (SPECT) Market

6.3.3: Mergers, Acquisitions, and Joint Ventures in the Global Single-Photon Emission Computed Tomography (SPECT) Market

6.3.4: Certification and Licensing

7. COMPANY PROFILES OF LEADING PLAYERS

7.1: Siemens Healthineers

7.2: Bruker

7.3: Toshiba Medical

7.4: Digirad

7.5: Esaote

7.6: Invicro

7.7: GE Healthcare
