Soup Trends and Forecast

The future of the global soup market looks promising with opportunities in the vegetarian soup and non-vegetarian soup markets. The global soup market is expected to reach an estimated \$16.8 billion by 2030 with a CAGR of 2.5% from 2024 to 2030. The major drivers for this market are growing inclination towards quick food, increasing knowledge of soups' health benefits, and rising propensity to consume nutritious food items.

A more than 150-page report is developed to help in your business decisions. Sample figures with some insights are shown below.
