Specialty Chemical Trends and Forecast

The future of the global specialty chemical market looks promising with opportunities in the food & feed additive, agrochemical, flavor & fragrance, dyes & pigment, water treatment chemical, personal care active ingredient, surfactant, and construction chemical markets. The global specialty chemical market is expected to reach an estimated \$967.1 billion by 2030 with a CAGR of 4.9% from 2024 to 2030. The major drivers for this market are growing demand for environmentally friendly or biologically sourced specialty chemicals, increasing consumer interest within the personal hygiene sector, and rising consumer inclination towards unique flavors and scents in food items.

A more than 150-page report is developed to help in your business decisions. Sample figures with some insights are shown below.

Specialty Chemical by Segment

The study includes a forecast for the global specialty chemical by product and region.

Specialty Chemical Market by Product [Shipment Analysis by Value from 2018 to 2030]:

Food & Feed Additives

Agrochemicals

Flavor & Fragrances

Dyes & Pigments

Water Treatment Chemicals

Personal Care Active Ingredients

Surfactants

Construction Chemicals

Specialty Chemical Market by Region [Shipment Analysis by Value from 2018 to 2030]:

North America

Europe

Asia Pacific

The Rest of the World

List of Specialty Chemical Companies

Companies in the market compete on the basis of product quality offered. Major players in this market focus on expanding their manufacturing facilities, R&D investments, infrastructural development, and leverage integration opportunities across the value chain. With these strategies specialty chemical companies cater increasing demand, ensure competitive effectiveness, develop innovative products & technologies, reduce production costs, and expand their customer base. Some of the specialty chemical companies profiled in this report include-

3M

Akzo Nobel

Huntsman International

Dupont

Clariant

Solvay

Lanxess

Specialty Chemical Market Insights

Lucintel forecasts that agrochemicals will remain the largest segment over the forecast period due to increasing global food consumption along with declining per capita agricultural land.

APAC will remain the largest region over the forecast period because of existence of major expanding economies within this geographic area, including China, Japan, India, and South Korea, as well as expansion of key end-user industries in the region.

Features of the Global Specialty Chemical Market

Market Size Estimates: Specialty chemical market size estimation in terms of value (\$B).

Trend and Forecast Analysis: Market trends (2018 to 2023) and forecast (2024 to 2030) by various segments and regions.

Segmentation Analysis: Specialty chemical market size by product and region in terms of value (\$B).

Regional Analysis: Specialty chemical market breakdown by North America, Europe, Asia Pacific, and Rest of the World.

Growth Opportunities: Analysis of growth opportunities in different products and regions for the specialty chemical market.

Strategic Analysis: This includes M&A, new product development, and competitive landscape of the specialty chemical market.

Analysis of competitive intensity of the industry based on Porter's Five Forces model.

FAQ

Q.1 What is the specialty chemical market size?

Answer: The global specialty chemical market is expected to reach an estimated \$967.1 billion by 2030.

Q.2 What is the growth forecast for specialty chemical market?

Answer: The global specialty chemical market is expected to grow with a CAGR of 4.9% from 2024 to 2030.

Q.3 What are the major drivers influencing the growth of the specialty chemical market?

Answer: The major drivers for this market are growing demand for environmentally friendly or biologically sourced specialty chemicals, increasing consumer interest within the personal hygiene sector, and rising consumer inclination towards unique flavors and scents in food items.

Q4. What are the major segments for specialty chemical market?

Answer: The future of the specialty chemical market looks promising with opportunities in the food & feed additive, agrochemical, flavor & fragrance, dyes & pigment, water treatment chemical, personal care active ingredient, surfactant, and construction chemical markets.

Q5. Who are the key specialty chemical market companies?

Answer: Some of the key specialty chemical companies are as follows:

3M

Akzo Nobel

Huntsman International

DuPont

Clariant

Solvay

Lanxess

Q6. Which specialty chemical market segment will be the largest in future?

Answer: Lucintel forecasts that agrochemicals will remain the largest segment over the forecast period due to increasing global food consumption along with declining per capita agricultural land.

Q7. In specialty chemical market, which region is expected to be the largest in next 5 years?

Answer: APAC will remain the largest region over the forecast period because of existence of major expanding economies within this geographic area, including China, Japan, India, and South Korea, as well as expansion of key end-user industries in the region.

Q.8 Do we receive customization in this report?

Answer: Yes, Lucintel provides 10% customization without any additional cost.

This report answers following 11 key questions:

Q.1. What are some of the most promising, high-growth opportunities for the specialty chemical market by product (food & feed additives, agrochemicals, flavor & fragrances, dyes & pigments, water treatment chemicals, personal care active ingredients, surfactants, construction chemicals), and region (North America, Europe, Asia Pacific, and the Rest of the World)?

Q.2. Which segments will grow at a faster pace and why?

Q.3. Which region will grow at a faster pace and why?

Q.4. What are the key factors affecting market dynamics? What are the key challenges and business risks in this market?

Q.5. What are the business risks and competitive threats in this market?

Q.6. What are the emerging trends in this market and the reasons behind them?

Q.7. What are some of the changing demands of customers in the market?

Q.8. What are the new developments in the market? Which companies are leading these developments?

Q.9. Who are the major players in this market? What strategic initiatives are key players pursuing for business growth?

Q.10. What are some of the competing products in this market and how big of a threat do they pose for loss of market share by material or product substitution?

Q.11. What M&A activity has occurred in the last 5 years and what has its impact been on the industry?
