### Spray Dryer Market Trends and Forecast

The future of the global spray dryer market looks promising with opportunities in the food & dairy, pharmaceutical, and chemical markets. The global spray dryer market is expected to reach an estimated \$6.6 billion by 2028 with a CAGR of 5% from 2023 to 2028. The major drivers for this market are growing demand for ready-to-cook products and processed food products and increasing application in the pharmaceutical and nutraceutical industries.

A more than 150-page report is developed to help in your business decisions. Sample figures with some insights are shown below.

### Spray Dryer Market by Segment

The study includes a forecast for the global spray dryer market by product type, flow type, drying stage, application, and region, as follows:

Spray Dryer Market by Product Type [Value (\$B) Shipment Analysis from 2017 to 2028]:

Rotary Atomizer

Nozzle Atomizer

Fluidized

Closed Loop

Centrifugal

Spray Dryer Market by Flow Type [Value (\$B) Shipment Analysis from 2017 to 2028]:

Co-Current

Counter-Current

Mixed Flow

Spray Dryer Market by Drying Stage [Value (\$B) Shipment Analysis from 2017 to 2028]:

Single Stage

Multi Stage

Spray Dryer Market by Application [Value (\$B) Shipment Analysis from 2017 to 2028]:

Food & Dairy

Pharmaceutical

Chemical

Others

Spray Dryer Market by Region [Value (\$B) Shipment Analysis from 2017 to 2028]:

North America

Europe

Asia Pacific

The Rest of the World

## List of Spray Dryer Companies

Companies in the market compete on the basis of product quality offered. Major players in this market focus on expanding their manufacturing facilities, R&D investments, infrastructural development, and leverage integration opportunities across the value chain. With these strategies spray dryer companies cater to increasing demand, ensure competitive effectiveness, develop innovative products & technologies, reduce production costs, and expand their customer base. Some of the spray dryer companies profiled in this report include.

European Spray Dry Technology

Dedert Corporation

Advanced Drying Systems

Transparent Technologies

Larsson Starch Technology

Tetra Pak International

GEA Group

## Spray Dryer Market Insights

Lucintel forecasts that nozzle atomizer will remain the largest segment over the forecast period because it helps in producing coarser and free-flowing powders.

Food & dairy is expected to remain the largest segment due to the growing demand of this equipment in manufacturing coffee powder, egg powder, and infant powders.

APAC will remain the largest region due to the increasing demand from pharmaceutical and food & beverages industries in the region.

## Features of the Spray Dryer Market

**Market Size Estimates:** Spray dryer market size estimation in terms of value (\$B)

**Trend And Forecast Analysis:** Market trends (2017-2022) and forecast (2023-2028) by various segments and regions.

**Segmentation Analysis:** Spray dryer market size by various segments, such as by product type, flow type, drying stage, application, and region

**Regional Analysis:** Spray dryer market breakdown by North America, Europe, Asia Pacific, and the Rest of the World.

**Growth Opportunities:** Analysis on growth opportunities in different by product type, flow type, drying stage, application, and regions for the spray dryer market.

**Strategic Analysis:** This includes M&A, new product development, and competitive landscape for the spray dryer market.

**Analysis of competitive intensity of the industry based on Porter's Five Forces model.**

## FAQ

Q1. What is the spray dryer market size?

Answer: The global spray dryer market is expected to reach an estimated \$6.6 billion by 2028.

Q2. What is the growth forecast for spray dryer market?

Answer: The global spray dryer market is expected to grow with a CAGR of 5% from 2023 to 2028.

Q3. What are the major drivers influencing the growth of the spray dryer market?

Answer: The major drivers for this market are growing demand for ready-to-cook products and processed food products and increasing application in the pharmaceutical and nutraceutical industries.

Q4. What are the major segments for spray dryer market?

Answer: The future of the spray dryer market looks promising with opportunities in the food & dairy, pharmaceutical, and chemical markets.

Q5. Who are the key spray dryer companies?

Answer: Some of the key spray dryer companies are as follows:

European Spray Dry Technology

Dedert Corporation

Advanced Drying Systems

Transparent Technologies

Larsson Starch Technology

Tetra Pak International

GEA Group

Q6. Which spray dryer segment will be the largest in future?

Answer: Lucintel forecasts that nozzle atomizer will remain the largest segment over the forecast period because it helps in producing coarser and free-flowing powders.

Q7. In spray dryer market, which region is expected to be the largest in next 5 years?

Answer: APAC will remain the largest region due to the increasing demand from

pharmaceutical and food & beverages industries in the region.

Q8. Do we receive customization in this report?

Answer: Yes, Lucintel provides 10% Customization Without any Additional Cost.

This report answers following 11 key questions

Q.1. What are some of the most promising, high-growth opportunities for the spray dryer market by product type (rotary atomizer, nozzle atomizer, fluidized, closed loop, and centrifugal), flow type (co-current, counter-current, and mixed flow), drying stage (single stage and multi stage), application (food & dairy, pharmaceutical, chemical, and others), and region (North America, Europe, Asia Pacific, and the Rest of the World)?

Q.2. Which segments will grow at a faster pace and why?

Q.3. Which region will grow at a faster pace and why?

Q.4. What are the key factors affecting market dynamics? What are the key challenges and business risks in this market?

Q.5. What are the business risks and competitive threats in this market?

Q.6. What are the emerging trends in this market and the reasons behind them?

Q.7. What are some of the changing demands of customers in the market?

Q.8. What are the new developments in the market? Which companies are leading these developments?

Q.9. Who are the major players in this market? What strategic initiatives are key players pursuing for business growth?

Q.10. What are some of the competing products in this market and how big of a threat do they pose for loss of market share by material or product substitution?

Q.11. What M&A activity has occurred in the last 5 years and what has its impact been on the industry?
