Starch Based Plastic Trends and Forecast

The future of the global starch based plastic market looks promising with opportunities in the automotive and transportation, agriculture, packaging, and consumer good markets. The global starch based plastic market is expected to reach an estimated \$2.5 billion by 2030 with a CAGR of 8.7% from 2024 to 2030. The major drivers for this market are growing use of these plastics in food packaging and rising strict environmental guidelines concerning conventional plastic materials.

A more than 150-page report is developed to help in your business decisions. Sample figures with some insights are shown below.

Starch Based Plastic by Segment

The study includes a forecast for the global starch based plastic by type, end use, and region.

Starch Based Plastic Market by Type [Shipment Analysis by Value from 2018 to 2030]:

Thermoplastic Starch

Starch Polymer Blend

Starch Based Plastic Market by End Use [Shipment Analysis by Value from 2018 to 2030]:

Automotive and Transportation

Agriculture

Packaging

Consumer Goods

Others

Starch Based Plastic Market by Region [Shipment Analysis by Value from 2018 to 2030]:

North America

Europe

Asia Pacific

The Rest of the World

List of Starch Based Plastic Companies

Companies in the market compete on the basis of product quality offered. Major players in this market focus on expanding their manufacturing facilities, R&D investments, infrastructural development, and leverage integration opportunities across the value chain. With these strategies starch based plastic companies cater increasing demand, ensure competitive effectiveness, develop innovative products & technologies, reduce production costs, and expand their customer base. Some of the starch based plastic companies profiled in this report include-

AGRANA BETEILIGUNGS

Kuraray

Rodenburg Biopolymers

Biome Bioplastics

Wittenburg

Nihon Cornstarch

Toray Industries

Corbion

Novamont

BioLogiQ

Starch Based Plastic Market Insights

Lucintel forecasts that thermoplastic starch will remain the larger segment over the forecast period due to its extensive utilization in the production of films, bags, formed protective packaging, loose-fill, antistatic, and disposable dishes and plates.

Within this market, packaging will remain the largest segment due to rising consumer inclinations toward eco-friendly packaging.

Europe will remain the largest region over the forecast period due to presence of state-of-the-art research and development centers and augmenting government regulations with stringent requirements for lowering carbon footprint in the region.

Features of the Global Starch Based Plastic Market

Market Size Estimates: Starch based plastic market size estimation in terms of value (\$B).

Trend and Forecast Analysis: Market trends (2018 to 2023) and forecast (2024 to 2030) by various segments and regions.

Segmentation Analysis: Starch based plastic market size by type, end use, and region in terms of value (\$B).

Regional Analysis: Starch based plastic market breakdown by North America, Europe, Asia Pacific, and Rest of the World.

Growth Opportunities: Analysis of growth opportunities in different types, end uses, and regions for the starch based plastic market.

Strategic Analysis: This includes M&A, new product development, and competitive landscape of the starch based plastic market.

Analysis of competitive intensity of the industry based on Porter's Five Forces model.

FAQ

Q1. What is the starch based plastic market size?

Answer: The global starch based plastic market is expected to reach an estimated \$2.5 billion by 2030.

Q2. What is the growth forecast for starch based plastic market?

Answer: The global starch based plastic market is expected to grow with a CAGR of 8.7% from 2024 to 2030.

Q3. What are the major drivers influencing the growth of the starch based plastic market?

Answer: The major drivers for this market are growing use of these plastics in food packaging and rising strict environmental guidelines concerning conventional plastic materials.

Q4. What are the major segments for starch based plastic market?

Answer: The future of the starch based plastic market looks promising with opportunities in the automotive and transportation, agriculture, packaging, and consumer good markets.

Q5. Who are the key starch based plastic market companies?

Answer: Some of the key starch based plastic companies are as follows:

AGRANA BETEILIGUNGS

Kuraray

Rodenburg Biopolymers

Biome Bioplastics

Wittenburg

Nihon Cornstarch

Toray Industries

Corbion

Novamont

BioLogiQ

Q6. Which starch based plastic market segment will be the largest in future?

Answer: Lucintel forecasts that thermoplastic starch will remain the larger segment over the forecast period due to its extensive utilized in the production of films, bags, formed protective packaging, loose-fill, antistatic, and disposable dishes and plates.

Q7. In starch based plastic market, which region is expected to be the largest in next 5 years?

Answer: Europe will remain the largest region over the forecast period due to presence of state-of-the-art research and development centers and augmenting government regulations with stringent requirements for lowering carbon footprint in the region.

Q.8 Do we receive customization in this report?

Answer: Yes, Lucintel provides 10% customization without any additional cost.

This report answers following 11 key questions:

Q.1. What are some of the most promising, high-growth opportunities for the starch based plastic market by type (thermoplastic starch and starch polymer blend), end use (automotive and transportation, agriculture, packaging, consumer goods, and others), and region (North America, Europe, Asia Pacific, and the Rest of the World)?

Q.2. Which segments will grow at a faster pace and why?

Q.3. Which region will grow at a faster pace and why?

Q.4. What are the key factors affecting market dynamics? What are the key challenges and business risks in this market?

Q.5. What are the business risks and competitive threats in this market?

Q.6. What are the emerging trends in this market and the reasons behind them?

Q.7. What are some of the changing demands of customers in the market?

Q.8. What are the new developments in the market? Which companies are leading these developments?

Q.9. Who are the major players in this market? What strategic initiatives are key players pursuing for business growth?

Q.10. What are some of the competing products in this market and how big of a threat do they pose for loss of market share by material or product substitution?

Q.11. What M&A activity has occurred in the last 5 years and what has its impact been on the industry?
