Stone-Crushing Equipment Trends and Forecast

The future of the global stone-crushing equipment market looks promising with opportunities in the aggregate, mining and metallurgy, and construction markets. The global stone-crushing equipment market is expected to reach an estimated \$9.4 billion by 2030 with a CAGR of 7.2% from 2024 to 2030. The major drivers for this market are growing urbanization infrastructural development and rising demand for construction waste recycling.

A more than 150-page report is developed to help in your business decisions. Sample figures with some insights are shown below.

Stone-Crushing Equipment by Segment

The study includes a forecast for the global stone-crushing equipment by product, end use, and region.

Stone-Crushing Equipment Market by Product [Shipment Analysis by Value from 2018 to 2030]:

Cone Crusher

Jaw Crusher

Impact Crusher

Stone-Crushing Equipment Market by End Use [Shipment Analysis by Value from 2018 to 2030]:

Aggregate

Mining and Metallurgy

Construction

Stone-Crushing Equipment Market by Region [Shipment Analysis by Value from 2018 to 2030]:

North America

Europe

Asia Pacific

The Rest of the World

List of Stone-Crushing Equipment Companies

Companies in the market compete on the basis of product quality offered. Major players in this market focus on expanding their manufacturing facilities, R&D investments, infrastructural development, and leverage integration opportunities across the value chain. With these strategies stone-crushing equipment companies cater increasing demand, ensure competitive effectiveness, develop innovative products & technologies, reduce production costs, and expand their customer base. Some of the stone-crushing equipment companies profiled in this report include-

Sandvik

Terex

Astec

Komatsu

Eagle Crusher Company

ThyssenKrupp

Mesto Oyjand

Stone-Crushing Equipment Market Insights

Lucintel forecasts that jaw crusher is expected to witness the highest growth over the forecast period due to increase in demand for fewer emissions.

Within this market, mining and metallurgy is expected to witness the highest growth due to increasing need for breaking down large rocks into smaller fragments for facilitating the easier extraction of minerals and metals.

APAC will remain the largest region over the forecast period due to large manufacturing units, development of roads and highways, and growing industrialization in countries, such as china, India, and japan.

Features of the Global Stone-Crushing Equipment Market

Market Size Estimates: Stone-crushing equipment market size estimation in terms of value (\$B).

Trend and Forecast Analysis: Market trends (2018 to 2023) and forecast (2024 to 2030) by various segments and regions.

Segmentation Analysis: Stone-crushing equipment market size by product, end use, and region in terms of value (\$B).

Regional Analysis: Stone-crushing equipment market breakdown by North America, Europe, Asia Pacific, and Rest of the World.

Growth Opportunities: Analysis of growth opportunities in different product, end use,

and regions for the stone-crushing equipment market.

Strategic Analysis: This includes M&A, new product development, and competitive landscape of the stone-crushing equipment market.

Analysis of competitive intensity of the industry based on Porter's Five Forces model.

FAQ

Q1. What is the stone-crushing equipment market size?

Answer: The global stone-crushing equipment market is expected to reach an estimated \$9.4 billion by 2030.

Q2. What is the growth forecast for stone-crushing equipment market?

Answer: The global stone-crushing equipment market is expected to grow with a CAGR of 7.2% from 2024 to 2030.

Q3. What are the major drivers influencing the growth of the stone-crushing equipment market?

Answer: The major drivers for this market are growing urbanization infrastructural development and rising demand for construction waste recycling.

Q4. What are the major segments for stone-crushing equipment market?

Answer: The future of the stone-crushing equipment market looks promising with opportunities in the aggregate, mining and metallurgy, and construction markets.

Q5. Who are the key stone-crushing equipment market companies?

Answer: Some of the key stone-crushing equipment companies are as follows:

Sandvik

Terex

Astec

Komatsu

Eagle Crusher Company

ThyssenKrupp

Mesto Oyjand

Q6. Which stone-crushing equipment market segment will be the largest in future?

Answer: Lucintel forecasts that jaw crusher is expected to witness the highest growth over the forecast period due to increase in demand for fewer emissions.

Q7. In stone-crushing equipment market, which region is expected to be the largest in next 5 years?

Answer: APAC will remain the largest region over the forecast period due to large manufacturing units, development of roads and highways, and growing industrialization in countries, such as china, India, and japan.

Q.8 Do we receive customization in this report?

Answer: Yes, Lucintel provides 10% customization without any additional cost.

This report answers following 11 key questions:

Q.1. What are some of the most promising, high-growth opportunities for the stone-crushing equipment market by product (cone crusher , jaw crusher, and impact crusher), end use (aggregate, mining and metallurgy, and construction), and region (North America, Europe, Asia Pacific, and the Rest of the World)?

Q.2. Which segments will grow at a faster pace and why?

Q.3. Which region will grow at a faster pace and why?

Q.4. What are the key factors affecting market dynamics? What are the key challenges and business risks in this market?

Q.5. What are the business risks and competitive threats in this market?

Q.6. What are the emerging trends in this market and the reasons behind them?

Q.7. What are some of the changing demands of customers in the market?

Q.8. What are the new developments in the market? Which companies are leading these developments?

Q.9. Who are the major players in this market? What strategic initiatives are key players pursuing for business growth?

Q.10. What are some of the competing products in this market and how big of a threat do they pose for loss of market share by material or product substitution?

Q.11. What M&A activity has occurred in the last 5 years and what has its impact been on the industry?
