Stopper Valve Trends and Forecast

The future of the global stopper valve market looks promising with opportunities in the oil & gas, water treatment, chemical, and steel markets. The global stopper valve market is expected to grow with a CAGR of 4.0% from 2024 to 2030. The major drivers for this market are rising urbanization and industrialization in underdeveloped nations, increasing industry use of process control systems and automation, as well as, increasing consumer demand for premium goods, stringent laws, and safety standards across a number of industries.

A more than 150-page report is developed to help in your business decisions. Sample figures with some insights are shown below.

Stopper Valve by Segment

The study includes a forecast for the global stopper valve by type, application, and region.

Stopper Valve Market by Type [Shipment Analysis by Value from 2018 to 2030]:

Globe Valve

Needle Valve

Stopper Valve Market by Application [Shipment Analysis by Value from 2018 to 2030]:

Oil & Gas

Water Treatment Industry

Chemical Industry

Steel Industry

Others

Stopper Valve Market by Region [Shipment Analysis by Value from 2018 to 2030]:

North America

Europe

Asia Pacific

The Rest of the World

List of Stopper Valve Companies

Companies in the market compete on the basis of product quality offered. Major players in this market focus on expanding their manufacturing facilities, R&D investments, infrastructural development, and leverage integration opportunities across the value chain. With these strategies stopper valve companies cater increasing demand, ensure competitive effectiveness, develop innovative products & technologies, reduce production costs, and expand their customer base. Some of the stopper valve companies profiled in this report include-

Johnson Controls

Emerson

Flowserve

Kitz

Cameron

IMI

Crane

Metso

Circor Energy

KSB

Stopper Valve Market Insights

Lucintel forecasts that globe valve will remain the larger segment over the forecast period due to its adaptability and capacity to control flow in a variety of settings, and the globe valves are suitable for both high- and low-pressure applications and can handle a wide range of fluids, such as steam, water, and gas.

North America will remain the largest region over the forecast period due to growing demand for clean water, heightened focus on environmental laws and safety regulations, along with the growth of shale gas deposits in the region.

Features of the Global Stopper Valve Market

Market Size Estimates: Stopper valve market size estimation in terms of value (\$B).

Trend and Forecast Analysis: Market trends (2018 to 2023) and forecast (2024 to 2030) by various segments and regions.

Segmentation Analysis: Stopper valve market size by type, application, and region in terms of value (\$B).

Regional Analysis: Stopper valve market breakdown by North America, Europe, Asia

Pacific, and Rest of the World.

Growth Opportunities: Analysis of growth opportunities in different type, application, and regions for the stopper valve market.

Strategic Analysis: This includes M&A, new product development, and competitive landscape of the stopper valve market.

Analysis of competitive intensity of the industry based on Porter's Five Forces model.

FAQ

Q1. What is the growth forecast for stopper valve market?

Answer: The global stopper valve market is expected to grow with a CAGR of 4.0% from 2024 to 2030.

Q2. What are the major drivers influencing the growth of the stopper valve market?

Answer: The major drivers for this market are rising urbanization and industrialization in underdeveloped nations, increasing industry use of process control systems and automation, as well as, increasing consumer demand for premium goods, stringent laws, and safety standards across a number of industries.

Q3. What are the major segments for stopper valve market?

Answer: The future of the global stopper valve market looks promising with opportunities in the oil & gas, water treatment, chemical, and steel markets.

Q4. Who are the key stopper valve market companies?

Answer: Some of the key stopper valve companies are as follows:

Johnson Controls

Emerson

Flowserve

Kitz

Cameron

IMI

Crane

Metso

Circor Energy

KSB

Q5. Which stopper valve market segment will be the largest in future?

Answer: Lucintel forecasts that globe valve will remain the larger segment over the forecast period due to its adaptability and capacity to control flow in a variety of settings, and the globe valves are suitable for both high- and low-pressure applications and can handle a wide range of fluids, such as steam, water, and gas.

Q6. In stopper valve market, which region is expected to be the largest in next 5 years?

Answer: North America will remain the largest region over the forecast period due to growing demand for clean water, heightened focus on environmental laws and safety regulations, along with the growth of shale gas deposits in the region.

Q7. Do we receive customization in this report?

Answer: Yes, Lucintel provides 10% customization without any additional cost.

This report answers following 11 key questions:

Q.1. What are some of the most promising, high-growth opportunities for the stopper valve market by type (globe valve and needle valve), application (oil & gas, water treatment industry, chemical industry, steel industry, and others), and region (North America, Europe, Asia Pacific, and the Rest of the World)?

Q.2. Which segments will grow at a faster pace and why?

Q.3. Which region will grow at a faster pace and why?

Q.4. What are the key factors affecting market dynamics? What are the key challenges and business risks in this market?

Q.5. What are the business risks and competitive threats in this market?

Q.6. What are the emerging trends in this market and the reasons behind them?

Q.7. What are some of the changing demands of customers in the market?

Q.8. What are the new developments in the market? Which companies are leading these developments?

Q.9. Who are the major players in this market? What strategic initiatives are key players pursuing for business growth?

Q.10. What are some of the competing products in this market and how big of a threat do they pose for loss of market share by material or product substitution?

Q.11. What M&A activity has occurred in the last 5 years and what has its impact been on the industry?
