Abstracts

It will take 3 working days to update any report and deliver. Old report copy will not be available. We will deliver only updated copies of the reports.

Diagnostic Imaging Market Trends and Forecast

The future of the Swiss diagnostic imaging market looks promising with opportunities in the public hospitals, private hospitals, and imaging centers. The Swiss diagnostic imaging market is expected to reach an estimated \$0.6 billion by 2027 with a CAGR of 4.5% from 2022 to 2027. The major drivers for this market are increasing healthcare expenditure and awareness associated with early diagnosis of disease.

Emerging Trends in the Diagnostic Imaging Market

Emerging trends which have a direct impact on the dynamics of the market include usage of advanced combination imaging procedures and introduction of computer-aided designs.

A total of 59 figures / charts and 53 tables are provided in this 138-page report to help in your business decisions. Sample figures with some insights are shown below. To learn the scope of, benefits, companies researched and other details of diagnostic imaging market in the healthcare industry report download the report brochure.

Diagnostic Imaging Market by Segments

In this market, orthopedic are the largest application market, whereas X-ray is largest market by product. Growth in various segments of the diagnostic imaging market is

given below:

The study includes a trend and forecast for the diagnostic imaging market by product, application, and end use as follows:

By Product [Value (\$ Million) from 2016 to 2027]:

X-ray Systems

- o By Technology

- ? Computed Radiography

- ? Direct Radiography

- ? Analog Imaging

- o By Portability

- ? Stationary Devices

- ? Portable Devices

Computed Tomography (CT) Scan Systems

- o High-end Slice

- o Mid-end Slice

- o Low-end Slice

Magnetic Resonance Imaging (MRI) Systems

- o By Architecture

- ? Closed MRI Devices

? Open MRI Devices

o By Field Strength

? Low-to-mid-field Systems

? High-field Systems

? Very-high-field Systems

? Ultra-high-field Systems

Ultrasound Systems

o By Technology

? 2D Imaging

? 3D and 4D Imaging

? Doppler Imaging

o By Portability

? Trolley/Cart-based Devices

? Compact/Portable Devices

Mammography System

o Digital Imaging

o Analogy Imaging

Nuclear Imaging Systems

- o SPECT (Single-photon Emission Computed Tomography) Nuclear Imaging
- o Hybrid PET (Photon Emission Tomography) Nuclear Imaging

By Application [Value (\$ Million) from 2016 to 2027]:

- Cardiology
- Respiratory
- Neurology
- Orthopedic
- Oncology
- Obstetrics and Gynecology
- Gastroenterology
- Others

By End User [Value (\$ Million) from 2016 to 2027]:

- Public Hospital
- o Private Hospitals and Imaging Centers

List of Diagnostic Imaging Companies

Companies in the market compete on the basis of product quality offered. Major players in this market focus on expanding their manufacturing facilities, R&D investments, infrastructural development, and leverage integration opportunities across the value chain. With these strategies diagnostic imaging companies cater increasing demand, ensure competitive effectiveness, develop innovative products & technologies, reduce production costs, and expand their customer base. Some of the diagnostic imaging companies profiled in this report includes.

Koninklijke Philips N.V.

Siemens AG

Guerbet

Canon

General Electric Company

Diagnostic Imaging Market Insights

Lucintel forecasts that X-ray systems will remain the largest segment due to increasing aging population, technological and infrastructural developments, and the rising prevalence of lifestyle-related diseases.

Within the Swiss diagnostic imaging market, public hospitals and private hospitals & imaging centers are the major end users of diagnostic imaging. Private hospitals and imaging centers will remain the largest end use market due to increasing number of diagnostic imaging centers and rise in prevalence of chronic diseases.

Features of the Diagnostic Imaging Market

Market Size Estimates: Diagnostic imaging market size estimation in terms of value (\$M).

Trend and Forecast Analysis: Market trends (2016-2021) and forecast (2022-2027) by various segments.

Segmentation Analysis: Diagnostic imaging market size by various segments, such as product, application, and end use.

Growth Opportunities: Analysis on growth opportunities in different product, application, and end use for diagnostic imaging market.

Strategic Analysis: This includes competitive landscape for the diagnostic

imaging.

Analysis of competitive intensity of the industry based on Porter's Five Forces model.

FAQ

Q1. What is the diagnostic imaging market size?

Answer: The Swiss diagnostic imaging market is expected to reach an estimated \$0.6 billion by 2027.

Q2. What is the growth forecast for diagnostic imaging market?

Answer: The diagnostic imaging market is expected to grow at a CAGR of ~4.5% from 2022 to 2027.

Q3. What are the major drivers influencing the growth of the diagnostic imaging market?

Answer: The major drivers for this market are increasing healthcare expenditure and awareness associated with early diagnosis of disease.

Q4. What are the major applications or end use industries for diagnostic imaging?

Answer: Public hospitals and private hospitals & imaging centers are the major end use for diagnostic imaging.

Q5. What are the emerging trends in diagnostic imaging market?

Answer: Emerging trends which have a direct impact on the dynamics of the market include adoption of internet of medical things and increasing trend of healthcare data interoperability.

Q6. Who are the key diagnostic imaging companies?

Answer: Some of the key diagnostic imaging companies are as follows:

Koninklijke Philips N.V.

Siemens AG

Guerbet

Canon

General Electric Company

Q7. Which diagnostic imaging product segment will be the largest in future?

Answer: Lucintel forecasts that X-ray systems will remain the largest segment due to increasing aging population, technological and infrastructural developments, and the rising prevalence of lifestyle-related diseases.

Q8. Do we receive customization in this report?

Answer: Yes, Lucintel provides 10% Customization Without any Additional Cost.

This report answers following key questions

Q. 1. What are some of the most promising, high-growth opportunities for the Swiss diagnostic imaging market by product (X-ray systems, CT (computerized tomography) scan systems, MRI (magnetic resonance imaging) systems, ultrasound systems, mammography systems, and nuclear imaging systems), application (cardiology, respiratory, neurology, orthopedic, oncology, obstetrics and gynecology, gastroenterology, and others), end user (public hospitals and private hospitals & imaging centers)?

Q. 2. Which product segment will grow at a faster pace and why?

Q.3. What are the key factors affecting market dynamics? What are the drivers, challenges, and business risks in this market?

Q.4. What are the business risks and competitive threats in this market?

Q.5. What are the emerging trends in this market and the reasons behind them?

Q.6.What are some of the changing demands of customers in the market?

Q.7.What are the new developments in the market and which companies are leading these developments?

Q.8. Who are the major players in this market? What strategic initiatives are being taken by key companies for business growth?

Q.9.What are some of the competing products in this market and how big of a threat do they pose for loss of market share by product substitution?

For any questions related to diagnostic imaging market or related to diagnostic imaging industry, diagnostic imaging company, diagnostic imaging market share, diagnostic imaging market analysis, diagnostic imaging market size, write Lucintel analyst at email: helpdesk@lucintel.com. We will be glad to get back to you soon.

Contents

1. EXECUTIVE SUMMARY

2. SWISS DIAGNOSTIC IMAGING MARKET BACKGROUND AND CLASSIFICATIONS

2.1: Introduction, Background and Classification

2.2: Supply Chain

2.3: Industry Drivers and Challenges

3. MARKET TRENDS AND FORECAST ANALYSIS FROM 2016 TO 2027

3.1: Macroeconomic Trends and Forecasts

3.2: Swiss Diagnostic Imaging Market Trends and Forecast

3.3: Swiss Diagnostic Imaging Market by Product Type

3.3.1: X-Ray Systems

3.3.1.1: X-Ray Systems by Technology

3.3.1.2: X-Ray Systems by Portability

3.3.2: Computed Tomography (CT) Scan Systems

3.3.2.1: CT Scan by Slice

3.3.3: Magnetic Resonance Imaging (MRI) Systems

3.3.3.1: MRI System by Architecture

3.3.3.2: MRI System by Field Strength

3.3.4: Ultrasound Systems

3.3.4.1: Ultrasound Systems by Technology

3.3.4.2: Ultrasound Systems by Portability

3.3.5: Mammography Systems

3.3.5.1: Mammography Systems by Technology

3.3.6: Nuclear Imaging Systems

3.3.6.1: Nuclear Imaging Systems by Technology

3.4: Swiss Diagnostic Imaging Market by Application

3.4.1: Cardiology

3.4.2: Respiratory

3.4.3: Neurology

3.4.4: Orthopedic

3.4.5: Oncology

3.4.6: Obstetrics and Gynecology

3.4.7: Gastroenterology

3.4.8: Others

3.5: Swiss Diagnostic Imaging Market by End User

3.5.1: Public Hospitals

3.5.2: Private Hospitals and Imaging Centers

4. COMPETITOR ANALYSIS

4.1: Product Portfolio Analysis

4.2: Porter's Five Forces Analysis

5. GROWTH OPPORTUNITIES AND STRATEGIC ANALYSIS

5.1: Growth Opportunity Analysis

5.1.1: Growth Opportunities for the Swiss Diagnostic Imaging Market by Product

5.1.2: Growth Opportunities for the Swiss Diagnostic Imaging Market by End Use

5.1.3: Growth Opportunities for the Swiss Diagnostic Imaging Market by Application

5.2: Emerging Trends in the Swiss Diagnostic Imaging Market

5.3: Strategic Analysis

5.3.1: New Product Development

6. COMPANY PROFILES OF LEADING PLAYERS

6.1: Koninklijke Philips N.V.

6.2: Siemens AG

6.3: Guerbet

6.4: Canon

6.5: General Electric Company

6.6: Shimadzu Corporation

6.7: Fujifilm

6.8: Konica Minolta

6.9: Pristem SA

6.10: Josef Betschart AG
