## Abstracts

Get it in 2 to 4 weeks by ordering today

The technologies in electric insulator market have undergone significant change in recent years, with traditional ceramic insulator transitioning to advanced polymeric insulator. The rising wave of new technologies such as, polymer technology are creating significant potential in high voltage industrial applications and driving the demand for electric insulators.

Electric insulator suppliers are using various material technologies, such as glass, ceramic, and polymer for manufacturing of different electric insulators. Increasing investments in T&D networks, refurbishment of the existing grid networks, and growing adoption of renewable energy sources are creating new opportunities for various electric insulator technologies.

This report analyzes technology maturity, degree of disruption, competitive intensity, market potential, and other parameters of various technologies in the electric insulator market. Some insights are depicted below by a sample figure. For more details on figures, the companies researched, and other objectives/benefits on this research report, please download the report brochure.

The study includes technology readiness, competitive intensity, regulatory compliance, disruption potential, trends, forecasts and strategic implications for the global electric insulator technology by application, technology, and region as follows:

Technology Readiness by Technology Type

## Competitive Intensity and Regulatory Compliance

### Disruption Potential by Technology Type

Trends and Forecasts by Technology Type [\$M shipment analysis from 2018 to 2030]:

Ceramic based Electric Insulators

Glass based Electric Insulators

Polymer based Electric Insulators

Technology Trends and Forecasts by Application [\$M shipment analysis from 2018 to 2030]:

Industrial

Ceramic based Electric Insulators

Glass based Electric Insulators

Polymer based Electric Insulators

Utilities

Ceramic based Electric Insulators

Glass based Electric Insulators

Polymer based Electric Insulators

Others

Ceramic based Electric Insulators

Glass based Electric Insulators

## Polymer based Electric Insulators

Technology Trends and Forecasts by Region [\$M shipment analysis for 2018 to 2030]:

North America

United States

Canada

Mexico

Europe

United Kingdom

Germany

France

Asia Pacific

Japan

China

South Korea

India

The Rest of the World

Latest Developments and Innovations in the Electric Insulator Technologies

Companies / Ecosystems

## Strategic Opportunities by Technology Type

Some of the electric insulator companies profiled in this report include ABB, GE, Siemens, Toshiba, and Aditya Birla.

This report answers following 9 key questions:

Q.1 What are some of the most promising and high-growth technology opportunities for the electric insulator market?

Q.2 Which technology will grow at a faster pace and why?

Q.3 What are the key factors affecting dynamics of different technologies? What are the drivers and challenges of these technologies in electric insulator market?

Q.4 What are the levels of technology readiness, competitive intensity and regulatory compliance in this technology space?

Q.5 What are the business risks and threats to these technologies in electric insulator market?

Q.6 What are the latest developments in electric insulator technologies? Which companies are leading these developments?

Q.7 Which technologies have potential of disruption in this market?

Q.8 Who are the major players in this electric insulator market? What strategic initiatives are being implemented by key players for business growth?

Q.9 What are strategic growth opportunities in this electric insulator technology space?

## Contents

### 1. EXECUTIVE SUMMARY

### 2. TECHNOLOGY LANDSCAPE

- 2.1. Technology Background and Evolution
- 2.2. Technology and Application Mapping
- 2.3. Supply Chain

### 3. TECHNOLOGY READINESS

- 3.1. Technology Commercialization and Readiness
- 3.2. Drivers and Challenges in Electric Insulator Technologies
- 3.3. Competitive Intensity
- 3.4. Regulatory Compliance

### 4. TECHNOLOGY TRENDS AND FORECASTS ANALYSIS FROM 2018-2030

- 4.1. Electric Insulator Opportunity
- 4.2. Technology Trends (2018-2023) and Forecasts (2024-2030)
  - 4.2.1. Ceramic based Electric Insulators
  - 4.2.2. Glass based Electric Insulators
  - 4.2.3. Polymer based Electric Insulators
- 4.3. Technology Trends (2018-2023) and Forecast (2024-2030) by Application Segments
  - 4.3.1. Industrial by Technology
    - 4.3.1.1. Ceramic based Electric Insulators
    - 4.3.1.2. Glass based Electric Insulators
    - 4.3.1.3. Polymer based Electric Insulators
  - 4.3.2. Utilities by Technology
    - 4.3.2.1. Ceramic based Electric Insulators
    - 4.3.2.2. Glass based Electric Insulators
    - 4.3.2.3. Polymer based Electric Insulators
  - 4.3.3. Others by Technology
    - 4.3.3.1. Ceramic based Electric Insulators
    - 4.3.3.2. Glass based Electric Insulators
    - 4.3.3.3. Polymer based Electric Insulators

## **5. TECHNOLOGY OPPORTUNITIES (2018-2030) BY REGION**

- 5.1. Electric Insulator Market by Region
- 5.2. North American Electric Insulator Technology Market
  - 5.2.1. United States Electric Insulator Technology Market
  - 5.2.2. Canadian Electric Insulator Technology Market
  - 5.2.3. Mexican Electric Insulator Technology Market
- 5.3. European Electric Insulator Technology Market
  - 5.3.1. The United Kingdom Electric Insulator Technology Market
  - 5.3.2. German Automotive Electric Insulator Technology Market
  - 5.3.3. French Automotive Electric Insulator Technology Market
- 5.4. APAC Electric Insulator Technology Market
  - 5.4.1. Chinese Electric Insulator System Technology Market
  - 5.4.2. Japanese Electric Insulator System Technology Market
  - 5.4.3. Indian Electric Insulator System Technology Market
  - 5.4.4. South Korean Electric Insulator Technology Market
- 5.5. ROW Electric Insulator Technology Market

## **6. LATEST DEVELOPMENTS AND INNOVATIONS IN THE ELECTRIC INSULATOR TECHNOLOGIES**

### **7. COMPANIES / ECOSYSTEM**

- 7.1. Product Portfolio Analysis
- 7.2. Market Share Analysis
- 7.3. Geographical Reach

### **8. STRATEGIC IMPLICATIONS**

- 8.1. Implications
- 8.2. Growth Opportunity Analysis
  - 8.2.1. Growth Opportunities for the Electric Insulator Market by Technology Type
  - 8.2.2. Growth Opportunities for the Electric Insulator Market by Application
  - 8.2.3. Growth Opportunities for the Electric Insulator Market by Region
- 8.3. Emerging Trends in the Electric Insulator Market
- 8.4. Disruption Potential
- 8.5. Strategic Analysis
  - 8.5.1. New Product Development
  - 8.5.2. Capacity Expansion of the Electric Insulator Market

### 8.5.3. Mergers, Acquisitions, and Joint Ventures in the Electric Insulator Market

## **9. COMPANY PROFILES OF LEADING PLAYERS**

9.1. ABB

9.2. GE

9.3. Siemens

9.4. Toshiba

9.5. Aditya Birla

## I would like to order

Product name: Technology Landscape, Trends and Opportunities in the Global Electric Insulator Market

Product link: <https://marketpublishers.com/r/T6CDB4A8CDF3EN.html>

Price: US\$ 4,850.00 (Single User License / Electronic Delivery)

If you want to order Corporate License or Hard Copy, please, contact our Customer Service:
