Abstracts

Telecommunication in Optical Transceiver Market Trends and Forecast

The future of the telecommunication in optical transceiver market looks promising with opportunities in the ultra-long-haul network, long-haul network, and metro network applications. The telecommunication in the global optical transceiver market is expected to reach an estimated \$1.40 billion by 2028 with a CAGR of 11.3% from 2023 to 2028. The major drivers for this market are increasing demand for advanced communication networks, rising adoption of smart devices, and growing need for transceivers along with the expanding number of global telecommunications networks.

A more than 150-page report is developed to help in your business decisions. Sample figures with some insights are shown below.

Telecommunication in Optical Transceiver Market by Segment

The study includes a forecast for the telecommunication in the global optical transceiver market by protocol, data rate, distance, application, and region, as follows:

Telecommunication in Optical Transceiver Market by Protocol [Value (\$B) Shipment Analysis from 2017 to 2028]:

Ethernet

Fiber Channel

CWDM/DWDM

FTTx

Others

Telecommunication in Optical Transceiver Market by Data Rate [Value (\$B) Shipment Analysis from 2017 to 2028]:

Less than 10 Gbps

10 Gbps–40 Gbps

41 Gbps–100 Gbps

More than 100 Gbps

Telecommunication in Optical Transceiver Market by Distance [Value (\$B) Shipment Analysis from 2017 to 2028]:

Less Than 1 Km

1 to 10 Km

11 to 100 Km

More Than 100 Km

Telecommunication in Optical Transceiver Market by Application [Value (\$B) Shipment Analysis from 2017 to 2028]:

Ultra-Long-Haul Networks

Long-Haul Networks

Metro Networks

Telecommunication in Optical Transceiver Market by Region [Value (\$B) Shipment Analysis from 2017 to 2028]:

North America

Europe

Asia Pacific

The Rest of the World

List of Telecommunication Companies in the Global Optical Transceiver

Companies in the market compete on the basis of product quality offered. Major players in this market focus on expanding their manufacturing facilities, R&D investments, infrastructural development, and leverage integration opportunities across the value chain. With these strategies telecommunication in optical transceiver companies cater increasing demand, ensure competitive effectiveness, develop innovative products & technologies, reduce production costs, and expand their customer base. Some of the telecommunication companies in optical transceiver profiled in this report include.

Broadcom

Lumentum

Sumitomo Electric

Accelink

Smartoptics

Telecommunication in Optical Transceiver Market Insights

Lucintel forecasts that 10 Gbps–40 Gbps will remain the largest segment over the forecast period as it has the capacity to transmit data through single and

multi mode fibers for distances of up to 80 km.

Lucintel predicts that ethernet will remain the largest segment over the forecast period because it helps in connecting devices in a wide area network (WAN) or wired local area network (LAN).

APAC is expected to witness highest growth over forecast period due to the robust demand for optical transceivers, rising number of internet and mobile users, and growing application of high bandwidth in the region.

Features of the Telecommunication in Optical Transceiver Market

Market Size Estimates: Optical transceiver for telecommunication market size estimation in terms of value (\$B)

Trend And Forecast Analysis: Market trends (2017-2022) and forecast (2023-2028) by various segments and regions.

Segmentation Analysis: Optical transceiver for telecommunication market size by various segments, such as by protocol, data rate, distance, application, and region

Regional Analysis: Optical transceiver for telecommunication market breakdown by North America, Europe, Asia Pacific, and the Rest of the World.

Growth Opportunities: Analysis on growth opportunities in different by protocol, data rate, distance, application, and regions for the telecommunication in optical transceiver market.

Strategic Analysis: This includes M&A, new product development, and competitive landscape for the telecommunication in optical transceiver market.

Analysis of competitive intensity of the industry based on Porter's Five Forces model.

FAQ

Q1. What is the telecommunication in optical transceiver market size?

Answer: The telecommunication in the global optical transceiver market is expected to reach an estimated \$1.40 billion by 2028.

Q2. What is the growth forecast for telecommunication in optical transceiver market?

Answer: The telecommunication in the global optical transceiver market is expected to grow with a CAGR of 11.3% from 2023 to 2028.

Q3. What are the major drivers influencing the growth of the telecommunication in optical transceiver market?

Answer: The major drivers for this market are increasing demand for advanced communication networks, rising adoption of smart devices, and growing need for transceivers along with the expanding number of global telecommunications networks.

Q4. What are the major segments for telecommunication in optical transceiver market?

Answer: The future of the telecommunication in optical transceiver market looks promising with opportunities in the ultra-long-haul network, long-haul network, and metro network applications.

Q5. Who are the key telecommunication companies in the global optical transceiver market?

Answer: Some of the key telecommunication companies in the global optical transceiver market are as follows:

Broadcom

Lumentum

Sumitomo Electric

Accelink

Smartoptics

Q6. Which telecommunication in optical transceiver segment will be the largest in future?

Answer: Lucintel forecasts that 10 Gbps–40 Gbps will remain the largest segment over the forecast period as it has the capacity to transmit data through single and multi mode fibres for distances of up to 80 km.

Q7. In telecommunication in optical transceiver market, which region is expected to be the largest in next 5 years?

Answer: APAC is expected to witness highest growth over forecast period due to the robust demand for optical transceivers, rising number of internet and mobile users, and growing application of high bandwidth in the region.

Q8. Do we receive customization in this report?

Answer: Yes, Lucintel provides 10% Customization Without any Additional Cost.

This report answers following 11 key questions

Q.1. What are some of the most promising, high-growth opportunities for the telecommunication in optical transceiver market by protocol (ethernet, fiber channel, CWDM/DWDM, FTTx, and others), data rate (less than 10 gbps, 10 gbps–40 gbps, 41 gbps–100 gbps, and more than 100 gbps), distance (less than 1 km, 1 to 10 km, 11 to 100 km, and more than 100 km), application (ultra-long-haul networks, long-haul networks, and metro networks), and region (North America, Europe, Asia Pacific, and the Rest of the World)?

Q.2. Which segments will grow at a faster pace and why?

Q.3. Which region will grow at a faster pace and why?

Q.4. What are the key factors affecting market dynamics? What are the key challenges and business risks in this market?

Q.5. What are the business risks and competitive threats in this market?

Q.6. What are the emerging trends in this market and the reasons behind them?

Q.7. What are some of the changing demands of customers in the market?

Q.8. What are the new developments in the market? Which companies are leading these developments?

Q.9. Who are the major players in this market? What strategic initiatives are key players pursuing for business growth?

Q.10. What are some of the competing products in this market and how big of a threat

do they pose for loss of market share by material or product substitution?

Q.11. What M&A activity has occurred in the last 5 years and what has its impact been on the industry?

For any questions related to telecommunication in the global optical transceiver market or related to telecommunication in the global optical transceiver companies, telecommunication in the global optical transceiver market size, telecommunication in the global optical transceiver market share, telecommunication in the global optical transceiver analysis, write Lucintel analyst at email: helpdesk@lucintel.com we will be glad to get back to you soon.

Contents

1. EXECUTIVE SUMMARY

2. TELECOMMUNICATION IN THE GLOBAL OPTICAL TRANSCEIVER MARKET: MARKET DYNAMICS

2.1: Introduction, Background, and Classifications

2.2: Supply Chain

2.3: Industry Drivers and Challenges

3. MARKET TRENDS AND FORECAST ANALYSIS FROM 2017 TO 2028

3.1: Macroeconomic Trends (2017-2022) and Forecast (2023-2028)

3.2: Telecommunication in the Global Optical Transceiver Market Trends (2017-2022) and Forecast (2023-2028)

3.3: Telecommunication in the Global Optical Transceiver Market by Protocol

3.3.1: Ethernet

3.3.2: Fiber Channel

3.3.3: CWDM/DWDM

3.3.4: FTTx

3.3.5: Others

3.4: Telecommunication in the Global Optical Transceiver Market by Data Rate

3.4.1: Less Than 10 Gbps

3.4.2: 10 Gbps–40 Gbps

3.4.3: 41 Gbps–100 Gbps

3.4.4: More Than 100 Gbps

3.5: Telecommunication in the Global Optical Transceiver Market by Distance

3.5.1: Less Than 1 Km

3.5.2: 1 To 10 Km

3.5.3: 11 To 100 Km

3.5.4: More Than 100 Km

3.6: Telecommunication in the Global Optical Transceiver Market by Application

3.6.1: Ultra-Long-Haul Networks

3.6.2: Long-Haul Networks

3.6.3: Metro Networks

4. MARKET TRENDS AND FORECAST ANALYSIS BY REGION FROM 2017 TO 2028

- 4.1: Telecommunication in the Global Optical Transceiver Market by Region
- 4.2: North American Telecommunication in Optical Transceiver Market
 - 4.2.1: North American Telecommunication in Optical Transceiver Market by Protocol: Ethernet, Fiber Channel, CWDM/DWDM, FTTx, and Others
 - 4.2.2: North American Telecommunication in Optical Transceiver Market by Data Rate: Less Than 10 Gbps, 10 Gbps–40 Gbps, 41 Gbps–100 Gbps, and More Than 100 Gbps
- 4.3: European Telecommunication in Optical Transceiver Market
 - 4.3.1: European Telecommunication in Optical Transceiver Market by Protocol: Ethernet, Fiber Channel, CWDM/DWDM, FTTx, and Others
 - 4.3.2: European Telecommunication in Optical Transceiver Market by Data Rate: Less Than 10 Gbps, 10 Gbps–40 Gbps, 41 Gbps–100 Gbps, and More Than 100 Gbps
- 4.4: APAC Telecommunication in Optical Transceiver Market
 - 4.4.1: APAC Telecommunication in Optical Transceiver Market by Protocol: Ethernet, Fiber Channel, CWDM/DWDM, FTTx, and Others
 - 4.4.2: APAC Telecommunication in Optical Transceiver Market by Data Rate: Less Than 10 Gbps, 10 Gbps–40 Gbps, 41 Gbps–100 Gbps, and More Than 100 Gbps
- 4.5: ROW Telecommunication in Optical Transceiver Market
 - 4.5.1: ROW Telecommunication in Optical Transceiver Market by Protocol: Ethernet, Fiber Channel, CWDM/DWDM, FTTx, and Others
 - 4.5.2: ROW Telecommunication in Optical Transceiver Market by Data Rate: Less Than 10 Gbps, 10 Gbps–40 Gbps, 41 Gbps–100 Gbps, and More Than 100 Gbps

5. COMPETITOR ANALYSIS

- 5.1: Product Portfolio Analysis
- 5.2: Operational Integration
- 5.3: Porter's Five Forces Analysis

6. GROWTH OPPORTUNITIES AND STRATEGIC ANALYSIS

- 6.1: Growth Opportunity Analysis
 - 6.1.1: Growth Opportunities for the Telecommunication in the Global Optical Transceiver Market by Protocol
 - 6.1.2: Growth Opportunities for the Telecommunication in the Global Optical Transceiver Market by Data Rate
 - 6.1.3: Growth Opportunities for the Telecommunication in the Global Optical Transceiver Market by Distance
 - 6.1.4: Growth Opportunities for the Telecommunication in the Global Optical

Transceiver Market by Application

6.1.5: Growth Opportunities for the Telecommunication in the Global Optical

Transceiver Market by Region

6.2: Emerging Trends in the Telecommunication in the Global Optical Transceiver Market

6.3: Strategic Analysis

6.3.1: New Product Development

6.3.2: Capacity Expansion of the Telecommunication in the Global Optical Transceiver Market

6.3.3: Mergers, Acquisitions, and Joint Ventures in the Telecommunication in the Global Optical Transceiver Market

6.3.4: Certification and Licensing

7. COMPANY PROFILES OF LEADING PLAYERS

7.1: Broadcom

7.2: Lumentum

7.3: Sumitomo Electric

7.4: Accelink

7.5: SMARTOPTICS
