Thick Film Material Market Trends and Forecast

The future of the global thick film material market looks promising with opportunities in the automotive, industrial, military, and consumer electronic markets. The global thick film material market is expected to reach an estimated \$24.3 billion by 2028 with a CAGR of 7.1% from 2023 to 2028. The major drivers for this market are increasing in research and development (R&D) activities conducted by multinational packaging companies, growing trend of miniaturization, and rising applications in automotive, industrial, and consumer electronic industries.

A more than 150-page report is developed to help in your business decisions. Sample figures with some insights are shown below.

Thick Film Material Market by Segment

The study includes a forecast for the global thick film material market by product type, application, and region, as follows:

Thick Film Material Market by Product Type [Value (\$B) Shipment Analysis from 2017 to 2028]:

Substrates

Thick Film Inks

Pastes

Thick Film Material Market by Application [Value (\$B) Shipment Analysis from 2017 to 2028]:

Automotive

Industrial

Military

Consumer Electronics

Thick Film Material Market by Region [Value (\$B) Shipment Analysis from 2017 to 2028]:

North America

Europe

Asia Pacific

The Rest of the World

List of Thick Film Material Companies

Companies in the market compete on the basis of product quality offered. Major players in this market focus on expanding their manufacturing facilities, R&D investments, infrastructural development, and leverage integration opportunities across the value chain. With these strategies thick film material companies cater to increasing demand, ensure competitive effectiveness, develop innovative products & technologies, reduce production costs, and expand their customer base. Some of the thick film material companies profiled in this report include.

Heraeus Holding GmbH

Ferro Corp.

Sumitomo Metal Mining

DuPont

Saudi Basic Industries Corporation

Sun Chemical

Thick Film Material Market Insights

Lucintel forecasts that thick film inks will remain the largest segment over the forecast period due to its increasing application in manufacturing of electronic circuits.

Consumer electronics is expected to remain the largest segment due to increasing usage of thick film materials in various electronic devices like smartphones and tablets.

North America will remain the largest region due to the high adoption of advanced packaging solutions and growing demand of consumer electronics in the region.

Features of the Thick Film Material Market

Market Size Estimates: Thick film material market size estimation in terms of value (\$B)

Trend And Forecast Analysis: Market trends (2017-2022) and forecast (2023-2028) by various segments and regions.

Segmentation Analysis: Thick film material market size by various segments, such as by product type, application, and region

Regional Analysis: Thick film material market breakdown by North America,

Europe, Asia Pacific, and the Rest of the World.

Growth Opportunities: Analysis on growth opportunities in different by product type, application, and regions for the thick film material market.

Strategic Analysis: This includes M&A, new product development, and competitive landscape for the thick film material market.

Analysis of competitive intensity of the industry based on Porter's Five Forces model.

FAQ

Q1. What is the thick film material market size?

Answer: The global thick film material market is expected to reach an estimated \$24.3 billion by 2028.

Q2. What is the growth forecast for thick film material market?

Answer: The global thick film material market is expected to grow with a CAGR of 7.1% from 2023 to 2028.

Q3. What are the major drivers influencing the growth of the thick film material market?

Answer: The major drivers for this market are increasing in research and development (R&D) activities conducted by multinational packaging companies, growing trend of miniaturization, and rising applications in automotive, industrial, and consumer electronic industries.

Q4. What are the major segments for thick film material market?

Answer: The future of the thick film material market looks promising with opportunities in the automotive, industrial, military, and consumer electronic markets.

Q5. Who are the key thick film material companies?

Answer: Some of the key thick film material companies are as follows:

Heraeus Holding GmbH

Ferro Corp.

Sumitomo Metal Mining

DuPont

Saudi Basic Industries Corporation

Sun Chemical

Q6. Which thick film material segment will be the largest in future?

Answer: Lucintel forecasts that thick film inks will remain the largest segment over the forecast period due to its increasing application in manufacturing of electronic circuits.

Q7. In thick film material market, which region is expected to be the largest in next 5 years?

Answer: North America will remain the largest region due to the high adoption of advanced packaging solutions and growing demand of consumer electronics in the region.

Q8. Do we receive customization in this report?

Answer: Yes, Lucintel provides 10% Customization Without any Additional Cost.

This report answers following 11 key questions

Q.1. What are some of the most promising, high-growth opportunities for the thick film material market by product type (substrates, thick film inks, and pastes), application (automotive, industrial, military, consumer electronics, and others), and region (North America, Europe, Asia Pacific, and the Rest of the World)?

Q.2. Which segments will grow at a faster pace and why?

Q.3. Which region will grow at a faster pace and why?

Q.4. What are the key factors affecting market dynamics? What are the key challenges and business risks in this market?

- Q.5. What are the business risks and competitive threats in this market?
- Q.6. What are the emerging trends in this market and the reasons behind them?
- Q.7. What are some of the changing demands of customers in the market?
- Q.8. What are the new developments in the market? Which companies are leading these developments?
- Q.9. Who are the major players in this market? What strategic initiatives are key players pursuing for business growth?
- Q.10. What are some of the competing products in this market and how big of a threat do they pose for loss of market share by material or product substitution?
- Q.11. What M&A activity has occurred in the last 5 years and what has its impact been on the industry?

For any questions related to thick film material market or related to thick film material companies, thick film material market size, thick film material market share, thick film material analysis, thick film material market growth, thick film material market research, write Lucintel analyst at email: helpdesk@lucintel.com we will be glad to get back to you soon.

Contents

1. EXECUTIVE SUMMARY

2. GLOBAL THICK FILM MATERIAL MARKET: MARKET DYNAMICS

2.1: Introduction, Background, and Classifications

2.2: Supply Chain

2.3: Industry Drivers and Challenges

3. MARKET TRENDS AND FORECAST ANALYSIS FROM 2017 TO 2028

3.1: Macroeconomic Trends (2017-2022) and Forecast (2023-2028)

3.2: Global Thick Film Material Market Trends (2017-2022) and Forecast (2023-2028)

3.3: Global Thick Film Material Market by Product Type

3.3.1: Substrates

3.3.2: Thick Film Inks

3.3.3: Pastes

3.4: Global Thick Film Material Market by Application

3.4.1: Automotive

3.4.2: Industrial

3.4.3: Military

3.4.4: Consumer Electronics

3.4.5: Others

4. MARKET TRENDS AND FORECAST ANALYSIS BY REGION FROM 2017 TO 2028

4.1: Global Thick Film Material Market by Region

4.2: North American Thick Film Material Market

4.2.1: North American Thick Film Material Market by Product Type: Substrates, Thick Film Inks, and Pastes: Substrates, Thick Film Inks, and Pastes

4.2.2: North American Thick Film Material Market by Application: Automotive, Industrial, Military, Consumer Electronics, and Others

4.3: European Thick Film Material Market

4.3.1: European Thick Film Material Market by Product Type: Substrates, Thick Film Inks, and Pastes

4.3.2: European Thick Film Material Market by Application: Automotive, Industrial, Military, Consumer Electronics, and Others

4.4: APAC Thick Film Material Market

4.4.1: APAC Thick Film Material Market by Product Type: Substrates, Thick Film Inks, and Pastes

4.4.2: APAC Thick Film Material Market by Application: Automotive, Industrial, Military, Consumer Electronics, and Others

4.5: ROW Thick Film Material Market

4.5.1: ROW Thick Film Material Market by Product Type: Substrates, Thick Film Inks, and Pastes

4.5.2: ROW Thick Film Material Market by Application: Automotive, Industrial, Military, Consumer Electronics, and Others

5. COMPETITOR ANALYSIS

5.1: Product Portfolio Analysis

5.2: Operational Integration

5.3: Porter's Five Forces Analysis

6. GROWTH OPPORTUNITIES AND STRATEGIC ANALYSIS

6.1: Growth Opportunity Analysis

6.1.1: Growth Opportunities for the Global Thick Film Material Market by Product Type

6.1.2: Growth Opportunities for the Global Thick Film Material Market by Application

6.1.3: Growth Opportunities for the Global Thick Film Material Market by Region

6.2: Emerging Trends in the Global Thick Film Material Market

6.3: Strategic Analysis

6.3.1: New Product Development

6.3.2: Capacity Expansion of the Global Thick Film Material Market

6.3.3: Mergers, Acquisitions, and Joint Ventures in the Global Thick Film Material Market

6.3.4: Certification and Licensing

7. COMPANY PROFILES OF LEADING PLAYERS

7.1: Heraeus Holding GmbH

7.2: Ferro Corp.

7.3: Sumitomo Metal Mining

7.4: DuPont

7.5: Saudi Basic Industries Corporation

7.6: Sun Chemical
