The future of the thin layer deposition market looks promising with opportunities in the IT and telecom, electronics, energy and power, automotive, and aerospace and defense industries. The global thin layer deposition market is expected to grow with a CAGR of 13% to 15% from 2021 to 2026. The major drivers for this market are increasing demand for thin film semiconductors in solar panels and increasing demand for thin layer deposition in flexible electronics.

A more than 150 page report is developed to help in your business decisions. Sample figures with some insights are shown below. To learn the scope of, benefits, companies researched and other details of thin layer deposition market report download the report brochure.

The study includes trends and forecasts for the global thin layer deposition market by deposition technology, end use industry, and region as follows:

By Deposition Technology [\$M shipment analysis for 2015 – 2026]:

Physical Vapor Deposition (PVD)

Chemical Vapor Deposition (CVD)

Atomic Layer Deposition (ALD)

By End Use Industry [\$M shipment analysis for 2015 – 2026]:

IT & Telecom

Electronics

Energy & Power

Automotive

Aerospace & Defense

Others

By Region [\$M shipment analysis for 2015 – 2026]:

North America

United States

Canada

Mexico

Europe

Germany

United Kingdom

France

Italy

Asia Pacific

China

Japan

India

South Korea

The Rest of the World

CVD will remain the largest deposition technology segment during the forecast period due to its low cost and easier manufacturing process.

Electronics will remain the largest end use industry during the forecast period due to the rise in the sale of microelectronics and consumer electronics.

Asia Pacific will remain the largest region in the forecast period due to growth in the electronics and semiconductor industries, mainly in China, South Korea, and Taiwan, which will lead to an increased demand for deposition technologies.

Some of the thin layer deposition companies profiled in this report include AIXTRON, Angstrom Engineering Inc., Blue Wave Semiconductors, CANON ANELVA CORPORATION, CVD Equipment Corporation, INTEVAC, INC, Kenosistec Srl, LAM RESEARCH CORPORATION, PVD Products, Inc., SAMCO INC.

Features of Thin Layer Deposition Market

Market Size Estimates: Thin layer deposition market size estimation in terms of value (\$M)

Trend and Forecast Analysis: Market trends (2015-2020) and forecast (2021-2026) by various segments and regions.

Segmentation Analysis: Market size by technology type and end use industry

Regional Analysis: Thin layer deposition market breakdown by North America, Europe, Asia Pacific, and the Rest of the World.

Growth Opportunities: Analysis on growth opportunities in different end use industries, technology type, and regions for thin layer deposition market.

Strategic Analysis: This includes M&A, new product development, and competitive landscape for the thin layer deposition market.

Analysis of competitive intensity of the industry based on Porter's Five Forces model.

This report answers following 11 key questions

Q.1 What are some of the most promising potential, high-growth opportunities for the global thin layer deposition market by technology type (Physical Vapor Deposition (PVD), Chemical Vapor Deposition (CVD), Atomic Layer Deposition (ALD)), end use industry (IT & telecom, electronics, energy & power, automotive, aerospace & defense, and others), and region (North America, Europe, Asia Pacific, and the Rest of the World)?

Q.2 Which segments will grow at a faster pace and why?

Q.3 Which regions will grow at a faster pace and why?

Q.4 What are the key factors affecting market dynamics? What are the drivers and challenges of the thin layer deposition market?

Q.5 What are the business risks and threats to the thin layer deposition market?

Q.6 What are the emerging trends in the thin layer deposition market and the reasons behind them?

Q.7 What are some changing demands of customers in the thin layer deposition market?

Q.8 What are the new developments in the thin layer deposition market? Which companies are leading these developments?

Q.9 Who are the major players in the thin layer deposition market? What strategic initiatives are being implemented by key players for business growth?

Q.10 What are some of the competitive products and processes in the thin layer deposition market, and how big of a threat do they pose for loss of market share via material or product substitution?

Q.11 What M&A activities did take place in the last five years in the thin layer deposition market?

Contents

Executive Summary

Market Background and Classifications

Introduction, Background, and Classifications

Supply Chain

Industry Drivers and Challenges

Market Trends and Forecast Analysis from 2015 t 2026

Macroeconomic Trends (2015-2020) and Forecast (2021-2026)

Global Thin Layer Deposition Market Trends (2015-2020) and Forecast (2021-2026)

Global Thin Layer Deposition Market by Deposition Technology

Physical Vapor Deposition (PVD)

Chemical Vapor Deposition (CVD)

Atomic Layer Deposition (ALD)

Global Thin Layer Deposition Market by End Use Industry

IT & Telecom

Electronics

Energy & Power

Automotive

Aerospace & Defense

Others

Market Trends and Forecast Analysis by Region from 2015 t 2026

Global Thin Layer Deposition Market by Region

North American Thin Layer Deposition Market

Market by Deposition Technology

Market by End Use Industry

The US Thin Layer Deposition Market

The Canadian Thin Layer Deposition Market

The Mexican Thin Layer Deposition Market

European Thin Layer Deposition Market

Market by Deposition Technology

Market by End Use Industry

German Thin Layer Deposition Market

United Kingdom Thin Layer Deposition Market

French Thin Layer Deposition Market

Italian Thin Layer Deposition Market

APAC Thin Layer Deposition Market

Market by Deposition Technology

Market by End Use Industry

Chinese Thin Layer Deposition Market
Japanese Thin Layer Deposition Market
Indian Thin Layer Deposition Market
South Korean Thin Layer Deposition Market
ROW Thin Layer Deposition Market
Market by Deposition Technology
Market by End Use Industry
Competitor Analysis
Product Portfolio Analysis
Geographical Reach
Porter's Five Forces Analysis
Growth Opportunities and Strategic Analysis
Growth Opportunity Analysis
Growth Opportunities for the Global Thin Layer Deposition Market by Deposition Technology
Growth Opportunities for the Global Thin Layer Deposition Market by End Use Industry
Growth Opportunities for the Global Thin Layer Deposition Market by Region
Emerging Trends in the Global Thin Layer Deposition Market
Strategic Analysis
New Product Development
Capacity Expansion of the Global Thin Layer Deposition Market
Technology Development
Mergers and Acquisitions in the Global Thin Layer Deposition Industry
Company Profiles of Leading Players
AIXTRON
Angstrom Engineering Inc.
Blue Wave Semiconductors
CANON ANELVA CORPORATION
CVD Equipment Corporation
INTEVAC, INC
Kenosistec Srl
LAM RESEARCH CORPORATION
PVD Products, Inc.
