A more than 150-page report is developed to help in your business decisions. A sample figure with some insights is shown below. To learn the scope, benefits, companies researched and other details of the global threat intelligence market report, please download the report brochure.

Threat Intelligence Market by Segments

Threat Intelligence Market by Segments

The study includes trends and forecast for the global threat intelligence market by component, deployment model, application, end use industry, and region, as follows:

Threat Intelligence Market by Component [Value (\$B) Shipment Analysis for 2017 to 2028]:

Solution

Services

Threat Intelligence Market by Deployment Model [Value (\$B) Shipment Analysis for 2017 to 2028]:

Cloud

On-premise

Threat Intelligence Market by Application [Value (\$B) Shipment Analysis for 2017 to 2028]:

Information Security Management

Log Management

Risk Management

Identity & Access Management

Others

Threat Intelligence Market by End Use Industry [Value (\$B) Shipment Analysis for 2017 to 2028]:

BFSI

Retail & E-Commerce

It & Telecommunication

Manufacturing

Healthcare

Others

Threat Intelligence Market by Region [Value (\$B) Shipment Analysis for 2017 to 2028]:

North America

Europe

Asia Pacific

The Rest of the World

List of Threat Intelligence Companies

Companies in the market compete on the basis of product quality offered. Major players in this market focus on expanding their manufacturing facilities, R&D investments, infrastructural development, and leverage integration opportunities across the value chain. With these strategies, threat intelligence companies cater to increasing demand, ensure competitive effectiveness, develop innovative products & technologies, reduce production costs, and expand their customer base. Some of the threat intelligence companies profiled in this report include--

IBM Corporation

Dell
CrowdStrike
Anomali
Fortinet
Symantec Corporation
McAfee
Webroot
Juniper Networks
Farsight Security

Threat Intelligence Market Insights

Lucintel forecasts that cloud-based will remain the largest deployment model segment over the forecast period because it offers unified platform in the form of SaaS-based security services to secure business applications. Also, cloud-based deployment model is preferred by SMEs.

Within this market, BFSI is expected to remain the largest end use industry segment due to its sensitive information & data, and the growing adoption of the digital platform makes them vulnerable to cyberattacks.

North America will remain the largest region due to rise in the adoption of IoT-enabled devices, the availability of adequate digital infrastructure, and the emergence of numerous financial institutions seeking standard risk detection services.

Features of the Threat Intelligence Market

Market Size Estimates: Threat intelligence market size estimation in terms of value (\$B)

Trend And Forecast Analysis: Market trends (2017-2022) and forecast (2023-2028) by various segments and regions.

Segmentation Analysis: Threat intelligence market size by various segments, such as by component, deployment model, application, end use industry and region.

Regional Analysis: Threat intelligence market breakdown by North America, Europe, Asia Pacific, and the Rest of the World.

Growth Opportunities: Analysis on growth opportunities in different by component, deployment model, application, end use industry and regions for the threat intelligence market.

Strategic Analysis: This includes M&A, new product development, and competitive landscape for the Threat Intelligence market.

Analysis of competitive intensity of the industry based on Porter's Five Forces model.

FAQ

Q1. What is the threat intelligence market size?

Answer: The global Threat Intelligence market is expected to reach an estimated \$xx billion by 2028.

Q2. What is the growth forecast for threat intelligence market?

Answer: The global threat intelligence market is expected to grow with a CAGR of 6% to 8% from 2023 to 2028.

Q3. What are the major drivers influencing the growth of the threat intelligence market?

Answer: The major drivers for this market are increasing prevalence of cyber-attacks and data breaches, growing adoption of threat intelligence solutions & services and rising use of cloud-based services & internet-of-things (IoT) devices.

Q4. What are the major segments for threat intelligence market?

Answer: The future of the threat intelligence market looks promising with opportunities in the BFSI, retail & e-commerce, IT & telecommunication, manufacturing, and healthcare sector.

Q5. Who are the key threat intelligence companies?

Answer: Some of the key Threat Intelligence companies are as follows:

IBM Corporation

Dell

CrowdStrike

Anomali

Fortinet

Symantec Corporation

McAfee

Webroot

Juniper Networks

Farsight Security

Q6. Which threat intelligence segment will be the largest in future?

Answer: Lucintel forecast that cloud-based will remain the largest deployment model segment over the forecast period because it offers unified platform in the form of SaaS-based security services to secure business applications and are preferred by SMEs.
