Abstracts

The future of the global natural fiber composites market looks promising with opportunities in automotive, and building and construction applications. The global natural fiber composites market is expected to decline in 2020 due to global economic recession led by COVID-19. However, the market will witness recovery in the year 2021, and it is expected to reach an estimated \$0.6 billion by 2026 with a CAGR of 5.2% from 2021 to 2026. The major driver for the growth of this market is the rise in demand for lightweight and environmentally sustainable composite materials in various applications, such as automotive, building & construction, and others.

Emerging trends, which have a direct impact on the dynamics of the industry, include government support to innovate and commercial use of bio-based composites, and emergence of new applications.

A total of 92 figures / charts and 75 tables are provided in this 160-page report to help in your business decisions. A sample figure with insights is shown below. To learn the scope of benefits, companies researched, and other details of the global natural fiber composites market report, please download the report brochure.

The study includes trends and forecast for the global natural fiber composites market by application, process, fiber, resin, and region as follows:

By Application [Volume (M lbs) and \$M shipment analysis from 2015 to 2026]:

Automotive

Building and Construction

Others

By Process [Volume (M lbs) and \$M shipment analysis from 2015 to 2026]:

Compression Molding

Injection Molding

Others

By Fiber [Volume (M lbs) and \$M shipment analysis from 2015 to 2026]:

Hemp

Flax

Kenaf

Jute

Others

By Resin [Volume (M lbs) and \$M shipment analysis from 2015 to 2026]:

Polypropylene (PP)

PE

PLA

Others

By Region [Volume (M lbs) and \$M shipment analysis from 2015 to 2026]:

North America

Europe

Rest of the World

In this market, hemp, flax, kenaf, and jute are the major fibers used for in different applications. Lucintel forecasts that flax natural fiber composites is expected to remain the largest segment due to its environmentally friendly alternative of synthetic fibers in fiber reinforced polymer composites. Hemp natural fiber composites segment is expected to witness the highest growth in the forecast period.

Within the global natural fiber composites market, automotive segment will remain the largest application by value and value due to increasing concern for passenger safety, government mandates for better fuel economy, and end-of-life vehicles directive. Automotive is expected to witness highest growth over the forecast period.

Europe is expected to remain the largest market for natural fiber composites because of growth in applications. Europe is also expected to witness the highest growth over the forecast period because of due to higher acceptance level of environmentally sustainable composite materials by automotive OEMs, government directives.

Some of the global natural fiber composites manufacturers profiled in this report include Procotex, FlexForm, FiberGran, GreenGran, and Tecnaro.

Features of the Global Natural Fiber Composites Market

Market Size Estimates: Global natural fiber composites market size estimation in terms of value (\$M) shipment and volume (M lbs)

Trend and Forecast Analysis: Global natural fiber composites market trends (2015-2020) and forecast (2021-2026) by various segments and regions.

Segmentation Analysis: Global natural fiber composites market size by various segments, such as application, process, fiber, and resin in terms of value and volume shipment.

Regional Analysis: Global natural fiber composites market breakdown by North

America, Europe, and Rest of the World.

Growth Opportunities: Analysis on growth opportunities in different as application, process, fiber, resin, and regions for the global natural fiber composites market.

Strategic Analysis: This includes M&A, capacity expansion, and competitive landscape for the global natural fiber composites market.

Analysis of competitive intensity of the industry based on Porter's Five Forces model.

This report answers following 11 key questions

Q.1 What are some of the most promising potential, high-growth opportunities for the global natural fiber composites market as application (automotive, building and construction, and others), fiber (hemp, flax, kenaf, jute, and others), resin (polypropylene, polyethylene, polylactic acid, and others), process (compression molding, injection molding, and others), and region (North America, Europe, and Rest of the World)?

Q.2 Which segments will grow at a faster pace and why?

Q.3 Which regions will grow at a faster pace and why?

Q.4 What are the key factors affecting market dynamics? What are the drivers and challenges of the global natural fiber composites market?

Q.5 What are the business risks and threats to the global natural fiber composites market?

Q.6 What are emerging trends in this global natural fiber composites market and the reasons behind them?

Q.7 What are some changing demands of customers in the global natural fiber composites market?

Q.8 What are the new developments in the global natural fiber composites market? Which companies are leading these developments?

Q.9 Who are the major players in the global natural fiber composites market? What strategic initiatives are being implemented by key players for business growth?

Q.10 What are some of the competitive products and processes in the global natural fiber composites market, and how big of a threat do they pose for loss of market share via material or product substitution?

Q.11 What M&A activities did take place in the last five years in the global natural fiber

composites market?

Contents

1. EXECUTIVE SUMMARY

2. MARKET BACKGROUND AND CLASSIFICATIONS

2.1: Introduction, Background, and Classifications

2.2: Supply Chain

2.3: Industry Drivers and Challenges

3. MARKET TRENDS AND FORECAST ANALYSIS FROM 2015 TO 2026

3.1: Macroeconomic Trends and Forecast

3.1.1: Macroeconomic Trends

3.1.2: Macroeconomic Forecast

3.2: Global Natural Fiber Composites Market Trends and Forecast

3.3: Global Natural Fiber Composites Market by Application

3.3.1: Automotive

3.3.2: Building and Construction

3.3.3: Others

3.4: Global Natural Fiber Composites Market by Process⁹⁵

3.4.1: Compression Molding

3.4.2: Injection Molding

3.4.3: Others

3.5: Global Natural Fiber Composites Market by Fiber

3.5.1: Hemp

3.5.2: Flax

3.5.3: Kenaf

3.5.4: Jute

3.5.5: Others

3.6: Global Natural Fiber Composites Market by Resin

3.6.1: Polypropylene

3.6.2: PE

3.6.3: PLA

3.6.4: Others

4. MARKET TRENDS AND FORECAST ANALYSIS BY REGION

4.1: Global Natural Fiber Composites Market by Region

4.2: North American Natural Fiber Composites Market

4.2.1: Market by Application: Automotive, Building and Construction, and Others

4.3: European Natural Fiber Composites Market

4.3.1: Market by Application: Automotive, Building and Construction, and Others

4.4: ROW Natural Fiber Composites Market

4.4.1: Market by Application: Automotive, Building and Construction, and Others

5. COMPETITOR ANALYSIS

5.1: Product Portfolio Analysis

5.2: Geographical Reach

5.3: Porter's Five Forces Analysis

6. GROWTH OPPORTUNITY AND STRATEGIC ANALYSIS

6.1: Growth Opportunities Analysis

6.1.1: Growth Opportunities for Global Natural Fiber Composites Market by Application

6.1.2: Growth Opportunities for Global Natural Fiber Composites Market by Process

6.1.3: Growth Opportunities for Global Natural Fiber Composites Market by Fiber Type

6.1.4: Growth Opportunities for Global Natural Fiber Composites Market by Resin Type

6.1.5: Growth Opportunities for the Global Natural Fiber Composites Market by Region

6.1.6: Innovations in Global Natural Fiber Composites Market

6.2: Emerging Trends in the Global Natural Fiber Composites Market

6.3: Strategic Analysis

6.3.1: Capacity Expansion of the Global Natural Fiber Composites Market

6.3.2: Mergers, Acquisitions, and Joint Ventures in the Global Natural Fiber Composites Market

7. COMPANY PROFILES OF LEADING PLAYERS

7.1: Procotex Corporation S.A.

7.2: FlexForm Technologies

7.3: FIBERGRAN GMBH & CO. KG

7.4: GreenGran B.V

7.5: Tecnar GMBH
